Soil labs & USGA settle differences

By MARK LESLIE

FAR HILLS, N.J. — Comforted and hopeful after meeting with representatives of eight soil-testing laboratories, U.S. Golf Association (USGA) Green Section officials believe the clock is ticking toward a future where accreditation for labs is the norm.

"I'm very relieved," said Green Section National Director Jim Snow, who entered the February meeting expecting an angry mob of lab technicians.

Saying a committee of lab officials "will hold discussions among themselves and tell the USGA what needs to be done," he said: "It will take awhile

Owners buy into group purchasing

By PETER BLAIS

CHARLESTON, S.C. — Insurance, electric bunker rakes and used turf equipment are the latest products to find their way onto the ever-growing list of discounted service and merchandise available through the National Golf Course Owners Association Smart Buy Program.

The NGCOA group purchasing program provides the association's members with price breaks from preferred suppliers ranging from shirt makers to credit-card processors.

CNA Insurance Compa-

BACK TO THE LINKS

A lonely pin stands starkly on the 18th green, as the sun sets on Ocean Forest Golf Club, a throwback, links-style design from Rees Jones. The 380-acre property sits on the tip of Sea Island, Ga., just where the Hampton River meets the Atlantic Ocean. For details on Jones' successful collaboration with nature and the Cloisters Hotel, see page 47.

EPA puts product approval on fast track?

By MARK LESLIE

WASHINGTON, D.C. — The Environmental Protection Agency's (EPA) new Biopesticides and Pollution Prevention Division, created in November to speed up registration of biological pesticides, is accomplishing the task, according to spokesman Anne Leslie.

A chemist and turf industry liaison with the EPA, Leslie said that in the division's first three months, three new active ingredients were registered and registration actions had been completed on three others. Historically, it has taken three to

five years to approve an active ingredient for use, she said.

"The EPA is committed to expediting registration of safer pesticide products," Leslie told an audience at the International Golf Course Conference and Show in San Francisco. She explained that for chemical pesticides, the EPA has initiated a priority set of procedures to hasten approval, while the new division was created to deal with biological pesticides.

In the case of chemical pesticides, "registrants can make an argument as to why

Opryland Springhouse Golf Club in Nashville, Tenn. is among those courses designed by incoming ASGCA president Jeff Brauer.

Q & A

Brauer to assume ASGCA presidency

By MARK LESLIE

SCOTLAND — When the American Society of Golf Course Architects (ASGCA) meets here in April on the eve of its 50th anniversary, a week of travel and meetings will be climaxed with the passing of the gavel to a new president — Jeffrey Brauer.

Already, Brauer's sights are set on April 1996 when the society holds its golden anniversary at the hallowed greens and fairways of Pinehurst, N.C.

Questioned about his objectives, the president of GolfScapes in Arlington, Texas, answered: "I will begin to play

on the 50th anniversary theme. In my view, while the challenges of golf course architecture are certainly significant today, with the environment and the financing, I think the challenges have always been there throughout the 50 years of the society. I think the top architects have met those challenges in the past and I'm certain will meet them in the future."

Golf Course News: What have those challenges been?

Jeffrey Brauer: Historically, if you look at the '40s, there wasn't any qual-
