"We save time and money on maintenance."

"The Courtesy Golf Cup Protectors are an inexpensive and smart idea. Each time a player reaches into a hole, they receive positive messages like Replace and Fill Divots, Obey Cart Signs and four others. We know the message sinks in because we see results: better etiquette and less maintenance. The disks just snap together and slide into the bottom of the cup. Two seconds saves weeks of repair. The Courtesy Golf Cup Protectors are a real asset to our maintenance program." R. McGuinness, Woodmere CC, NY.

18 disks per pack - 1 to 100 packs \$11.50 each pack + shp. Personalized Courtesy Disks also available at extra charge. 1746 NW 84th Dr., Coral Springs FL 33071, 305-753-0464

THE ILD™ LIGHTNING PROTECTION SYSTEM

patent #5,291,208 and other patents pending
by RABUN LABS, INC.

Automatically detects the presence of lightning BEFORE it gets close enough to do the damage, gives an alarm, switches power sources, AND/OR automatically disconnects power, phones and coax lines until the storm is out of the area, then automatically reconnects.

EASY INSTALLATION!

Models available for protection of irrigation management control & data distribution equipment, pump motors and field satellite controllers, computers & data processing equipment, club house alerting system, and custom design.

Coming soon -- quiet alert for your golf cart!

even most bureau-brokers, because I believe most do wear white hats.

But Jonathan H. Adler declared: "Most classroom environmental information, including most that is listed at the EPA clearinghouse, comes from literature and teaching guides drafted and distributed by the major environmental groups."

But, that was more than two years ago and Carol Browner seems bent on rectifying the situation. Let's give her the benefit of the doubt. Remember, the EPA-ites in the past have not even believed in deadlines. Now they have one — Sept. 30 — set by their own commander.

"When you consider that EPA deals with the two most process-oriented professions — science and law — it's almost a wonder we ever get anything done," defended EPA golf liaison officer Mike Scott. "And at the same time, it's a testimony to the competence and diligence of EPA employees that we work relatively fast, given the fact that we're dealing in the context of law and science. It's not like dealing with economics, particularly monetary policy where things come and go in 30-day cycles, you can move pretty quick."

The EPA may never get down to those 30-day cycles to get things done. But what Browner has done is a step in the right direction.

•••

A leader in the turfgrass industry said New Zealand and Australia use the United States as a "dumping ground" for bad grass seed. On hearing this, my wife said: "And we've given them Coca-Cola, blue jeans and The Grateful Dead. You reap what you sow, don't you?"
