NOTICE OF INTENT AND REQUEST FOR INTEREST

The Idaho Division of Environmental Quality (DEQ), in cooperation with the Environmental Protection Agency, is currently planning and designing for the final remediation and closure of an approximately 200 acre portion of the Bunker Hill Superfund Site known as the Central Impoundment Area (CIA) pursuant to the authorities and requirement of the Comprehensive Environmental Response, Compensation, and Liability Act. The CIA is located adjacent to the city of Kellogg in Shoshone County, Idaho. DEQ has considered future land uses which could be incorporated into the final design of the CIA and has preliminarily determined that the construction and operation of golf facilities is a viable potential use. DEQ intends to plan and design final closure of the CIA to accommodate golf course facilities if sufficient interest is demonstrated by person(s) capable and willing to commit to financing, design, construction and operation of a golf course facility. Accordingly, DEQ requests that any such interested person(s) contact its contractor TerraGraphics at the below address and phone number for further information and instruction. Written statements of qualifications and interest are requested by March 25, 1998 at the below address: TerraGraphics Environmental Engineering, Inc., 108 W. Idaho, Kellogg, ID 83837, phone (208) 786-1206, fax (208) 786-1209
