

BRIEFS

JONES OPENS FLORIDA TRACK

ODESSA, Fla. — Fox Hollow Golf Club, an upscale public-access facility featuring an 18-hole championship golf course designed by Robert Trent Jones Sr., opened for play Jan. 20. Fox Hollow is the centerpiece of the 3685-acre master-planned Trinity Communities development in southwest Pasco County 30 miles north of Tampa. Each hole has six sets of tees on the par-71 course which can play from 4,454 to 7,138 yards. William Sandri of Bernardston, Mass., owns and will operate Fox Hollow. Sandri also operates the award-winning Crumpin-Fox Club in Bernardston, Mass., designed by Jones.

MAPLES TRACK REOPENS

SUNSET BEACH, N.C. — The Dan Maples Golf Course at Sea Trail Plantation and Golf Links has opened for play after undergoing a renovation. First opened in 1985, the Maples Course is Sea Trail's original track. The renovation consisted of resurfacing eight greens with Penncross bentgrass to allow for more consistent play.

Dan Maples

PALMER HIRES VEAL

Joe T. Veal has joined the staff of Palmer Course Design Co. as design associate and construction inspector. Veal interned with the company during summer breaks from his studies at the University of Georgia, where he graduated with a bachelor's degree in landscape architecture. After graduation and prior to joining Palmer Course Design, he worked as a project superintendent for MacCurrach Golf Construction Co., Inc.

SULLIVAN TABBED FOR NY JOB

VALHALLA, N.Y. — Sullivan Architects of Valhalla has been retained by Westchester County as the project architect and Cornish and Silva Inc. as course architects for the expansion and rehabilitation of Mohansic Golf Course. Sullivan Architects and the County officials are hoping to have golfers playing the expanded facility by the spring of 1997.

BARBARON BUILDING AT CYPRESS LAKE

LAKELAND, Fla. — Barbaron, Inc. of Crystal River has been selected by Cypress Lakes Ventures to construct a new 18-hole additional course at the Cypress Lake Golf and Country Club here. The course has been designed by Powell Golf Design of Bradenton and is scheduled to open in the early fall.

Gotham City golf industry gets new face

Manhattan's piers get new wrinkle with golf range

By MARK LESLIE

NEW YORK CITY — New York City is reclaiming its Manhattan waterfront and golf has a hand in it. The natural feel of a golf course will be blended with a high-tech delivery system in a major project that will bring a four-deck golf range to a Hudson River pier.

"We're taking an urban concept you'd find in Japan and importing it to New York — the difference being, instead of a smaller parcel of land, our parcel happens to be a pier and one that is structurally quite substantial," said Steve diCostanzo, a consultant on the Chelsea Piers project.

Construction will begin in late spring on the Chelsea Piers Golf

Golf facilities at Chelsea Piers, above, and Liberty Park, below, will greatly enhance the golfing options for New Yorkers.

NYC skyline the backdrop for Jersey City track

By PETER BLAIS

JERSEY CITY, N.J. — There is a light at the end of the Liberty State Park tunnel. And the chief proponent of the long-awaited golf course project says there is a better than even chance believers will be able to drive through it by summer's end.

"We're hoping to get Department of Environmental Protection and Energy approval within the next six months," said Peter Ylvisaker, president of the non-profit Liberty State Park Development Corp.

If approved, construction should start in early 1995. The course could be ready for play in 1997, two decades after the idea of a golf course was first proposed.

Florida Public Television tunes in: How to construct a golf course

By MARK LESLIE

BONITA SPRINGS, Fla. — With golf development booming all around it and the golf industry bringing billions of dollars a year into the state, the southwest Florida public television station is broadcasting a 13-part documentary, How To Build a Golf Course.

"Golf is a large component of the construction and real-estate business in southwest Florida. Most real-estate developments are using golf courses as a prime marketing tool," said Kirk Lehtomaa, station manager at WSFP-TV, who will offer the series nationwide this summer. "Within a 10-mile radius of our station, at least six or seven 18-hole

championship courses are under construction."

With that in mind, Lehtomaa spent part of 1993 following the construction of a fourth nine holes at Pelican's Nest here, from pre-construction site inspections in April through opening day in December. The result is the series of half-hour shows which began airing Jan. 20. Each show will be broadcast twice — Sundays at 2 p.m. and Thursdays at 8:30 p.m.

In the first segment an environmental consultant walks the audience over the course, pointing out wildlife that will have to be protected and enhanced. In another show, Wadsworth Golf Construction Co.

Q & A Weed: Tour's designer of record

Robert C. 'Bobby' Weed, 38, has been the PGA Tour's chief designer since 1987. Prior to that, he was superintendent of TPC at Sawgrass and construction superintendent for TPC projects. Working

out of the Tour's Ponte Vedra, Fla., office, Weed has been involved in numerous TPC course designs. A South Carolina native, he apprenticed with Pete and Alice Dye and was involved with such widely known Dye designs as Harbour Town and Long Cove in Hilton Head, S.C., TPC at Sawgrass in Ponte Vedra, and Amelia Island (Fla.) Plantation.

Golf Course News: You believe you may be the only member of the American Society of Golf Course Architects who is also a Certified Golf Course Superintendent. How has that helped your design career?

Bobby Weed: I know from my agronomic background what a superintendent can live with and maintain. When I'm designing fairways, sometimes I imagine I'm on a mower. Knowing how something will have to be maintained can give you an edge. Labor is 60 to 70 percent of your maintenance budget. More people are tuning into that in the design phase. If you address it then, it dominoes through to the superintendent's budget and ultimately the fee charged the consumer, who is really paying for all this, anyway.

GCN: How early do you like to bring in

72 HOLES AND GROWING

The Scott family continues to add to its Gull Lake View Golf Club halfway between Chicago and Detroit, and is in the midst of a new 18 that will make a total of 90 holes. Stonehedge, shown here, was designed by Charles Scott, as was Gull Lake View East. Darl Scott designed Gull Lake View West and Bill Mitchell laid out Bedford Valley — both of which Charles Scott later remodeled.
