# "Seaside II Has Success Written All Over It."

I resodded high stress areas in my PennLinks fairways with Seaside II nearly a year ago, and I am very pleased with its performance. I selected Seaside II with improved dollar spot disease resistance and salt tolerance to address our two major turf challenges; the coastal influence and potential sodium buildup from irrigation. I find Seaside II a strong ally to our PennLinks fairways, and

in the future, we will slit seed with Seaside II, where needed, to enhance turf quality.

Our bentgrass fairways make Del Mar Country Club unique to southern California, and spares us overseeding bermudagrass every winter season. Seaside II complements our PennLinks greens and tees, too.

Seaside II has success written all over it. *- David Major*

**Introducing Vigoro® Par Ex®. The most predictable, controlled release fertilizer ever made.**

To give you greater control over turf quality, color and growth, Vigoro combines the latest V-Cote™ technology and IBDU® slow-release nitrogen. It makes Par Ex the ideal fertilizing combination for every course, in every type of weather. While most other coating methods produce a thick coating, Vigoro developed a 13 micro-thin layer coating process to deliver consistent nutrient metering. So you won't experience surge growth. And no turf stressing due to

high nitrogen release at high temperatures, like some turf managers had in the summer of '95. What you will experience is a course that looks just as good at ten weeks as it did at two. You'll also experience better customer service. Thanks to our eight manufacturing plants, you'll always get fertilizer when you need it and we can even produce a customized analysis specifically for your soil requirements.

Call 1-800-521-2829 to find the nearest Vigoro Territory Manager. In Canada call 1-800-268-2076.

## GOLF COURSE NEWS

THE NEWSPAPER FOR THE GOLF COURSE INDUSTRY

FROM THE DESK OF HAL PHILLIPS

As a reader of *Golf Course News*, it's no secret that public-access golf courses have been the focus of a lot of attention in our pages over the past few years. The reason is simple: Your courses are growing in numbers, your facilities are expanding to meet demand and competition, and your role in the golf industry is taking on added importance.

Let's face facts. Public-access golf facilities represent 70% of the nation's course stock!

That's why *Golf Course News* is sponsoring the Public Golf Forum—to help you meet the business challenges you face every day. It's an educational conference but even more, a chance to connect with your peers and colleagues, exchange information, solve your problems, and meet with vendors who can help your business grow.

Circle the dates on your calendar and plan now to attend the Public Golf Forum.

## The 2nd International Hong Kong & China Golf Exhibition

*Shanghai International Exhibition Centre  
20 - 23 October 1996*

Golf World Exhibitions are proud to announce, on behalf of the global golf industry, the first ever international golf exhibition to be held in mainland China.

China, with its population of 1.2 billion people, was chosen as the host country as a direct consequence of mounting pressure and desire from the industry to effectively cultivate, develop and serve what promises to become the world's largest golf market within 10 years.

Shanghai, China's most affluent of cities, has a population of 14.8 million people - 5 times that of Singapore. It is the business capital of the country with the fastest growing economy in the world. Currently there are 23 million people to every golf course.

It is no wonder names such as *Arnold Palmer, Gary Player, Jack Nicklaus, JMP, Nelson Wright Haworth, Pacific Golf, Robert Trent Jones Jr, Toro*, and an overwhelming majority of the 150 international companies that were represented in the inaugural Hong Kong event, will be exhibiting in Shanghai, 20 - 23 October 1996.

This is *your* exclusive chance to join the international golf industry in developing what promises to become the world's greatest golf market.

# Its good looks and major components have something in common. They're easy to see.

Jacobsen's new Tri-King™ triplex trim mower looks great, all dressed up and even dressed down. Tilt the top fender and grill out of the way, and lift off the air intake cover. You'll see how easy the Tri-King is to maintain. The Tri-King is also easy to operate with responsive power steering, automatic 3-wheel drive, powerful 18 hp gas or 19 hp diesel engines and a comfortable, new operator's area. You'll get

the highest quality of cut, and a choice of 72" or 84" cutting widths with 5-, 7- or 10-blade reels. Ask your Jacobsen distributor for a demonstration, or call 1-800-727-JAKE.
