

Mastroleo wins Distinguished Service Award

The board of directors of the Golf Course Superintendents Association of America (GCSAA) has selected David Mastroleo, superintendent at Hillcrest Country Club in Los Angeles, to receive the 1998 Distinguished Service Award.

The honor recognizes Mastroleo's outstanding contributions to the superintendent profession and is an expression of gratitude by GCSAA for his many efforts and achievements in advancing the golf

course management industry.

The award will be presented Feb. 4, during the Opening Session of GCSAA's 69th International Golf Course Conference and Show, to be conducted Feb. 2-8 at the Anaheim Convention Center.

A second-generation superintendent and 44-year GCSAA member, Mastroleo took his first superintendent job at Arrowhead Country Club in Wheaton, Ill., in 1953. He moved to Los Angeles to

CONFERENCE SCHEDULES

ONE-DAY SEMINARS

MONDAY, FEB. 2

- The Challenge of Owning a Golf Course (.7)
- Drainage Systems (.7)
- Employee Safety Training (.7)
- Focus on the Military (.7)
- Improving Your Negotiating Skills (.7)
- Irrigation Scheduling Techniques (.7)
- Maximizing Turfgrass Disease Control (.7)
- Options and Their Application in Pest Management (.7)
- Protecting Natural Resources on the Golf Course (.7)
- The Superintendent as Grow-In Manager (.7)
- Turfgrass Ecology (.7)
- Turfgrass Stress Management (.7)
- USGA Intermediate Rules of Golf (.7)

TUESDAY, FEB. 3

- Budgeting and Forecasting (.7)
- The Challenge of Owning a Golf Course (.7)
- Developing Your Hazard Communication Program (.7)
- Golf Course Safety, Security and Risk Management (.7)
- Insect and Disease Management for Warm Season Turfgrass (.7)
- Irrigation Water Quality (.7)
- Lake and Aquatic Plant Management (.7)
- Maximizing Job Satisfaction (.7)
- Personal Stress Management (.7)
- So You Want to be a General Manager? (.7)
- Strategies for Managing the Turfgrass System (.7)
- The Superintendent as Grown-In Manager (.7)
- USGA Golf Course Rating System (.7)
- Wetlands and Golf Courses (.7)

WEDNESDAY, FEB. 4

- Certification Exam Study Guidelines (0)
- Financial Essentials for the Superintendent (.7)
- Lake and Aquatic Plant Management (.7)
- Maximizing Teamwork (.7)
- Maximizing Turfgrass Disease Control (.7)
- The Microbiology of Turfgrass Soils (.7)
- Scouting, Sampling and Monitoring Golf Course Pests (.7)
- Turfgrass Stress Management (.7)
- Weed Control (.7)
- Wildlife Management and Habitat Conservation (.7)

THURSDAY, FEB. 5

- Advanced Weed Management (.7)
- Calculations and Practical Mathematics for Use in Golf Course Management (.7)
- Design, Construction and Maintenance of Chemical Storage Facilities (.7)
- Enhancing Your Value as a Professional Golf Course Superintendent (.7)
- Financial Management (.7)
- Golf Course Construction Management and Grow-In (.7)
- Human Resource Management (.7)
- Integrated Disease Management for Bermudagrass Golf Courses (.7)
- Irrigation Efficiency (.7)
- The Microbiology of Turfgrass Soils (.7)
- Practical Tree Management (.7)
- Problems and Solutions: Using Annuals and Perennials in the Golfscape (.7)
- Reclaimed Water Irrigation (.7)

INNOVATIVE SUPERINTENDENT SESSIONS: PARTS I&II

FRIDAY, FEB. 6 & SATURDAY, FEB. 7

- Continental breakfast and roundtable discussions. 7-9:30 a.m. (Friday, Feb. 6) 7-8:30 a.m. (Saturday, Feb. 7)
 - Several 15-minute presentations from superintendents sharing their successes and innovative ideas.
- (Friday's session will have Japanese and Spanish interpretations.)

CONCURRENT EDUCATION SESSIONS

THURSDAY, FEB. 5

- 9-11:45 a.m. • The Inside Scoop on Bentgrass
This session will provide a broad perspective of the new bentgrasses with specifics on establishment, renovation, and management.
- Managing Turf To Protect the Environment Investigation of turfgrass management programs.
- 2-4:45 p.m. • The Inside Scoop on Bermudagrass Taking a look at new types of bermudagrass and the management practices they require.
- Environmental Success Stories
A review of environmental successes ranging from economic values of conservation to research on golf and wildlife.

TWO-DAY SEMINARS

MONDAY & TUESDAY, FEB. 2-3

- Basic Principles of Turfgrass Management (1.4)
- Business Communication and Assertiveness Techniques (1.4)
- Design, Construction and Renovation for IPM (1.4)
- Golf Course Restoration, Renovation and Construction Projects (1.4)
- Introduction to Soil Science (1.4)
- Irrigation Part I: Equipment Use and Selection (1.4)
- Managing People for Peak Performance and Job Satisfaction (1.4)
- Plant Health Care and Pest Management for Golf Course Trees and Shrubs (1.4)
- Plant Nutrition and Fertilizers (1.4)
- Spanish for Golf Course Management (1.4)
- Turfgrass Identification and Utilization (1.4)

WEDNESDAY & THURSDAY, FEB. 4-5

- The Assistant Superintendent: Managing People and Jobs (1.4)
- Basic Turfgrass Botany and Physiology (1.4)
- Disease Identification and Control (1.4)
- Environmental Considerations in Golf Course Management (1.4)
- Golf Course Construction Techniques and Management (1.4)
- Golf Course Design Principles (1.4)
- Golf Course Restorations, Renovation and Construction Projects (1.4)
- Golf Greens: History, Theory, Construction and Maintenance (1.4)
- Introduction to Integrated Pest Management (1.4)
- Irrigation Part II: System Design, Operations and Management (1.4)
- Managerial Productivity (1.4)
- Managing People for Peak Performance and Job Satisfaction (1.4)
- Planting Design for the Golf Course (1.4)
- Preconstruction and Construction Management (1.4)
- Salt-Affected Turfgrass Sites: Assessment and Management (1.4)

HALF-DAY SEMINARS

WEDNESDAY, FEB. 4

- Classic Golf Courses and the Master Architects (.35)
- Developing a Successful Superintendent/Employer Relationship (.35)
- Guest Architect Seminar with Robert Lohmann (.35)
- Managing Turfgrass Root Systems (.35)
- Time Management for the Golf Course Superintendent (.35)
- Turfgrass field Seminar (.35)
- Weather Information and How to Use It (.35)

THURSDAY, FEB. 5

- Causes, Detection and Management of Localized Dry Spots (.35)
- Managing Multi-Course Facilities (.35)
- Time Management for the Golf Course Superintendent (.35)

SATURDAY, FEB. 7

- Precise Sprayer Calibration, Tank Mixing and Record Keeping (.35)
- Extending/Protecting Pump Station Life (.35)

SPECIAL INTEREST PROGRAM

WEDNESDAY, FEB. 4

- 2-5 p.m. • The First Timers Orientation Session. Come in as an amateur attendee and leave as a professional conference participant.

THURSDAY, FEB. 5

- 7:45 a.m.-4 p.m. • Golf Course Decision Makers Golf Outing and Lab Owners and employers of superintendents only. An inside look at the daily challenges of superintendents. Play 18 holes during the lab. \$35
- 2-5 p.m. • Public and Resort Golf Forum: Topics will include: Trends in daily fee operations, the diversity in public and resort golf, and the politics and competition between private facilities and municipal golf courses.

FRIDAY, FEB. 6

- 2-5 p.m. • Greens & Grassroots: The American with Disabilities Act and Golf Courses
A panel of experts will be discussing topics such as the ADA and its impact on golf, compliance issues, case studies and advice on handling complaints.

SATURDAY, FEB. 7

- 9 a.m. - noon • Career Development Forum: When Does My Career Become a Second Choice?
Learn how to make positive career moves to improve the quality of your career.

With Our Deluxe Ball Washer's
NEW Internal Overflow... (Patent Pending)

...away goes soap suds
down the drain

Say goodbye...

to soap stains down the back of your ball washers - thanks to a simple, yet ingenious, little change in the design of our **Deluxe Model** as shown here. Now, any excess liquid drains out of the washer and down the **inside** of the pipe stand.

And Say goodbye...

to towels hanging in your Trash Mates™ or covering your Tee Signs, because the towel clip has been repositioned on the back of the washer.

Isn't it amazing...

how two small changes make such a big difference.

Call 1-888-893-2433

Hurdzan on builders

Continued from page 42

No architect would disagree with me when I say that a great builder can make your work look outstandingly good, and a poor contractor can butcher the greatest design in the world. Some builders have taken bad golf course plans and made enough field adjustments to fashion a good golf course, only to have the designer get all the credit.

These are good times for golf course builders, for many courses are being built. However, not so long ago when the country was facing high inflation, the interest rates and rising wages made it difficult to make a profit, or even stay in business. This affected every golfer who appreciates a fine golf course. Each time we lost one of these artisans, the evolution of course design was set back for we lost the subtleties of interpretation so necessary to produce a great golf course.

An analogy would be if a gifted composer wrote an imaginative and inspired piece of music, but if the only musicians around to play it were a street corner band, you can imagine the result. This is humorous perhaps, but the same results might be expected if you gave a terrific golf course plan to a road builder.

Thank goodness our country's economy has improved and golf course building is at an all-time high rate. Now the problem is trying to find contractors or train crews in the subtleties of course construction. Provided the industry is successful, which it seems to be, the best golf courses ever are yet to come. Better designs and better construction, supported by better maintenance, guarantee great golf.

Now, I am not so naive as to think that human nature will change and we will acknowledge all of our unsung heroes. But next time you are impressed by a great golf course, don't just think of the designer. Remember the golf course builder.

UK lottery

Continued from page 42

struggle to justify expenditure on golf course construction.

Once more, the perceived image of golf is causing problems. "Golf has the wrong image, it is seen as being exclusive, elitist and discriminatory. If we are to provide for a wider base of golfers we must overcome this," said the BIGCA spokesperson.

Another way forward is for existing private clubs to open it's doors to the general

public on a pay as you play basis with no discrimination against non-members.

Prime Minister Tony Blair made clear before the general election in May that he wanted the lottery to be run in the spirit of public good.

If golf is able to evolve into a truly "people's game" then convergence with the Lottery Funds would be all the more likely. At the moment, however, an awful lot of people would like the opportunity to play golf but the funds are not forthcoming to allow them to do so.

MacCurrach honored

Continued from page 46

GCSAA Foundation, is open to undergraduate turf students. Each applicant is judged on academic excellence, appropriate career preparation and potential to make an outstanding professional contribution. Applications are distributed in December and January to all colleges and universities that offer degrees in turfgrass management. Applications are also available on the GCSAA Web site (www.gcsaa.org). The application deadline is June 1, with the judging process to be completed by July 15.

Internationally recognized for his expertise in the turf management field, MacCurrach began his career as golf course superintendent at Valley Coun-

try Club in Warwick, R.I., in 1962. In 1972, he became the 45th person to receive the title of Certified Golf Course Superintendent from the GCSAA. MacCurrach became the PGA Tour's first agronomist in 1974, then was named senior agronomist in 1988. In 1994, he received the GCSAA's Distinguished Service Award.

"Allan's contributions to the PGA Tour specifically, and the turfgrass industry in general, were invaluable," PGA Tour Commissioner Tim Finchem said. "As senior agronomist, he played a leading role in establishing the standard of excellence for course conditioning at Tour events. The scholarship is an appropriate way of honoring Allan's years of dedication to the PGA Tour and the Golf Course Superintendents Association of America."

Mastroleo wins Distinguished Service

Continued from page 46

manage Fox Hills Golf Course in 1959. Eleven years later, he became superintendent at Hillcrest Country Club, where he has been for nearly 30 years.

"Dave Mastroleo is the epitome of what golf course superintendents are all about," said Bruce R. Williams, certified golf course superintendent at Los Angeles Country Club and GCSAA immediate past president. "He has spent a long career giving and sharing while asking for nothing in return. Dave is a shining example of the spirit of volunteerism, with over 40 years of contributing his time and talents to various GCSAA chapters and allied turfgrass organizations."

Mastroleo has been a GCSAA member since 1954, and is a member and past director and president of both the California Golf Course Superintendents Association (GCSA) and the GCSA of Southern California. He also is past president of the California Turfgrass Council.

"As a mentor, Dave has a long list of successful superintendents who benefited from this tutelage. The respect that those former trainees have for Dave is immeasurable, and many of them pinpoint Dave Mastroleo as the primary factor for their success," Williams said.

GUEST COMMENTARY: OVERVIEW OF THE ASIAN ECONOMIC CRISIS

Fream: Golf in Asia

Continued from page 83

five return on investment.

Since it takes two years or longer to plan, build and open a golf course, having inventory on stream as the local economy revives and pent-up economic demand expands, puts upward pressure on membership and greens-fee prices.

Daily-fee courses can manage current situations by greens fee adjustments and smart marketing of existing facilities. As player demand expands again, and it surely will, daily-fee operators or semi-private clubs with excess capacity, can attract new players. As demand increases again, there will be upward pressure on greens fees. For the in-place existing operator, this pressure of increased play and higher greens fees will clearly add to the profit margin. Membership values will increase as player demand increases.

Tourism golf will be a beneficiary as the various Asian economies recover. Tourism is here to stay. It is the single largest industry in the world. A couple of years of staying "home for the holiday" will surely rekindle the desire to play elsewhere when the confidence in the income stream and local economy has returned.

Existing resort courses or those now in construction that are open as the tourist demand returns, will benefit.

Since Southeast Asia has many of the world's most attractive seaside-sunshine

locations, tourist arrivals from elsewhere, primarily North America and Europe, will see business now and in the future. There are some bargains at hand where recent currency devaluations have made local prices more attractive. Smartly managed tourist resort courses can see direct benefit from increased international tourist travel.

Regional tourism will also benefit as Japan finally gets their economy back in equilibrium. Traveling Japanese golfers, because they cannot afford to play golf at home, constitute a considerable percentage of the 15 million or so Japanese players and the approximately 5,000 driving ranges that continue to produce more players. In the future, the Japanese golfer will be even more important. Cost factors, politics and environmental issues will prevent Japan from ever again building huge numbers of courses as happened in the 1980's. This means ever more Japanese will be seeking out other locations to play their golf. Korea, Guam, Saipan and the Philippines can be the earliest beneficiaries. China also can accommodate the Japanese golfer conveniently.

The Chinese are observers, not avid participants in the current Chinese golf market. Expatriate and speculative buyers drove much of the recent Chinese market demand. A large number of new courses across China is unlikely due to limited land availability, water availability problems, population pressures and

other economic and political concerns. Chinese travelers will increase in number geometrically in the coming years. Golfers will be among those travelers.

Existing and new courses around the Pacific Basin will benefit from the Japanese and Chinese tourist golfer. Korea and Taiwan can benefit most easily. The Philippines can certainly gain tourism golf visitors from China, Japan, Korea and elsewhere. More tourist quality destinations for eager golfers must be provided, however.

Those who can develop new courses in China in the next few years will clearly benefit, so long as the site selected for the new course is a solid one in a good location with adequate market analysis and with experienced planning and design. Excessive development costs are the last thing a smart golf developer will want. The correct location is vital. Mediocre design and construction results will not be financially successful.

It has become apparent in viewing the overall Asian golf market for more than 25 years, that these recent and ongoing economic readjustments will have considerable benefit, in spite of near-term hardship. The desire to play golf will overcome financial concerns.

Overbuilding of courses using ill-sited locations, grandiose design schemes and

eccentric clubhouse goals, will cause bankruptcy and distress for some. Overly expensive courses built more at the whim and ego of a signature player, or optimistic owner, rather than clearly focused on financial reality, will decline.

If future golf courses are master planned and designed in logical locations, with a clear understanding of the specific market target, with reasonable construction costs, with modest, yet comfortable, functional clubhouse facilities, golf

can be offered that will accommodate the vast majority of present and future players.

It must be recognized that Asia is diverse in very many ways. The effects of the current economic turmoil will impact each country differently while the timing of the impact, the duration of the downturn as well as the severity, will vary and may rotate. The emergence from adjustment and correction actions will surely vary. Politics and strength of conviction on the part of the various national leaders will have direct bearing on the timing and rate of recovery.

The ongoing dip in golf play and golf development activity will be viewed in the new millennium as but a pothole in an otherwise profitable and expanding industry. There will be more than 60 million golfers around the world by 2001. That is a major market to target.
