MOUNTAIN MEN

Dick Phelps, left, and son Rick have earned much of their reputation designing golf courses in the mountains. But they have also left their mark on the lowlands, and continue to do so. See Q&A with Dick Phelps, page 21.

Of ants, flies and other friendly pests

By MARK LESLIE

FAR HILLS, N.J. — Ants that devour the eggs and larvae of cutworms, grubs and other pest insects. Parasitic flies that kill mole crickets. The risks, or lack thereof, associated with golfer exposure to pesticides.

The U.S. Golf Association (USGA) Green Section will reveal the results of investigations into these and many other matters in a soon-to-be-released report on the latest USGA-funded research projects. The research covers a gamut of topics from course construction practices and integrated turfgrass management to turfgrass germplasm enhancement, the environmental impact of golf and the Wildlife Links Program.

But key to the entire program are naturally occurring biological controls, which are becoming more

Sports & Fitness expanding its portfolio

By PETER BLAIS

MANCHESTER, Mo. — It's going to be a busy summer for Sports & Fitness Management, the Missouri-based golf and health club management firm.

Sports & Fitness will open Fred Couples/Gene Bates-designed Stone-Bridge Golf Club in Bossier City, La., later this summer and recently agreed to purchase Garden Valley Golf Resort in Tyler, Texas. The firm is also about to break ground on a Gary Kern-designed course near St. Louis called Aberdeen and is negotiating a three-course purchase with a management firm operating facilities in Louisiana and Texas, according to Vice President

Ocean Trails Golf Course suffers landslide between the 12th and 18th fairways, losing a bulldozer into the chasm.

Oceanside course trying to stay out of the water

By ANDREW OVERBECK

RANCH PALOS VERDES, Calif. — Southern California's answer to Pebble Beach suffered a massive setback June 2 when a 200-by 400-foot section of the 18th hole shifted out 50 feet from the rest of the course, leaving behind a 60-to 90-foot-deep ravine between the 18th and 12th holes.

The section of the course that shifted sat on an ancient landslide, which was bisected by an aging Los Angeles County sewer line. It is widely speculated that a leak in that sewer line touched off the land movement.

The Ocean Trails Golf Course, designed by Pete Dye, was only weeks away from opening and develop-

Tests reveal good & bad of ultradwarfs

By A. OVERBECK

BELTSVILLE, Md. — As ultradwarf Bermudagrass continues to find its way onto golf course greens across the United States, independent research and on-site testing suggest that best management practices for these "super dwarfs" are radically different than for standard Bermudas.

In cooperation with the United States Golf Association and the Golf Course Superintendent's Association of America, the National Turfgrass Evaluation Program (NTEP) is currently in the second year of a five year ultradwarf test at eight courses across the

WEISKOPF BUSY IN MICHIGAN

Cedar River Golf Club at Shanty Creek joins The Legend, Schuss Mountain Golf Club and Summit Golf Club at the four-season golf and ski resort. See story, page 26.

Pebble Beach megasale being worked out

MONTEREY, Calif. — Pebble Beach has changed hands for the fourth time this decade. A group of investors that includes Arnold Palmer, former baseball commissioner Peter Ueberroth, actor Clint Eastwood, former United Airlines CEO Richard Ferris and General Electric Pensions agreed June 17 to purchase

the Pebble Beach golf resort for \$820 million.

Pebble Beach was bought for \$841 million in 1990 by Japanese businessman Minoru Isutani, who turned around two years later and sold it to Taiheiyo Club, Inc., a Tokyo-based resort company, for
