

**'Penn Pals' On Parade:
Penncross, PennLinks
and PennTrio**

PennTrio No. 17, Apple Tree GC, Yakima, WA

Penncross No. 14, Coeur D'Alene Resort, Coeur D'Alene, ID

Tour the Islands with the 'Penn Pals'

Island putting greens are indeed a beautiful, yet intimidating, sight to behold with some very unique shapes and features. They're also meant to challenge golfers. Once a player has carried the water hazard and landed on the green, he should be rewarded for his efforts. That's why, in most cases, the putting surface is one of the 'Penn Pals'... icing on the cake, so to speak.

We haven't seen the last of island greens. Now that one floats, what's next? Whatever the configuration, your Tee-2-Green distributor has the ideal creeping bentgrass for each application: Penncross... the world standard for putting greens since 1955. Penneagle... the salt tolerant grass for greens and fairways, plus PennLinks, the new choice for greens around the world.

And now, the exciting next generation of low mowing creeping bentgrasses... PENN A-1, PENN A-2, PENN A-4, PENN G-1, PENN G-2 and PENN G-6 will add a new dimension to green performance.

So, even when a player's short irons are erratic, and his putting's unpredictable, he can always count on the quality and consistency of 'Penn Pals' greens as he tours the islands.

And Wash-Off Tests Show It, T Sticks And Stays Like T

They say seeing is believing, and here's enough seeing to make anyone a believer. Because high magnification scanning electron microscopy of treated turf samples shows it. And so do Plexiglas[®] wash-off studies — studies that have been shown to correlate directly to real-world performance. New Daconil Weather Stik[™] fungicide sticks and stays like the competition can't.

So when other fungicides might wash away, you can continue to count on Daconil Weather Stik for control of major turf diseases on both warm and cool season grasses. That includes brown patch, leaf spot, melting out, dollar spot, anthracnose, rust, red thread, and snow mold. Plus control of most ornamentals plant diseases and algal scum, too.

Before Rainfall/Irrigation

After Heavy Simulated Rainfall/Irrigation

Before Rainfall/Irrigation

After Heavy Simulated Rainfall/Irrigation

Too. New Daconil Weather Stik The Competition Can't.

In addition, Daconil Weather Stik can be tank-mixed with a wide range of turf and ornamentals fungicides (consult label), so you can also count on it for broad-spectrum support of your systemics, as well as disease resistance management. Remember, there's never been a documented case of disease resistance to a Daconil brand fungicide in over 25 years.

And Daconil Weather Stik is more concentrated than prior formulations, so you'll have fewer jugs to get rid of, too. Which simply says from better protection to easier disposal, Daconil Weather Stik is the right flowable choice for you.

**Daconil Ultrex
Chlorothalonil Fungicide**

45 sec

**Dry Generic
Chlorothalonil Fungicide**

45 sec

Daconil Ultrex goes into suspension in less than a minute and stays in suspension even after six hours for consistent coverage from start to finish.

Prefer A Dry Fungicide? Get The One That Gives You Fast, Thorough Mixing And Easier Disposal, Too.

Weather Stik™
Sticks and Stays Between Sprays. Guaranteed.

Get advanced spray-dry
Stable Suspension

Daconil Ultrex®

fungicide. The breakthrough dry alternative that goes into suspension faster and stays in suspension to give you consistent spraying from start to finish with less settling out and fewer problems with clogged nozzles. Because of that same breakthrough technology, Daconil Ultrex pours completely out of the bag, so you eliminate all need for rinsing.

Of course, because bags are easier to get rid of than plastic jugs, and you have fewer of them, disposal is that much easier. Now add the sticking and staying power of our Weather Stik® formula for exceptional broad-spectrum control of some 70 diseases that attack turf, ornamentals, and trees, and it all adds up to another great choice for you. THE NEWSPAPER FOR THE GOLF COURSE INDUSTRY

FROM THE DESK OF HAL PHILLIPS

As a reader of *Golf Course News*, it's no secret that public-access golf courses have been the focus of a lot of attention in our pages over the past few years. The reason is simple: Your courses are growing in numbers, your facilities are expanding to meet demand and competition, and your role in the golf industry is taking on added importance.

Let's face facts. Public-access golf facilities represent 70% of the nation's course stock!

That's why *Golf Course News* is sponsoring the Public Golf Forum—to help you meet the business challenges you face every day. It's an educational conference but even more, a chance to connect with your peers and colleagues, exchange information, solve your problems, and meet with vendors who can help your business grow.

Circle the dates on your calendar and plan now to attend the Public Golf Forum.

Think Of It As The Swiss Army Knife Of Utility Vehicles.

The new E-Z-GO Workhorse™ does it all. Hauls plants and fertilizer. Carries sand, gravel, bales of straw, building materials. And all your tools from shovels and hoes to mowers and blowers. It comes with lots of standard features like an 11h.p. 350cc engine, a 1200lb. payload capacity and an exclusive heavy duty bed liner. With options like a larger cargo bed and power dump, you can get an E-Z-GO utility vehicle that comes with just about anything – except a corkscrew. Looks sharp, too.

THE FINEST UTILITY VEHICLES IN THE WORLD.™

CIRCLE #149

Act now to save
\$2,000
 on Greens King V reels.
 After 6/30/96,
 the Reel Deal is over.

A good-looking machine is one thing. A whole lot of improvements are the other 10.

The Jacobsen Greens King™ V Triplex Greens Mower has the cut you expect. Plus, some great improvements.

1. The exclusive FlashAttach™ System makes changing reels, rollers, spikers and verticutters as simple as pulling a pin.
2. Walk-through operator's station allows easy entrance and exit from either side.
3. Standard tilt wheel and power steering. Rear wheel turns inside the front wheel's radius.
4. Fully enclosed engine compartment for quieter operation. Fiberglass hood protects key components.
5. Operator friendly controls for easier access and greater visibility – clear sight lines all around.

6. Single pedal speed and forward/reverse control. One-touch reel lift/lower pedal.
7. Ultra-light footprint minimizes compaction.
8. Open design and handy dome light make accessing the center reel easier.
9. Easy access to battery, radiator, coolant bottle, air filter, hydraulic fill and fuel fill.
10. Standard halogen headlight for dusk and dawn.

Ask your Jacobsen distributor for a Greens King V demonstration today.
