Standard's TurfStone offer's signage options

Standard Golf Company's new TurfStone Tee Signs give golf courses the high-quality look of granite while costing significantly less than actual granite signs. Molded from composite material that resists cracking, fading, staining and golf course chemicals, these Tee Signs are designed to last, with proper care, for many years.

TurfStone Tee Signs offer various placement options from tee boxes to cart paths. In addition, TurfStone Tee Signs have solid steel backing that adds additional strength and mounting ease and are available in console configurations with ball washer, litter caddie and optional donor sign. For more information, contact 319-266-2638.

Toro ready with 720 series sprinklers

The Toro Company announced the introduction of its 720 Series golf sprinklers featuring Toro's patented MultiMatrx nozzle that delivers precise water applications to difficult-to-irrigate areas. Toro first introduced its MultiMatrx nozzle to the commercial market in 1996. It has a matrix design that sprays water simultaneously from up to 7 uniquely engineered ports depending on the flow selected. The new 720 series sprinklers will be available beginning in the summer of 1999. For more information, contact 909-688-9221.

CIRCLE #207

Big Worm Problem.

There's Nothing Better on Worms Than SCIMITAR®.

For big worm problems, SCIMITAR is an exceptional addition to your turf pest management program because it:

- Controls sod webworms, armyworms and cutworms
- Delivers fast knockdown and extended residual
- Provides outstanding performance at low use rates
- Is available in two convenient formulations—wettable powder & capsule suspension
- Is easy on the environment
- Has application flexibility

For big worm problems in turf, nothing is better than SCIMITAR.

For more information, contact your authorized Zeneca Distributor, or call Zeneca Professional Products Toll Free at 1-888-617-7690.
