

# Seay accepts Don Rossi Award for Palmer

By MARK LESLIE

ANAHEIM, Calif. — Saying "some of the accolades we get as architects start right in this room," Ed Seay stood in for Arnold Palmer who received the Don Rossi Humanitarian Award from the Golf Course Builders Association of America (GCBA).

A partner in Arnold Palmer Golf Design who has worked with Palmer since 1971, Seay told the annual GCBA banquet here that he first spoke to the organization in its fledging stages in 1973. "Then you were not recognized much," he said. "Today you are not recognized as you should be — as the backbone of our industry — but pat yourselves on your back. You have made it. You're here and all of us architect and owners are very proud of your efforts."

In presenting the award in absentia to Palmer, outgoing GCBA President Paul Eldredge of Wadsworth Golf Construction Co. cited the Golf Hall of Famer as "the one who kicked off the game

of golf similar to Don Rossi kicking off our organization." Rossi was a founder of GCBA and served as its executive vice president when he died six years ago.

In a prerecorded, videotaped message, Palmer alluded to the approximately 200 golf courses on which he has been a design consultant and

said: "If there is anyone who appreciates a group of people more than I appreciate [you], I don't know where they are — because you have helped protect the integrity and the tradition of the game of golf. And I might add that I feel that you have an obligation to con-

Golf Course News publisher Charlie von Brecht (right) presents award to Bill Kubly

## Landscapes' Kubly credits hardworking staff

By MARK LESLIE

ANAHEIM, Calif. — Golf Course Builder of the Year Landscapes Unlimited earned its award because of "the hard work of our staff," said its president.

Accepting the honor from Charles von Brecht, publisher of the sponsoring *Golf Course News*, Bill Kubly said his company "works hard all year to provide a quality product. I want to thank the architects, suppliers and distributors who help us all have this opportunity to have a wonderful livelihood."

President Howard Barnes accepted *Golf Course News'*

Best Small Builder of the Year Award for Quality Grassing & Services, and President Geoffrey Corlett accepted a special Honorable Mention Small Builder Award for Turf Drain, Inc.

The Builder of the Year Award has been presented for nine years and the Small Builder of the Year for two. Wadsworth Golf Construction Co., Paul Clute and SAJO as well as Landscapes Unlimited have won previous Best Builder honors. MacCurrach Golf Construction was the first winner of the Small Builder citation in 1997.

## Venturi puts maintenance into perspective, wins Old Tom Morris

By MARK LESLIE

ANAHEIM, Calif. — Golf course conditioning, not playing equipment, has created the biggest change in the game of golf, according to Ken Venturi.

Venturi, here to accept the Old Tom Morris Award from the Golf course Superintendents Association of America, told a press conference: "The courses are so perfect. [In the past] you had to have imagination. You had to create something that wasn't there. Now, look at Augusta National and you can putt on the fairways. That has been one of the greatest changes in golf. You can talk about equipment. But I'm talking about conditions. That has made the game much, much different."

Saying he is inspired by tradition, Venturi spoke of Ireland and Scotland where "they play 'down' golf instead of 'up' golf."

"The ball is made to run," he said. "You can never make a green hard enough."

Irish and Scottish golf, he said, give the golfer multiple choices. "It allows you to use your imagination."

"Ask good shot-makers what they like," he said, "and they like

four things: small greens, hard greens, fast greens and narrow fairways."

He lamented that an entire field of golfers too often will play a hole in the same way. For that reason, for instance, Venturi doesn't like island greens because "they don't give you multiple choice... It doesn't give you the chance to protect a lead."

The annual Old Tom Morris Award honors individuals who have made a lifetime commitment to the game of golf, to promote the welfare of the game in a manner and style exemplified by the award's namesake, a four-time British Open champion and a golf course architect, groundskeeper and professional at Old St. Andrews in Scotland.

"Looking at the life of Ken Venturi you can see many parallels with the life of Old Tom," said outgoing GCSAA President Paul McGinnis. "They both met obstacles, and both overcame setbacks to find success on and off the course. Old Tom Morris had a passion for the game that he exuberantly shared with others so that they, too, could enjoy his experiences. Ken Venturi has

## ADA an issue at GCSAA

By BOB SPIWAK

ANAHEIM, Calif. — As the future of tour golfer Casey Martin was being decided in an Oregon courtroom, a panel was discussing the Americans with Disabilities Act (ADA) at the GCSAA conference here.

As the lawyers argued in Eugene, the panel and attendees were watching a video news replay, headlined with, "Golf course cares more about grass than obeying the law."

The news replay was presented by Steve Gervais of Suncor Development Co. in Arizona, who was one of the panelists moderated by GCSAA Government Relations Counsel Cynthia Kelly Smith.

Other speakers included Greg Jones of the Association of Disabled American Golfers, Peggy Greenwell of the Access Board (a branch of the Justice Department), Jack Andre of the National Park Service, and Jerry Coldiron, superintendent at Lassing Pointe GC in Kentucky where a high profile situation involving a disabled golfer had recently been resolved (*GCN* December '97 and January '98).

Smith led the discussion with an explanation of the

done the same thing. He has taught the game of golf to the modern world, whether doing special schools, or as a golf analyst on TV."

Telling Venturi the public has enjoyed the game through his words and actions, McGinnis said: "Although more than a century apart, there is no mistake Old Tom Morris and Ken Venturi share a special kinship as guardians of the game of golf."

While Venturi suffered a hand injury that ended his competitive career and missed out on the big paydays of modern times, he said: "I'm very fortunate... What price would you put on being able to dine with Bobby Jones and Francis Ouimet and having Byron Nelson take you under his wing, and having Ben Hogan say he would like to play with me when we play the Masters?"

He said he would like to see younger players "come up and introduced himself to an older player and thank them for being able to play today for the millions of dollars they make."

Other comments from the 1998

Old Tom Morris Award-winner:

• "I don't think I've ever played a round of golf when I wasn't humbled. I never played the perfect game. Golf is like humility. When you think you have it, you've lost it... It will teach you personality. By playing a round in competition with a person I can tell you a lot about them, about their business, their personality, how they handle life."

• Golfers are winning at

## 1998 GCSAA SHOW WRAP UP

younger ages today because there are no wars; and they can get points easier. "I missed three Ryder Cups because I had to wait five years to get enough points."

• "Today, someone makes \$2 million, and it's all relative. It's hard to make \$2 million when first prize is \$2,000. In 1958 I won four times and finished in the top ten 15 times and earned \$49,500... But today you don't get to sit next to a Gene Sarazen.

So it's all relative."

• "I don't think it will be an Olympic sport. We have our Olympics. I look at the Olympics as amateurs. I don't get a kick out of watching our professional NBA players winning the Olympics. That's no contest."

• "Match play will not survive over here [America] because of television. Television prevents you from having match play. If you and I are in the finals and they are

televising, and after 18 holes you have me eight down who's going to watch us play? That's the one key to match play. I've always loved match play, and that's one thing I missed as a pro."

• "Golf courses are becoming obsolete — like Marion... I would like to see a [distance] limit on the golf ball itself. And on equipment. We used to have a sweet spot the size of a nickel to hit an iron shot. Now it's the size of a lemon."

### PRODUCT WRAP UP

## Cushman shows Envirojet

Cushman's Envirojet

Cushman introduces its Envirojet 160 liquid injection system designed to deliver turfgrass pesticides, liquid organic fertilizers, wetting agents or polymers directly into the subsurface soil structure, at the root zone.

Because products are distributed directly from the system's tank into the soil, it virtually eliminates waste, personnel contact, run off, UV degradation, and surface and airborne contamination.

Mounted on a Cushman Turf-Truckster heavy-duty work vehicle, the Envirojet 160 utilizes high pressure pulses of water to create a small elongated hole on the turf surface. It creates subsurface fracturing, the patented "jetation" sequencing process, of up to six inches in diameter. This pattern allows for nearly 100 percent distribution of chemicals and other products within the root zone and soil structure, therefore providing effective results. For more information, contact 800-228-4444.
