

Penncross is Picture Perfect at the Ryder Cup

Fourteenth hole, Valderrama, Marbella, Spain. Ryder Cup '97 golfers play on Penncross, the world's most specified putting green grass.

The development of creeping bentgrass greens, tees and fairways added a fresh approach to the ancient game of golf: Putting is now faster and truer, bentgrass fairways allow more roll, and along with tees, recover from divot and traffic damage more rapidly. Golfers get around, and today's global players expect bentgrass.

Now, more architects and designers incorporate the 'Penn Pals' from Tee-2-Green into their courses with outstanding results. Our bents contrast well when perennial ryegrass, Kentucky bluegrass or fine fescues are used in short and tall rough areas. It's no wonder today's turf professionals count on the

'Penn Pals' to make their courses picture perfect.

In 1955 Professor Burt Musser, assisted by Dr. Joe Duich, released Penncross creeping bentgrass as a seeded bent for golf course greens. For more than 40 years Penncross has been specified for greens around the world and extended the boundaries of bentgrass adaptability.

Exceptional heat and wear tolerance plus recuperative ability are Penncross strong points. Forgiving nature and management latitude are more reasons for Penncross' long life, reputation and continued popularity.

Superintendents know Penncross will always rise to the challenge and perform flawlessly ...like in the 97 Ryder Cup at Valderrama.

Penncross is one of the 'PennPals'TM available in the sealed tamper proof "Penn Pail" marketed by Tee-2-Green[®]. Call today for the distributor nearest you.
