TO COMPARE THE COSTS OF OPERATING YOUR FLEET WITH THOSE OF OPERATING A YAMAHA FLEET, YOU'LL SEE THAT NUMBERS DON'T LIE.

The maintenance book. The Buyer's Guide book. The Cost Comparison Book. This is where you'll find the true measure of a golf car, and this is where you'll discover that the Yamaha Ultima™ is the most valuable golf car for your course.

Call us at 1-800-843-3354. You'll see that we designed the Ultima™ with really only one book in mind. Your checkbook.

Let EAGLE® Watch

Superintendents who use Eagle® fungicide hold their courses to a high standard.

A *very* high standard.

They've come to expect exceptional turf safety. Low use rates. Easy handling. And above all, dependable performance.

Broad-spectrum activity

Eagle provides lasting protection against 14 major

turf diseases. From summer patch and leaf spot to brown patch and dollar spot. So you can always count on great control.

For even broader-spectrum performance, you can combine Eagle with contact fungicides such as Fore®.

And unlike some other fungicides, Eagle offers

outstanding turf safety. You won't see weakened roots, leaf damage, yellowing or coarse turf blades. So greens always look and play their best.

A great fit

Eagle provides a new tool for your resistance management program. A systemic with both curative and protectant activity,

Over Your Course.

Eagle gives you another option to work into your rotation.

There's plenty for applicators to like about Eagle, as well. Extremely low use rates, for instance. Just six tenths of an ounce per 1,000 square feet gives you all the control you need. This translates into easier storage, transport and mixing.

Plus, Eagle comes in premeasured, water-soluble pouches. Just toss them right in the tank. No measuring, no mess.

Find out how Eagle can help your course soar to a new level. For a *FREE* brochure, call today: **1-800-987-0467.**

*If 15 years of being the foremost
fungicide isn't enough, might we
snare you with our drum?*

Ever since its introduction, BAYLETON® Turf and Ornamental Fungicide has been one of the most popular products of its kind.

And no wonder. Its systemic action is not only effective, it keeps the control you need from being washed away or mowed off. So you can apply BAYLETON whenever--and wherever--you want.

And now, that famous BAYLETON control is available in a convenient new package. The drum. It not only keeps BAYLETON fresh and dry, it enables you to use exactly how much you need.

That's especially important when you tank mix BAYLETON for even broader control. Its ability to be used in combination with other products is one of the most outstanding features of BAYLETON, and now, that's even easier to do.

We'll keep the pesticide industry from

becoming a victim of air pollution.

Ahh, television news in the 90s.

Tabloid journalism has sneaked its way onto the airwaves. And the pursuit of facts seems to have been replaced by the pursuit of ratings.

So the specialty pesticide industry needs a media watchdog that not only watches. But that also takes action.

Fortunately, we have one.

RISE. Responsible Industry for a Sound Environment.

RISE is a coalition of manufacturers, formulators and distributors from all areas of the specialty pesticide business.

In addition to promoting environmental stewardship, RISE makes sure the media doesn't report misinformation as fact.

We also hold editorial meetings with media decision-makers. And respond to negative articles or broadcasts that are incorrect. We've been very successful so far. Not surprising considering what our most powerful weapon is.

The truth.

Of course, there's still a lot more work to do. But rest assured, RISE is up to the task.

Because we know if we eliminate air pollution, the pesticide industry can breathe a lot easier.
