

Event covers GPS, biologicals, other new ground

Continued from page 1
will hear:

- Cal Roth, director of golf course maintenance for the PGA Tour's 16 Tournament Players Clubs, speaking on "the perfect maintenance complex." Roth and his superintendents have designed a sort of template that fits all needs and can be configured to fit any site.

- Ray Davies, regional agronomist for CourseCo Inc. in California and former president of the California Golf Course Superintendents Association, who will tell how to turn "a pain" into "a gain" by working in a positive way with OSHA regulations. He will share numerous opportunities to improve a maintenance operation while at the same time keeping government regulators happy.

Ray Davies

- Kevin Ross, director of golf course management at Country Club of the Rockies in Edwards, Colo., speaking on gizmos, gadgets and inventions that can make life a whole lot easier.

Kevin Ross

- Bob Brame, regional director of the U.S. Golf Association North-Central Region, who will draw on his latest experiences after the unique challenges of the summer to tell superintendents how to best battle the problems at their courses.

Bob Brame

- Terry Buchen, a Master Greenkeeper and president of Terry Buchen Golf Agronomy International, addressing the latest and best methods of maintaining bunkers and improving their drainage.

Terry Buchen

Meanwhile, the latest in the technology of "mapping" a golf course will be presented by Larry Rodgers, president of Larry Rodgers Design Group in Lake-wood, Colo.

Always at the forefront of technological advances that can be

applied to golf course irrigation and maintenance, Rodgers will discuss mapping a course quickly through the new marriage of Global Positioning Surveys and Geographical Information Systems technologies. He will demonstrate how the technology can be manipulated into

a Spatial Data Information system for use in irrigation central control, chemical and fertilization applications and robotics maintenance equipment.

The half-day seminar on biological controls will be led by Cornell's Nelson, considered a foremost researcher in this field

in the world.

He will be joined by Dr. Janet Anderson, director of the Biopesticides and Pollution Prevention Division of the federal Environmental Protection Agency, and Dan Dinelli, superintendent at North Shore Country Club in Glenview, Ill., who has been a part of several studies and field-research projects pertaining to various biological controls, including the BioJect system.

Atlanta AC

Continued from previous page even in that situation, Waller said he would sterilize to remove the risk of disease, weeds or other pests in new greens. "We paid more than \$2.5 million for the total renovation," he said. Pre-construction blending and sterilization "was a nice, inexpensive insurance policy."

GOLF COURSE NEWS BOOKSHELF

The Confidential Guide to Golf Courses

By Tom Dook

Written in the inimitable style of *Golf Magazine's* golf course design editor, this book describes, uncovers and rates more than 1,000 courses worldwide that the author has visited and photographed.

With more than 180 four-color photographs, it might be the best collection of worldwide photos ever published. It starts with a "Gourmet's Choice" selection of 31 of Dook's personal favorites, each by a different designer, followed by brief reviews of

courses from Pebble Beach, Calif., to Kebo Valley, Maine, and from St. Andrews, Scotland, to Joondalup in Western Australia.

\$45.00, 400 pages, hardcover.

Color Atlas of Turfgrass Diseases on Golf Courses

By Dr. Toshikazu Tani

Contributing Author, Dr. James B. Beard

The *Color Atlas of Turfgrass Diseases on Golf Courses* presents more than 540 high-quality color photographs of all the major turfgrass diseases that occur on both warm- and cool-season grasses. It is international in

scope. This book will likely become the standard color-guide to disease diagnosis and pathogen identification for golf course superintendents and turfgrass practitioners. No other book contains as many color photographs of this detail and quality. Helpful maps are included to assist in disease identification by providing geographical locations where each disease/pathogen is likely to occur.

A unique feature of this easy-to-use field guide is that it also provides color photos of step-by-step guidance on diagnostic techniques for laboratory analysis which can be used by practitioners.

\$79.95, Approx. 250 pages, hardcover.

The Course Beautiful

By A.W. Tillinghast

This is a fascinating collection of original articles and photographs on golf course design by one of the masters. A prolific writer, Tillinghast delves into his philosophies on golf course design and maintenance, and his thoughts on what makes a championship course. It is loaded with vintage photographs and original Tillie sketches of such of his creations as San Francisco, Winged Foot and Baltusrol golf clubs.

\$34.95, 120 pages, hardcover.

The Captain — George C. Thomas Jr. and His Golf Architecture

By Geoff Shackelford

The creator of Riviera and Los Angeles country clubs and author of the classic book, *Golf Course Architecture in America, Its Strategy and Construction*, George Thomas has deeply affected the golf industry even since his death in 1932. Thomas worked on single projects with Donald Ross and A.W. Tillinghast, learned from friends Hugh Wilson and George Crump, and designed more than two dozen courses on his own. At the same time he was recognized worldwide for his books about and breeding of roses, his first love. Call him brilliant, or enigmatic, but in his last years his work was on a book about Pacific game fish. Shackelford reveals the man behind the work.

\$35.00, 207 pages, hardcover, limited edition of 1,200 copies.

Guide to Golf Course Irrigation System Design and Drainage

By Edward Pira

As a working reference or as a textbook, the *Guide to Golf Course Irrigation System Design and Drainage* covers every important aspect of the subject in an easy-to-understand format. It is perfect for the practicing turfgrass manager, superintendent, consultant, sales representative, and student. Used in numerous academic courses for years, this is the first commercially-available version of a perennial best-seller, and is completely revised with new exercises, practical examples, numerous new figures, and expanded sections covering a wide variety of irrigation system components. A hands-on manual, it guides

the reader through every phase of an irrigation program. Turfgrass managers and golf course superintendents will refer to this handy book often to plan effective irrigation systems, ensure appropriate capacity, easy installation, and practical operation and maintenance.

\$59.95, 400 pages, hardcover.

Human Resource Management for Golf Course Superintendents

By Robert Milligan and Tom Maloney

This practical guide provides basic management principles and techniques which view people as the most important asset in golf course management. Five basic management functions are detailed throughout the book, using everyday situations to illustrate the key points.

Designed to serve as a quick reference, or as a self-teaching guide, *Human Resource Management for Golf Course Superintendents* features numerous techniques and practical examples.

Every aspect of management is covered. Learn how to improve your planning abilities, build leadership and communication skills, maximize employee performance, select and train new employees, avoid the mistakes that cause low morale and poor performance, and conduct employee performance evaluations.

Use of the methods and principles presented in this book will ensure the effective management and operation of any golf facility.

\$34.95, 150 pages, hardcover.

Turfgrass Management Information Directory

By Dr. Keith Karnok

A 1,700-entry reference for turfgrass and green industry professionals, the *Turfgrass Management Information Directory* compiles the latest information and gives an at-your-fingertips list, complete with names, addresses and useful material you need every day.

The directory covers academic programs and key contacts, instructional resources including slide sets and videos, software and much more.

The section on related books provides a definitive guide to pertinent titles on diseases, weeds, insects, irrigation, pesticides and general information. Industry services such as diagnostic labs and soil-testing facilities are included.

A guide to green industry organizations gives addresses and contact names.

\$19.95, 115 pages, softcover.
