

## Chasing pesky birds with the evil eye

Scare-Eye is a humane, environmentally safe and economical way to scare away flocks of irritating birds immediately. Scare-Eye is a weatherproof, heavy duty vinyl inflatable sphere. Hanging the Scare-Eye from trees or long poles intimidates gangs of nuisance birds, including woodpeckers, who are repelled by its bright color and unusual design. Huge silver mylar eyes exaggerate the glaring stare and gaping mouth of natural enemies.

Scare-Eyes are available in three different colors; yellow,

white and black. Each comes with an elastic attachment cord, red and silver mylar streamers, and six silver mylar "eyes." The number of Scare-Eyes necessary per acre depends on the amount and species of birds within that environment. Research has shown that for maximum effectiveness the user should rotate the colors about every three weeks. For more information contact: Bird-X, Inc., Dept. GCN, 730 West Lake St., Chicago, Ill. 60661; or fax 312-648-0319.

## Ball picker-upper from Par Car

The new Ball Picker from Columbia Par Car features an enclosure made of expanded steel with a high carbon tubular steel frame.

The cage has easy-to-remove doors, allows high visibility, and is more attractive than competitive models.

Also featured on the enclosure is a light colored top with UV stabilizer for sunlight deflection. The Ball

Picker enclosure is specifically designed for easy installation on gasoline and electric model Columbia ParCars, Utilitrucks, Utilidumps and the Utilitruck 2000XB.

For more information, contact Columbia ParCar P.O. Box 30, 350 N. Dewey Ave., Reedsburg, Wis. 53959; or call 608-524-8888.

## Trashmates, new from Par Aide

For years, player-generated waste has been an unsightly problem on the course. Par Aide's new Trash Mates keep trash out of sight and act together as a recycling center and a waste receptacle.

Thanks to a restricted opening in the snap-on, "Cans Only" lid, players separate cans right on the course. A second Trash Mate handles the rest of the trash with interchangeable lids and accepts common bag liners for easy emptying. Trash Mates are designed to deliver more mounting versatility than any other container — unique, universal mounting brackets offer many choices and attach easily to any two-inch pipe or vertical surface.

For more information on Par Aide's Trash Mates, contact Par Aide Products Company at: 3565 Hoffman Road East, St. Paul, Minn. 55110. For the name of the Par Aide dealer nearest you, call 612-779-9851.

## Turf Type Bermudagrass

# THE BEST GRASS YOU EVER SEED

That's what you get with Cheyenne... the best grass you ever seed!

Cheyenne turf type bermuda grass gives you the texture and uniformity of sod at a fraction of the cost. It also gives you characteristics like cold tolerance, dwarf-like growth habit, and mowing levels of down to 1/4". Cheyenne performs well under heavy traffic and repairs itself rapidly when damaged. All this in a bermuda grass from seed that greens up significantly earlier than other bermudas and stays green longer after first frost.

Cheyenne's dark green color and uniform texture make it the ideal grass for golf courses, parks, playing fields and lawns.

amazing new... think about seeded!
