

## Penn A-4 at Tiffany Greens

Mark Pierce, Superintendent  
Tiffany Greens GC  
Kansas City, MO  
John Q. Hammons Development

**“If a new course hopes to host a major tournament, it’ll have to plant one of the great new bents. Penn A-4 is the right choice for Tiffany Greens and our changeable Kansas City climate.”**

Tiffany Greens was destined to be first class all the way—from its perfect location and Robert Trent Jones II design to the choice of Penn A-4 creeping bentgrass for greens.

Now that word is out we have the truest, most consistent greens in the area, golfers flock to this semi-private course. We mowed the greens 10 days after seeding, and took the height down to 0.125" in a matter of weeks. Penn A-4 established quickly, and maintains deep roots year-round. Since we opened the course in April 1999, green speed is a consistent 9.5 with no stress during high heat index days.

Penn A-4 doesn't require any extraordinary maintenance procedures. Anyone who wants smooth, fast greens has to do the same amount of maintenance. I verticut and top-dress twice a month and spoon-feed fertilizer.

My uncle Junior was a superintendent, so I grew up on a golf course. I worked for him 8 years, and have been a superintendent myself for another 19 years. He taught me that greens were like the motor of a car—the most important part—and when the motor was good the car was good. The motor's great here at Tiffany Greens. To host a PGA Senior Tour event in our first year is an honor, a privilege, and a compliment.

*Mark A. Pierce*

# OF COURSE IT LOOKS FAMILIAR. YOU DESIGNED IT.

Customer input is essential to the design of every Toro product.

And considering that half the riding greens mowers in use today are Greensmaster® mowers, we've had plenty of feedback.

Literally thousands of professionals have helped us refine the Greensmaster over a span of more than 27 years.

The result is a line of greens mowers with all the advantages: precise cutting, low compaction, easy servicing, a comfortable ride and more.

We build the best by listening to the best,

year after year. Contact your Toro distributor, call 800-803-8676,

or see the Greensmaster at

[www.toro.com/golf](http://www.toro.com/golf).

# Or are there?

**Apply Barricade®  
this Fall for the only  
Crabgrass control  
that lasts through  
next season. Guaranteed.**

Only Barricade offers you Crabgrass control like this. Apply once this fall, when things are slower, and that's all you have to do to stop Crabgrass next season. That's because only Barricade offers you both the long residual and the performance that can last through the winter and deliver in the spring. Its low solubility and volatility means it stays put in the weed germination zone and won't break down over the winter months. And it is the only one guaranteed to last through the next season. There's nothing else that offers you this – nothing else can.

So take care of one of spring's more frustrating chores this fall, and you'll have what everyone on the course wants: guaranteed success.

To find out about the Barricade guarantee, call 1-800-395-TURF for the name of your Novartis Sales Representative. Or you can visit our website at [www.cp.us.novartis.com](http://www.cp.us.novartis.com)

## HOW'S THAT FOR APPLICATION GUIDELINES?

On greens. On tees. On fairways, roughs, flower beds, transplants — even in your divot mix. Milorganite delivers outstanding results for a uniform playing surface. No other fertilizer is easier on plants or simpler to use. Milorganite's slow release, organic nutrients won't burn or cause a flush of growth. Plus, it's high in micronutrients such as iron to promote dense, vigorous turf. And Milorganite resists leaching, for a sound environmental profile. So call your distributor today, or call Milorganite's turf professionals direct at 1-800-304-6204. It's easy.
