

BRIEFS

BYRD HIRES BOSWELL

ATLANTA, Ga. — Golf course architect Willard C. Byrd and Associates has hired architect William F. Boswell. Boswell, who recently joined the American Society of Golf Course Architects, has worked in the business for 10 years, including several years with Robert Trent Jones Sr. in Europe, designing a dozen courses in five countries, and the past three years with Hurdzan Design Group in Columbus, Ohio.

ENGINEERS JOIN INDUSTRY

PHOENIX, Ariz. — Golf Engineering Associates (GEA), led by principal Gary S. Kaye, is offering professional consulting services in irrigation, drainage and agronomy for new construction and remodeling projects throughout the United States and abroad. A certified golf course irrigation designer, Kaye worked extensively for Paul Clute and Associates, a golf course builder in Hartland, Mich. GEA is located at 1640 E. Kelton Lane, Phoenix, Ariz. 85022; 602-482-8270.

MILLER, MOGG PROMOTED

HONOLULU, Hawaii — The golf course architectural design firm Nelson • Wright • Haworth (NWH) has promoted project managers Mark Miller and Brett Mogg to the positions of vice president and director, respectively. Miller has been with NWH in Honolulu since 1989. Mogg, who divides his time between Singapore and Sydney, Australia, joined NWH in 1989 as a project manager.

CLASSIC GOLF EXPANDS

WINTER HAVEN, Fla. — Classic Golf Group, Inc. has announced the expansion of its offices here. The firm can be reached at 505 On The Park Building, 505 Avenue A Northwest, Suite 218, Winter Haven, Fla., 33882; or calling 941-299-0900; or faxing 941-299-6147.

HILLS OVERSEES WYKAGYL FACELIFT

NEW ROCHELLE, N.Y. — Wykagyl Country Club completed an \$825,000 renovation as part of a master plan developed by architect Art Hills in time for the LPGA's JAL Big Apple Classic in July. The project included work on 46 tees, 64 bunkers and three greens.

Art Hills

Lawrence Van Etten designed the original course in 1905 with Donald Ross (1916) and A.W. Tillinghast (1931) adding their touches in later years.

Suncor, MCO strike gold with Foster in Arizona

By MARK LESLIE

FOUNTAIN HILLS, Ariz. — The Quarry in San Antonio, Texas, opened the door, and Keith Foster says he has walked on in, grabbing the opportunity afforded by great new sites to design some eye-openers.

"We're gaining momentum and getting good opportunities to create great projects for good people," Foster said from his St. Louis headquarters. "The Quarry enabled people to see what we could do. Now we have to follow up to get to the top, to create wonderful courses."

Five Foster designs stand on the

brink of opening, beginning in mid-November with new SunRidge Canyon Golf Club in this community neighboring Scottsdale and the Foster-remodeled Paradise Valley Country Club, an exclusive club in Phoenix.

Next summer will come Buffalo Run, a high-end municipal course in the City of Commerce City, Colo., and Washington National, a low-use daily-fee club in Seattle. Steamboat Springs, Colo., will add a high-end municipal course, Haymaker, which will be finished this year but won't be grassed until next spring for a 1997 opening.

Words like stunning, incredible,

wonderful, dramatic, striking, refreshing flow from Foster's lips as he describes his new creations.

SunRidge Canyon, he said, will be "incredible. The front nine does not return to the clubhouse. You go out, have an uninterrupted experience and then come back to the clubhouse. It is reminiscent of classic golf courses of years ago and abroad."

SunCor Development Co. and MCO Properties, two of Arizona's largest developers, formed a joint venture to build this project. SunCor Vice President Thomas Patrick asked, "How can

Forbes forging fairways in China

By MARK LESLIE

FOSHAN, China — Wing Shan International Country Club Ltd. is building a major housing and golf project here, about 15 miles west of Guangzhou, a city of approximately 5 million, and 60 miles north of Hong Kong.

A joint venture of Wing Shan Enterprises (Holdings) Ltd., New World Development Country Club Ltd. and the Foshan Economic Development Group Corp., the plan includes a resort hotel, a 36-hole country club, and a variety of housing from apartments to row homes, large villas and condominiums.

American Ross Forbes of Uniontown, Pa., former project manager for Asian development for Ron Fream-Golplan, is designing the two golf courses — his first solo project.

The practice range opened in mid-June and developers hope to open the first nine holes by the end of the year, said Forbes, who has also worked in Asia-Pacific with J. Michael Poellot and Brad Benz. The second nine holes should open by late 1996 and the date for the second 18-hole track is unsure, he said. The owners are undecided whether the courses will be private, semi-private or public.

The property is primarily former "dead-flat agricultural lands and some rolling terrain that runs abruptly into 50-foot-high hills," Forbes said, "so we smoothed out the transition areas."

The resulting first 18 is a par-72 layout with five sets of tees measuring

An airplane flies over Mountain Air Golf Course as it comes in for a landing on the highest airstrip east of the Mississippi River.

High... Higher... Highest!

By MARK LESLIE

BURNSVILLE, N.C. — Having reached high in golf when working with Hilton Head Co. in South Carolina and Winter Green in Virginia, Randy Banks must have had altitude in mind when he returned to his roots here. Working on family-owned Slickrock Mountain, he is opening the third-highest golf course east of the Mississippi River and boasting both the highest nine holes and the highest airport runway east of the Mississippi.

Banks' sights are indeed lofty for Mountain Air Country Club and its 500-acre private housing development — perhaps the highest golf community east of the Mississippi?

"This was very difficult land to develop and to build a golf course on," said Banks, president of Mountain Air Development Co. "Holes 10 and 11 drop 600 feet. There's

a vertical drop of 1,190 feet in 11 holes."

The lowest point on the front nine is 4,300 feet above sea level. The lowest on the back nine is 3,500 feet, affording 25- to 100-mile views on nearly every hole. And three greens are perched on the edges of cliffs.

The powers behind Mountain Air — Banks' father Bill and uncle Earl Young — are longtime residents of Burnsville. Bill Banks, who owned most of the mountain, owns Banco Lumber Co. and supplies hardwood timber to the furniture industry. Young co-owns Young and McQueen Grading, Inc. That combination of resources made the project financially feasible and physically possible — even though it was six years in the making (the first nine opened three years ago and the second nine on June 24).

Higher is better at Mountain Air

Continued from page 31

Located 35 minutes northeast of Asheville, the development will include a range of condominiums from \$140,000 and homes from \$500,000 — revenues of which will drive a possible third nine holes. "We're fairly certain it eventually will be a 27-hole complex," Banks said. The 6,425-yard, par-71 golf course is the product of architect Scott Pool, a former Pete Dye pupil, who performed much of the design work in the field, climbing atop a bulldozer to sculpt the 18 holes from rocky mountainsides.

"This golf course is the result of Scott's artistry, vision and complete hands-on approach to the challenge," Banks said. "Building 18 holes across this kind of topography takes constant supervision from the architect. We're thrilled with the results."

"Now, we've breathed a sigh of relief," Banks added, saying the course and swimming and tennis complexes are complete and the new \$1.4 million clubhouse will be finished later this year.

"Then everything's done except building homes," he said. "The market seems to be responding very well."

Banks well knows the drill. He was involved from 1975-80 with Winter Green, which operates one mountaintop course. After working with the head golf pro at Shipyard Plantation on Hilton Head in 1982-83, he joined Gulfstream Development Corp. of Florida, overseeing completion of the condominium complex at Palmetto Bay Club on Hilton Head.

Pool previously worked for Dye for 12 years, on such projects as the Ocean Course at Kiawah Island, Blackwolf Run in Kohler, Wis., and the Honors Course in Chattanooga, Tenn. Pool designs include Legend Oaks in Summerville, S.C., and Kiva Dunes in Gulf Shores, Ala., with Jerry Pate.

Forbes in China

from 4,600 to 6,220 meters.

A local earth-moving company is building the courses, but "almost all the detailed 'finish' work is being done by hand," Forbes said.

Meanwhile, in the United States, Forbes and colleague Ron Forse are designing a new nine holes at Methodist College in Fayetteville, N.C. The school, whose men's golf team has won several Division III national titles in recent years, owns an existing nine-hole facility. Situated along Cape Fear River on campus, the property features rolling terrain with "a hint of sand hills," Forbes said.

Builders association adds new members to board of directors

CHAPEL HILL, N.C. — The Golf Course Builders Association of America has announced the election of new members to its board of directors. These newly elected directors are now serving their first, two-year term: Mike Harrington of Harco Fittings and Gary Paumen of Kenova Construction Corp.

Current officers of the GCBAA are President Jim Kirchdorfer of Irrigation Supply Co., Vice President Paul Eldredge of Wadsworth Golf Construction, Secretary Bill Kubly of Landscapes

Unlimited, Inc., and Treasurer Jeff Gredvig of John Deere Co.

Other directors serving on the board are Larry Brown of Atlantic Golf Construction, Dave Canavan of Moore Golf, Paul Clute of Paul Clute & Associates, Rick Elyea of The Scotts Co., Christine Faulks of Greensmix, S. Gene Giannulli of Environmental Golf, Jeff Harstine of Central Florida Turf, Doyle Jacklin of Jacklin Seed Co., John McDonald of McDonald & Sons, O'Brien McGarey of Dye Designs

International, Rod McWhirter of Rain Bird, Warren T. (Tom) Sasser of Paragon Golf Construction, David Truttmann of Legacy, and Bud White of The Toro Co..

The Golf Course Builders Association of America, based here, is a non-profit trade organization founded in 1970 and comprised of the world's foremost golf course builders and leading suppliers to the golf course construction industry. Its members represent all segments of the golf course construction industry.

Stock finish is powder coated Hunter Green paint. Other colors are available in baked enamel finish.

Rugged steel, channel iron frames formed to a tested "No-Tip" design.

Available with either oak or fir seat boards; finished with a clear sealer.

Designed first and foremost, to be a comfortable bench to sit on.

Light-weight, yet very strong... can be moved with ease.

You Provide the Setting. We'll Provide the Seating.

...comfortable, durable, affordable seating that looks great anywhere on your course. And, like every Par Aide product, this 6' bench comes with a reputation — one that assures you only the very best materials are used. Take a close look: fine craftsmanship is evident everywhere. Like the hand finished welds on the steel channel iron frames...the pre-drilled, self locking holes in the slats. And a smooth sand-ed, snag-free finish in your

choice of two woods. Add to this the fact that you can assemble the whole thing in just ten minutes and you've got a rugged, yet light-weight bench with a tested, non-tip design that will give many years of low maintenance service. Just like Par Aide's other quality products, this new "Park Bench" has already proven itself to greens committees, course members and superintendents alike when it comes to working within budgets.

Choose from premium, straight grain oak or fir seat boards; impeccably finished and pre-drilled for easy assembly.

Elegant to look at. A luxury to sit upon. And best of all...very easy on your budget! Benefits only a Par Aide bench can offer.

If you prefer...order just this frame kit and supply your own lumber. Everything else, right down to the nuts & bolts, is included.
