

**Penncross:
Tried and True**

Louis Miller, Supt., Louisville CC, Louisville, KY

"I've Specified Penncross For 33 Years. Why Mess With Success?"

"I've been in business 33 years as a golf course superintendent, contractor, consultant and golf course owner. Of the nearly 500 greens I've built or rebuilt, 95% have been planted with Penncross creeping bentgrass. The customers specified PennLinks on the others.

As a certified golf course builder, my company is currently working on six courses in three states, and all will have Penncross greens. Why? Because I believe Penncross has already been where all of the other bents are trying to go. Penncross can take the extremes of heat, humidity and cold we experience here, plus the daily wear

and tear of spikes, ball marks and divots. But the real value is in its rapid establishment. In today's economy, a golf course must generate revenue quickly to recoup land, construction and startup expenses. I can seed Penncross anytime the soil is warm enough to germinate and have green grass in five days. We're then mowing the greens in 13 to 16 days. This pleases both investors and owners.

We mow Penncross between 5/16" and 1/8", and this is fast enough to please the most demanding golfer we get.

I plan to specify Penncross for years to come. Why would anyone mess with success?"

Penncross is available from your dealer in the distinctive burlap bag or 25 pound 'Penn Pail'. Order yours today.

CONFIDENCE AND SECURITY DON'T JUST HAPPEN.

Let's not mince words – your job's challenging.

Just think about all the people you have to please.

And about what happens if you don't. You need

confidence. You need security. And you're not

alone. Superintendents at some of the top courses

in the country need the same thing. Which is why

they use Barricade® preemergence herbicide to

keep fairways, tees and roughs weed-free. So can

you. Since Barricade has the longest residual of

any preemergence herbicide,

it gives you maximum flexibility.

You can apply when it's most convenient for you.

And have full confidence that you'll get excellent

GOLF ASIA '96

INTERNATIONAL GOLF EXHIBITION & CONFERENCES

Exhibition & Conference Presented by: CONNEX • IMG
Educational Seminars Presented by: GCSAA
28 - 31 March • Expo Hall 1 & 2 World Trade Centre, Singapore

TEE-OFF AT ASIA'S PREMIER GOLF SHOW

Six Years Running

Golf Asia's strategic location in Singapore, our established track record as a show of world-class standing, and the quality of our visitors and exhibitors alike has built our reputation as the premier golf trade show in the Asia-Pacific region.

The industry continues to grow in Asia. Alongside the emerging markets, are those countries whose maturing status and increased sophistication provide opportunities for the very latest technology and equipment the industry has to offer.

Record Turn-out in '95

The 1995 Show attracted over 21,000 trade visitors, professionals and golfing enthusiasts from 31 countries. This included those from the Philippines, Vietnam, Myanmar, China and the UAE; emerging markets with some of the highest growth potential.

At Golf Asia '95, eighty-two percent of participants stated that they had achieved the objectives they set for the exhibition. By the end of the Show, over three quarters of the 212 exhibitors had confirmed their participation in Golf Asia '96!

Sixth Asia Pacific Golf Conference (APGC)

The APGC, undoubtedly Asia's most recognised industry forum, will once again be held in conjunction with the exhibition. Complementing both the exhibition and conference, will be a series of educational seminars conducted by the Golf Course Superintendents Association of America (GCSAA). These seminars are traditionally well attended by

golf course superintendents from clubs throughout the region.

Golf Asia '96 promises to continue the success of past exhibitions. All efforts are geared towards attracting more visitors and participants than ever before.

RegalStar[®]...The results on Bluegrass are Unmatched!

RegalStar[®] preemergent herbicide, from a single application, provides the ultimate in weed control and quality turfgrass. It not only prevents the common weeds, goosegrass, crowfoot and crabgrass, it also gets the hard to control escape weeds. The Ureaform slow-release nitrogen carrier is sufficient to provide season-long feeding - a special extra benefit for better values.

This superior combination of weed control plus feeding produces turfgrass quality unequaled or unmatched otherways..
