Scotts introduces
Fertilizer + Dimension

Scotts has introduced Fertilizer + Dimension to prevent crabgrass and provide an extra measure of control when timing is a little off. Made with Scotts' patented Poly-S fertilizer technology, it provides long-lasting, controlled-release feeding.

Fertilizer + Dimension provides pre-emergent prevention of crabgrass as well as early postemergent control, offering a broader window of opportunity to prevent or control this and other annual grassy weeds. Fertilizer + Dimension is non-staining and can be used on shortcut bentgrass/*Poa annua* fairways. Fertilizer + Dimension is for use on all turf types, with some varietal exceptions. Scotts also has a toll-free number for orders and assistance: 1-800-543-0006.

Faster knockdown
with Chipco 26GT

Turf managers can now take advantage of Chipco brand 26GT fungicide, an improved formulation of Chipco 26019 Flo, providing faster knockdown of brown patch and dollar spot and offering quicker turf recovery.

In the height of their disease season, superintendents often have a need for a contact material. In response to this need and after several years of research, Rhone-Poulenc has developed an improved formulation, Chipco 26GT. Chipco 26GT provides the same broad-spectrum disease control and the same long residual, but knocks down brown patch and dollar spot faster than Chipco 26019 Flo.

University trials with the new formulation show that Chipco 26GT knocks down brown patch and dollar spot up to 48 hours faster than the standard Chipco 26019 Flo. For more information, contact Kris Norwood at 919-870-5718.

Spill Deck offers
hidden containment

The new Ultra-SpillDeck P2 features a hidden containment bladder which automatically unfurls to capture large spills or drum leaks (patent pending).

The bladder is housed in the "Bladder Attachment," which is connected to the SpillDeck P2 with a bulkhead fitting. With total capacity of 66 gallons, this product is reportedly the only low-profile, two-drum containment unit which meets EPA and Uniform Fire Code Spill Containment Regulations. Low, 5.75-inch deck height allows safe and convenient loading/unloading of drums, even when drum-handling equipment is not available. Applications for the all-polyethylene unit include hazardous waste collection, drum pump stations and storage of virgin chemicals.

For more information, call Ultra-Tech International at 800-353-1611.
