

New Penn Pals

Evaluate for yourself the new generation of putting green grasses everyone's talking about in this free, colorful, 16 page booklet...

- Penn Pals developer Dr. Joe Duich discusses the exciting new Penn A and G series of creeping bentgrasses
- Colorful photographs of greens and test plots across the country
- Accounts from pioneers who are now using the new Penn bents on their courses
- New root, density, and disease resistance data
- Meet some of the 'Penn Pals' growers, each with more than 30 years of production experience
- Contains information superintendents, designers, architects and managers will want to know

Write, call or FAX today for your free copy of 'The New Penn Pals' and the name of our distributor nearest you.

And Wash-Off Tests Show It, T Sticks And Stays Like T

They say seeing is believing, and here's enough seeing to make anyone a believer. Because high magnification scanning electron microscopy of treated turf samples shows it. And so do Plexiglas[®] wash-off studies — studies that have been shown to correlate directly to real-world performance. New Daconil Weather Stik[™] fungicide sticks and stays like the competition can't.

So when other fungicides might wash away, you can continue to count on Daconil Weather Stik for control of major turf diseases on both warm and cool season grasses. That includes brown patch, leaf spot, melting out, dollar spot, anthracnose, rust, red thread, and snow mold. Plus control of most ornamentals plant diseases and algal scum, too.

ed Rainfall/Irrigation

After Heavy Simulated Rainfall/Irrigation

ed Rainfall/Irrigation

After Heavy Simulated Rainfall/Irrigation

Too. New Daconil Weather Stik The Competition Can't.

In addition, Daconil Weather Stik can be tank-mixed with a wide range of turf and ornamentals fungicides (consult label), so you can also count on it for broad-spectrum support of your systemics, as well as disease resistance management. Remember, there's never been a documented case of disease resistance to a Daconil brand fungicide in over 25 years.

And Daconil Weather Stik is more concentrated than prior formulations, so you'll have fewer jugs to get rid of, too. Which simply says from better protection to easier disposal, Daconil Weather Stik is the right flowable choice for you.

**Daconil Ultrex
Chlorothalonil Fungicide**

45 sec

**Dry Generic
Chlorothalonil Fungicide**

45 sec

Daconil Ultrex goes into suspension in less than a minute and stays in suspension even after six hours for consistent coverage from start to finish.

Prefer A Dry Fungicide? Get The One That Gives You Fast, Thorough Mixing And Easier Disposal, Too.

Weather Stik™ Technology™
Sticks and Stays Between Sprays. Guaranteed. Daconil Ultrex®

fungicide. The breakthrough dry alternative that goes into suspension faster and stays in suspension to give you consistent spraying from start to finish with less settling out and fewer problems with clogged nozzles. Because of that same breakthrough technology, Daconil Ultrex pours completely out of the bag, so you eliminate all need for rinsing.

Get advanced spray-dry
Stable Suspension

Of course, because bags are easier to get rid of than plastic jugs, and you have fewer of them, disposal is that much easier. Now add the sticking and staying power of our Weather Stik® formulation for exceptional broad-spectrum control of some 70 diseases that attack turf, ornamentals, and trees, and it all adds up to another great choice for you. PUBLIC GOLF FORUM

A NATIONAL BUSINESS CONFERENCE AND EXPO FOR SUPERINTENDENTS, OWNERS, MANAGERS, AND DEVELOPERS OF PUBLIC-ACCESS GOLF FACILITIES

OCTOBER • 27 - 29 • 1996

MARRIOTT'S LINCOLNSHIRE RESORT LINCOLNSHIRE IL

No other conference brings together the leaders of public-access golf like the Public Golf Forum

- Tap a wealth of information at conference sessions presented by an impressive list of top-notch industry speakers
- Choose from sessions on Maintenance, Development, Management, and Marketing to discover new approaches and confirm current ones during a packed schedule of educational sessions
- Compare notes with other golf industry professionals from around the country at Birds-of-a-Feather Sessions—a special event for networking
- Test and compare products and services from leading golf course suppliers at the vendor showcase—your chance to talk with key suppliers about your needs
- Convenient location in the heart of public-access golf—an easy drive or quick flight—20 minutes to Chicago's O'Hare
- Bring the whole management team. This is a great chance for everyone who makes decisions at your course to find key products and services, learn ways to increase efficiencies, cut costs, do more with less—without sacrificing quality.

GOLF COURSE NEWS
THE NEWSPAPER FOR THE GOLF COURSE INDUSTRY

FROM THE DESK OF HAL PHILLIPS

As a reader of *Golf Course News*, it's no secret that public-access golf courses have been the focus of a lot of attention in our pages over the past few years. The reason is simple: Your courses are growing in numbers, your facilities are expanding to meet demand and competition, and your role in the golf industry is taking on added importance.

Let's face facts. Public-access golf facilities represent 70% of the nation's course stock!

That's why *Golf Course News* is sponsoring the Public Golf Forum—to help you meet the business challenges you face every day. It's an educational conference but even more, a chance to connect with your peers and colleagues, exchange information, solve your problems, and meet with vendors who can help your business grow.

Circle the dates on your calendar and plan now to attend the Public Golf Forum.

Hal Phillips, Editor

P.O. Box 997 • 38 Lafayette Street • Yarmouth, ME 04096 • (207) 846-0600 • Fax (207) 846-0657

**ORNAMEC® 170 Grass Herbicide
KEEPS ORNAMENTAL BEDS
CLEAN WITH LESS LABOR**

ORNAMEC 170 Grass Herbicide removes EMERGED unwanted grasses from plantings of shrubs, groundcovers and flowers, including wildflower plantings. Ornamec 170 is effective against nearly all major grass species, including crabgrass, barnyardgrass, goosegrass, foxtails, sand-bur, panicums, bermudagrass, and torpedograss. Of over 600 species and varieties of shrubs, trees, flowers and groundcovers listed on the label, more than 400 may be treated "over-the-top" without risk of plant injury. Unlike other sprayable grass control products, Ornamec 170 requires no surfactant. — PBI/GORDON

ORNAMEC® is a registered trademark of PBI/Gordon Corporation.

CIRCLE #190

**EXHALT® 800
Tank-Mix Encapsulator
LENGTHENS LIFESPAN
OF CONTACT
FUNGICIDES**

Exhalt 800 is a unique sticker-extender which, added to pesticide spray solutions, attaches to the microscopic particles of pesticide and forms a porous, flexible fabric that encapsulates the pesticide and holds it on the turf or ornamental leaves. Elastic, it flexes and remains intact as the plant grows.

Reducing pesticide losses due to rain, wind and evaporation, Exhalt 800 enables the applicator to spray even when there is a threat of rain. Compatible for tankmixing with most commercially used wettable powders, flowables and soluble powders. — PBI/GORDON

EXHALT® is a registered trademark of PBI/Gordon Corporation.

CIRCLE #191

**DYCLOMEC®
Landscaping Herbicide
STOPS WEEDS AND
GRASSES ALL
SEASON LONG**

Dyclomec 4G Landscaping Herbicide is a granular preemergent which forms an herbicidal barrier in the top 2 to 3 inches of soil for season-long control of annual and perennial broadleaf weeds and grasses. It is labeled for use in and around deep-rooted, woody perennials to eliminate trimming or mowing, and encroaching grasses, around beds, tree wells, monuments and buildings, and along fences, guardrails and walls. Dyclomec's active ingredient, dichlobenil, does not move significantly in the soil and is not taken up by trees or other plants as it acts by stopping growth at the point of contact. — PBI/GORDON

DYCLOMEC® is a registered trademark of PBI/Gordon Corporation.

CIRCLE #192

**ALGAEMEC™ Turf Algaecide
CONTROLS ENERGY-ROBBING,
UNSIGHTLY ALGAL GROWTH**

New Algaemec Turf Algaecide from PBI/Gordon Corporation can be applied as a broadcast or spot treatment with all types of spray equipment for the control of algal scums and the odors caused by algae and bacteria. All turfgrass species, including hybrid bermudagrass, are tolerant to this water soluble formulation of quaternary amines. Used in conjunction with adequate drainage, air movement, proper pH and sufficient fertility, Algaemec can be your answer to problems with algal growth. — PBI/GORDON

ALGAEMEC™ is a trademark of PBI/Gordon Corporation.

CIRCLE #193

**TRANSFILM® Anti-Transpirant
PREVENTS VAPOR LOSS IN
ORNAMENTALS AND TURF**

Spray-applied Transfilm creates a clear, glossy film which protects plants from water stress brought on by transplanting, winter desiccation, drought, and temperature extremes.

During transportation and transplanting, ornamental plants and certain species of palletted sod may suffer shock if the transpiration rate exceeds the water uptake of the roots. Transfilm's protective coating slows down the transpiration rate, reducing the water requirement and minimizing plant losses. — PBI/GORDON

TRANSFILM® is a registered trademark of PBI/Gordon Corporation.

CIRCLE #194

EXTRA GREEN... EXTRA FAST!
But Without Extra Growth!

FeRROMECE®
LIQUID IRON

Desert Inn 8th Green
photographed January 18.

Desert Inn Golf Club,
(Jerome M. Jones, GCS)
Las Vegas, Nevada,
is a major user of FERROMECE
applied through "Ferrogation".

Some of the most attractive, dark green grass on many golf courses is the result of a dependable, controllable rapid-greening phenomena. It's FERROMECE Liquid Iron, which achieves full turf green-up in 24 to 48 hours . . . or less!

The real beauty of it is that this foliar-applied combination of iron, sulfur and urea dramatically speeds up and increases chlorophyll production but not the top-growth of the grass.

Another option is FERROMECE AC (amine compatible) especially designed for tankmixing with other sprayable turf products. It can make you look good . . . in just a few hours!

BOV-A-MURA®
LIQUID ORGANIC FERTILIZER

Bayville Hole No. 1
photographed 9 months after
course construction was completed.

Bayville Golf Club,
(J. Cutler Robinson, CGCS)
Virginia Beach, Virginia,
set a grow-in record with
the help of FERROMECE and
Bov-A-MURA.

BOV-A-MURA is a re-bodORIZED, sprayable organic fertilizer derived from cow manure. Enhancing root growth and tillering, it speeds up sod knitdown and seedling establishment, plus it produces dense, wear-resistant turf.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.

Think Of It As The Swiss Army Knife Of Utility Vehicles.

The new E-Z-GO Workhorse™ does it all. Hauls plants and fertilizer. Carries sand, gravel, bales of straw, building materials. And all your tools from shovels and hoes to mowers and blowers. It comes with lots of standard features like an 11h.p. 350cc engine, a 1200lb. payload capacity and an exclusive heavy duty bed liner. With options like a larger cargo bed and power dump, you can get an E-Z-GO utility vehicle that comes with just about anything – except a corkscrew. Looks sharp, too.

THE FINEST UTILITY VEHICLES IN THE WORLD.™

CIRCLE #118

The only spray that lets you walk away...

Even at the end of a 14-hour day you're thinking ahead to the challenges of tomorrow. Your water aeration system shouldn't be one of them. With over 100,000 units operating in the field, Otterbine is the brand turf professionals rely on for durability and worry-free operation.

No more 6-hour assembly sessions

Unlike the competition, Otterbine aerators are shipped pre-assembled and ready to work. Only Otterbine uses a custom built, low speed, four pole motor that operates at half the RPM's of competitive high speed motors. Low speed motors mean greater motor longevity and the lowest operation costs in the industry. Only Otterbine aerators are constructed of 21st Century high-tech engineered thermal plastics and stainless steel for longer life under extreme operating conditions.

Unmatched aeration capabilities

Otterbine has the highest oxygen transfer rate of 2.3 pounds per horse power per hour, based on published independent testing by Auburn and Louisiana State University. Each motor is built to run at the lowest RPM rate so you can expect years of dependable service with

unmatched aeration capabilities, unlike high speed motors that sacrifice operating efficiency and aeration capability.

No more inconvenient repairs

The Otterbine warranty is the best in the industry – 2 years on all moving parts and 5 years on all non-moving parts – while most standard warranties only cover you for 1 to 3 years. Plus, with over 60 authorized Otterbine service centers around the globe, you'll never have to worry about fixing an aerator yourself, or sending it long distances for service – which would mean long down times and greater expense.

Learn more about water management

Otterbine is the leader in the science of aeration. Read what we've learned in 40 years as the market leader in aeration – ask for your free copy of "Pond & Lake Management." It's a guide to help you make the right decisions on aerator sizing, placement, and the scientific reasons behind those recommendations.

Otterbine offers a diverse line of products that include

both surface and subsurface aerators, lake dye, portable pumps, ozone generating and delivery systems, plus much more.

Otterbine aerators are built to last the longest.

Water works with Otterbine.

A good-looking machine is one thing. A whole lot of improvements are the other 10.

The Jacobsen Greens King™ V Triplex Greens Mower has the cut you expect. Plus, some great improvements.

1. The exclusive FlashAttach™ System makes changing reels, rollers, spikers and verticutters as simple as pulling a pin.
2. Walk-through operator's station allows easy entrance and exit from either side.
3. Standard tilt wheel and power steering. Rear wheel turns inside the front wheel's radius.
4. Fully enclosed engine compartment for quieter operation. Fiberglass hood protects key components.
5. Operator friendly controls for easier access and greater visibility – clear sight lines all around.

6. Single pedal speed and forward/reverse control. One-touch reel lift/lower pedal.
7. Ultra-light footprint minimizes compaction.
8. Open design and handy dome light make accessing the center reel easier.
9. Easy access to battery, radiator, coolant bottle, air filter, hydraulic fill and fuel fill.
10. Standard halogen headlight for dusk and dawn.

Ask your Jacobsen distributor for a Greens King V demonstration today.
