Penncross, PennLinks
and PennTrio

PennTrio No. 17, Apple Tree GC, Yakima, WA

Penncross No. 14, Coeur D'Alene Resort, Coeur D'Alene, ID

Tour the Islands with the 'Penn Pals'

Island putting greens are indeed a beautiful, yet intimidating, sight to behold with some very unique shapes and features. They're also meant to challenge golfers. Once a player has carried the water hazard and landed on the green, he should be rewarded for his efforts. That's why, in most cases, the putting surface is one of the 'Penn Pals'... icing on the cake, so to speak.

We haven't seen the last of island greens. Now that one floats, what's next? Whatever the configuration, your Tee-2-Green distributor has the ideal creeping bentgrass for each application: Penncross... the world standard for putting greens since 1955. Penneagle... the salt tolerant grass for greens and fairways, plus PennLinks, the new choice for greens around the world.

And now, the exciting next generation of low mowing creeping bentgrasses... PENN A-1, PENN A-2, PENN A-4, PENN G-1, PENN G-2 and PENN G-6 will add a new dimension to green performance. So, even when a player's short irons are erratic, and his putting's unpredictable, he can always count on the quality and consistency of 'Penn Pals' greens as he tours the islands.

San Antonio golf course named historic landmark

SAW ANTONIO, Texas — Historic San Antonio Golf Course, the first public golf course built in Texas and a host site of everything from state and city championships to the Texas Open, has been named the first golf course to be added to the Texas Registry of Historic Landmarks. The newly created Texas Registry of Historic Landmarks was created in part by a grant from the National Trust for Historic Preservation. Located in Texas, the Texas Open golf tournament was first played in 1912. The course was designed by A.W. Tillinghast, who also designed the famous "Old Course" at the University of Texas at Austin. The course was built in 1912 and has since become a landmark in the state's history.

ON COURSE

As sure as the seasons change, you can count on Pursell's POLYON® fertilizers. They are the most reliable controlled release fertilizers you can buy, because temperature is the only factor that affects their release of nutrients.

Our patented POLYON coating is extremely durable and very safe. It ensures against early release which can cause excessive clippings or even injury to your turf. POLYON fertilizers gradually meter out nutrients, feeding your turf

Pursell's PolyGraph™ computer program can predict your turf's response.

Palmer & Nicklaus may team on course

ST. AUGUSTINE, Fla. — The eventual 18-hole course at the World Golf Village may be designed by the legendary duo — Arnold Palmer and Jack Nicklaus. The Florida Golf Association reported negotiations are ongoing between World Golf Village executives and Palmer and Nicklaus to get the pair to team on the design, with construction to start next year. The two teams of golf have never collaborated on a golf course design. The Palmer-Nicklaus team is assembled. It will be the second all-star design team formed in the new project. The World Golf Village's first course featured Gene Sarazen and Sam Snead as design consultants. The course will be named The Point and is scheduled to open in 2001. The 18-hole course will be located in a 1,000-acre site in the World Golf Village. The course will be located in a 1,000-acre site in the World Golf Village. The course will be located in a 1,000-acre site in the World Golf Village.

Palmer designing in Nicklaus' backyard

QUARTER ORLEANS — Jack Nicklaus and Arnold Palmer spent nearly a year working together to design a new golf course in Orleans. Now, Palmer is working on a new course in Orleans. Palmer is designing in Nicklaus' backyard. Palmer is designing in Nicklaus' backyard. Palmer is designing in Nicklaus' backyard.

MECHANIC COMMENTS:

PLEASE ALLOW ADDITIONAL TIME FOR ANY SERVICE THAT REQUIRES HOISTING THE CAR TO ACCESS PARTS. (DOES NOT APPLY TO YAMAHA CARS, WHICH HAVE SPECIAL ACCESS PANELS THAT MAKE HOISTING ALL BUT UNNECESSARY.)

YAMAHA GOLF CARS REQUIRE UP TO 90% LESS ATTENTION THAN OTHER GOLF CARS. THAT DESERVES A LOT OF ATTENTION.

Yamaha golf cars don't have to be brought in every 3 months for one form of scheduled lubrication or another like the other guys. Simply lubricate the kingpins once a year. That's it. Our front wheel bearings are sealed and rarely need maintenance. There are no front suspension grease fittings to maintain. And the pivoting and rotating parts on the chassis generally don't require lubrication.

Which means, even including preventive maintenance, the Ultima™ requires a lot less of your time. And a lot less of your money. After all, just because our lives revolve around golf cars doesn't mean yours has to.

CALL YAMAHA AT 1-800-843-3354. WORK THROUGH OUR EXCLUSIVE COST COMPARISON BOOK. YOU'LL SEE THAT LOWER MAINTENANCE IS ONLY ONE WAY WE MAKE YOU MORE PROFITABLE.

I hereby acknowledge that, unless I use Yamaha golf cars, it is my responsibility to have my cars lubricated every 3 months based on the manufacturer's recommendations and that I agree to pay the parts and labor costs each and every time, even though it's a big huge waste of money since I could use Yamaha golf cars and only worry about it once a year.

**Only
81,562
more golf
courses
to build**

In 1949, the Shanghai Golf Course closed forever. It was the only one in China. It took 40 years to build another. Golf in China hasn't looked back since.

The United States has 17,000 golf courses serving 250 million people, China, with a population of 1.2 billion and as keen to play golf, has just 38 - 81,562 fewer per capita. With the world's third largest economy and the fastest growing, golf course construction in China is set to explode.

To fast track into this gargantuan market, the 3rd International China & Hong Kong Golf Exhibition is the one event no golf supplier can afford to miss.

Last year, our Golf Exhibition attracted over 10,000 of the rich and powerful, China's business elite. For the many leading golf course architects, designers, landscapers, irrigators, equipment suppliers and developers, it proved a runaway success. The right contacts were made and the big developments initiated. This year, visitors are expected to quadruple.

The Exhibition will take place in Shanghai's prestigious INTEX Centre between the 10th and 13th December 1997. Space, unfortunately, is extremely limited. To secure your position contact:

Think Of It As The Swiss Army Knife Of Utility Vehicles.

The new E-Z-GO Workhorse™ does it all. Hauls plants and fertilizer. Carries sand, gravel, bales of straw, building materials. And all your tools from shovels and hoes to mowers and blowers. It comes with lots of standard features like an 11h.p. 350cc engine, a 1200lb. payload capacity and an exclusive heavy duty bed liner. With options like a larger cargo bed and power dump, you can get an E-Z-GO utility vehicle that comes with just about anything – except a corkscrew. Looks sharp, too.

THE FINEST UTILITY VEHICLES IN THE WORLD.™

Expert technicians who know the entire Jacobsen line—not just one product group.

Regional training schools offered worldwide.

Worldwide Distributor Service Network computer link to speed parts orders.

A worldwide network of factory trained technicians to support your mechanics.

Multi-lingual training materials.

Next-day or two-day delivery of in-stock parts through Parts Xpress.

World Class Support. First Name Basis.

At Jacobsen, being the professional's choice on turf wasn't good enough. So we made it our goal to be the professional's choice for service and support — with everything from multi-lingual training materials to expert technical support and next-day delivery of in-stock parts through Parts Xpress. Count on Jacobsen and your Jacobsen distributor to be there for you — wherever

you are in the world. For world-class support on a first-name basis, see your Jacobsen distributor.
