# Penncross Creeping Bentgrass ...the Favorite for Forty Years

*Penncross greens are found from elite prestigious private courses to the most played public courses. It is still the most specified creeping bentgrass ever, and from all indications, it will remain the first choice of golf course superintendents, designers and architects the world over.*

**D**eveloped by Professor H. B. Musser and Dr. Joe Duich and introduced in the fall of 1955 as an elite seeded creeping bentgrass for putting greens, Penncross' popularity was immediate and long-lasting. Penncross' reputation for rapid establishment and quick recovery from damage has made it a popular choice of developers who must open their courses in a timely manner as well as savvy superintendents who utilize it for tees and approaches where divot repair is necessary.

Over time Penncross has proved it can take the heat, the wear of 65,000 annual rounds and verbal potshots from envious competitors.

Penncross is grown to the same critical standards set by Professor Musser, and you can be assured we'll provide the world's most recognized creeping bentgrass as long as you demand it.

# They don't worry about *Sclerotinia*, *Rhizoctonia* or the damaging effects of summer stress complex.

## With Fore<sup>®</sup>, neither will you.

Most golfers couldn't even guess what *Sclerotinia* is. Or *Helminthosporium*. But they know a disease outbreak when they see one. With Fore<sup>®</sup> fungicide, you can make sure they never will.

Fore gives you exceptional control against a broad spectrum of turf diseases (even the hard-to-pronounce ones). It won't injure sensitive turf. You'll get consistent performance, too. That's because Fore has been protecting

greens for more than 25 years...without any record of resistance.

Plus, Fore gives you a new way to fight back against summer stress complex: a tank mix of Fore+Aliette<sup>®</sup>. Even during the hottest days, Fore+Aliette stops summer stress cold. So you'll see healthy, green turf. And happier golfers.

To learn more about Fore — and forget about disease worries — see your local Rohm and Haas distributor.

WHEN IT'S TIME TO OVERSEED,  
BARRICADE®'S SEASON-LONG CONTROL  
STOPS ON A DIME. NOW THAT'S...

## CONFIDENCE

Yours is a precision business. So you need turf management tools that give you predictable results. Like Barricade herbicide. A single early application of Barricade provides consistent season-long control of crabgrass, goosegrass, and other tough weeds. And when you're ready to reseed — no problem. That's because Barricade's prescribed rates deliver the precision timing you need to accurately determine its length of control. Its low solubility keeps it near the surface, in the weed germination zone, and away from developing roots. And Barricade's low active ingredient makes it easier on the environment. What's more, Barricade eliminates the concern for staining. Barricade herbicide. Cost-effective performance that builds confidence. # Golf Course Expo Means Business

The public-access golf industry comes together at Golf Course Expo—the only national trade show and conference for superintendents, managers, owners, operators, and developers of public-access facilities—daily-fee, semi-private, resort, and municipal courses.

- **Save money by pinpointing exhibitors on the trade show floor**  
We're serious about saving your money and time. Investigate vendors who are there for all your needs—equipment, chemicals, seed, builders, accessories, sod, golf cars, consultants, management software, fertilizers, architects, and marketing firms.
- **Get up to speed on new products and services**  
Find out "what's new" to give your course the competitive edge. The key to success in the business of golf is staying on top of new trends, partnering with vendors, and finding creative solutions. And Golf Course Expo is a carefully designed event to provide all three—and give you the edge.
- **Participate in special show events—like Shop Talks—where you'll learn about products and services that impact your bottom line**  
Shop Talks are vendor-sponsored sessions set up on the show floor. Participating suppliers will zero in on solutions, feature their products and services, and address critical industry trends. And it's all part of the show.
- **Solve problems by attending the multi-tracked conference program**  
In the crowded public-access marketplace, maintaining quality conditions on your course in the face of high traffic, and at a reasonable cost is even more important. Marketing your course takes on added significance. And efficient management—doing more with less—becomes an absolute must. The conference offers easy-to-adopt ideas that really work.

*"Very interesting information. Being new in the business, this is very informative and interesting."*

Mark Clark, Food and Beverage Manager

# A GOLF CAR THAT KNOWS HOW TO CONTROL ITSELF.

If you want more control of your drive, get the DriveControl System from E-Z-GO. It eliminates some of the biggest problems on the golf course. For starters, the system senses when the car is about to reach excessive downhill speed and keeps it under control. The DriveControl System also gives you better performance and more hill climbing power than any standard 36- or 48-volt system.

## DriveControl System™

Drivers can park on inclines with more confidence, too. If they exit the car without applying the hill brake, it sounds a warning beep to alert the driver and passengers and literally inches down hill. And the system restricts rollback on

steep hills when the accelerator is pressed.

For more efficiency, the Forward and Reverse switch is entirely Solid State. And depending on golf course terrain, the system recharges the batteries 5% to 7% while you drive.

If you want better control and more peace of mind, contact your local dealer or call 1-800-241-5855. It will improve everybody's game.

# The greens are running fast today. Fortunately, so are you.

Everyone wants great-looking greens. But nobody wants to spend more time than necessary trying to keep them looking great. That's where the Greens King™ IV comes in. The most popular greens mower in the world is uniquely designed to make a green look outstanding in short order. With Greens King IV, you get exclusive features like Turf Groomer®, the only true greens conditioner. Turf Groomer not only increases green speeds up to 25% without lowering height of cut, it also provides truer, healthier greens. Plus, you'll have less compaction thanks to the lightest footprint in the industry. When it comes to powering Greens King IV, choose either a 16½ hp diesel or the popular,

16 hp Vanguard™ gas engine. Other exclusive features include fully floating, pivoting reels that steer through turns without scuffing or marking. Plus, individual reel control and power backlapping that keep reels sharp with less work. To see how you can make short work of the short stuff, ask your Jacobsen dealer for a demonstration today.
