## Von Brecht comment: Anniversaries

Continued from page 11

behaved the night before and we had mild weather, but I can imagine the result under extreme conditions.

This waste-water recycling plant is truly incredible. It was developed in the late 1920s and updated over the years. The plant cleans as much as 250 million gallons of wastewater per day and pumps it back into Lake Michigan. As a by-product of the wastewater treatment, Milorganite is actually micro-organisms which are systematically injected into the process. It sounds confusing, but you can call Al Ness or Terry Ward (414-225-3395) for a more thorough explanation.

I came away asking myself why every major metro area isn't doing what the MMSD has been doing for 70 years.

•••

As you may notice, this issue of *Golf Course News* is quite hefty for a summer edition. Past years have seen smaller issues during the summer months, but the in-

dustry trend in marketing is changing. Suppliers to the industry are advertising, marketing and selling products year round. As an example, the 1995 August issue of *Golf Course News* had 38 advertising pages, and this year we have more than 65 ad pages. The remainder of the year looks strong not only for *Golf Course News* but for the industry.

It only makes sense! The latest NGF figures show 188 courses have opened through July 22. As the summer and fall are the busiest months for course openings, we're right on target for 400-plus in 1996.

While growth in course construction continues, let's all remember that player participation is flat. We can all lend a hand to encourage new players to take up the game and stick with it.

I hope you are enjoying *Golf Course News* as much as ever. These larger issues allow more editorial coverage and more news for you. Please contact me with any questions or comments.

## Foster projects

Continued from page 3

parkland setting. They cleared the trees and underbrush between holes. You feel like you're playing on a natural parkland that has been there for many years.

"It is a very serene, tranquil environment."

Scrutinizing some of the great West Coast courses, Foster said, "we saw that each has towering trees, wonderful strategy, beautiful scale and a softness to the ground. When we went through Washington Golf Club, we felt there were similarities and started working off that. It is a tribute to early, classic American architecture and their sites."

Course builder Fore Inc. is con-

structing "wonderful stone walls reminiscent of Baltusrol," Foster said. Forty to 50 homesites are planned on the property.

•••

In other Foster news, Zion Park District, located directly north of Chicago, has retained Keith Foster Golf Course Design to design its upscale municipal golf course.

Design work will begin immediately and construction is expected to begin in early 1997.

Foster has also been selected to study St. Clair Country Club in Belleville, Ill., and give recommendations to restore both nines to the original design intent, (circa 1911), while also incorporating newer design elements where needed.

## Calendar of Events

\* For more information contact the GCSAA Education Office at 800-472-7878.

## Public Golf Forum

Continued from page 39

is sponsoring the Public Golf Forum," added von Brecht. "It's the only national golf conference that draws the entire buying team from public-access golf courses — the manager, owner, and superintendent. With educational program tracks dedicated to management, marketing, maintenance and development, the Forum will attract each member of this highly qualified buying team by meeting their educational needs."

Vendors who exhibit at the Forum will also appreciate the hotel-type conference for its ease of set up. "There will be 10 hours of exhibit time — plus vendors will receive a seminar package to attend sessions when exhibits are not open," noted von Brecht. "This makes exhibiting easy and cost effective."

Interested vendors should contact the Public Golf Forum Exhibit Sales Manager Mike Lafaso, at (800) 441-6982 or fax (207) 846-0657.

## Nicklaus track getting underway

PALM COAST, Fla. — Grand Haven officials are hoping to break ground for the Jack Nicklaus Signature 18-hole course sometime in August.

The golf course is scheduled to be completed in the fall of 1997. The course will reportedly be a semi-private layout that will not have condominiums and other housing lining the fairways, according to John Gann, senior vice-president of sales at Lowe/Palm Coast Inc., which recently purchased Palm Coast golf courses Pine Lakes, Cypress Knoll, Matanzas Woods and Palm Harbor.

Lowe/Palm Coast Inc., purchased the Grand Haven layout from 700 acres of IIT property bordering the Intracoastal Waterway and several holes are expected to extend to the waterway.

## Development book offered

A free booklet, *Golf Course Development Planning Guide*, from the American Society of Golf Course Architects (ASGCA) is available to help anyone taking the first steps to develop a new golf course. The 16-page brochure covers the key components involved in a new course project. It provides data on the growing consumer demand for new golf facilities, the average cost of a new course, proper site selection, a guide to finding assistance, financing and sample operating projections for a daily fee course. To obtain a free copy, send a self-addressed, stamped business-size envelope to the ASGCA, 221 N. LaSalle St., Chicago, Ill. 60601.
