Sweaty palms?  
Furrowed brow?  
Bloodshot eyes?

Don't let gremlins in your pump station keep you up at night.  
Call FLOWTRONEX PSI.

No one has created more industry innovations. No one gives you better, more advanced service capabilities. No one maintains over \$2 million in parts inventory to ensure fast and accurate delivery. And no one engineers a better pump station to fit your unique needs.

It all adds up to the best engineered, most worry-free pump station in the world. One that gives you superior strength. Superior performance. And a superior night's sleep.

So before you make any decisions, talk to the people at FLOWTRONEX PSI.

Yes, we may cost a little more than the other guys. But, rest assured, you'll never suffer through one of their pump station nightmares.

# The best overcoat you'll buy this winter

Protect your valuable plants with the best winter overcoat you can buy – Transfilm Antitranspirant.

- ❄ Overcoat trees and ornamentals to protect from winter dessication.
- ❄ Overcoat fall transplanted trees and shrubs for sure success.
- ❄ Overcoat fungicide applications on greens, tees and other highly managed turf sites.

*"For some 15 years we have used Transfilm for winter protection of new evergreen transplants and specimen stock in vulnerable sites. Road salt and salt vapors coming from ice melt plus exposure to drying winter winds can create dissatisfied customers and problems for us. Transfilm reduces these risks. We view it as winter insurance."*

Eric Moore, President  
Moore Landscape  
Glennview, IL

*"During the construction of this course in 1989-90, our owner bought a nearby tree farm, a spade truck and enough Transfilm for 2,700 Scotch pines 6 to 15 feet tall. Also, over 700 deciduous trees were planted. We were told to expect losses of around 300 trees, but thanks in part to Transfilm, our replacements totaled less than a hundred."*

Frank Moran, GCS  
Beaver Run Golf Course  
Grimes, IA

# Lower your handicap.

**Crabgrass**

For every weed your preemergent fails to prevent, you take the penalty. The time and money to spot treat—plus strokes against your reputation. That's why you need the unbeatable performance of PRE-M®.

PRE-M herbicide consistently gives you more reliable, overall preemergent control of crabgrass, goosegrass, oxalis, spurge and many other broadleaf and grassy weeds than less proven, more expensive products.

University trials prove it again and again.

Superior performance made PRE-M the leading\* preemergent herbicide. Superior value widens the gap. In other words, PRE-M is everything you'd expect from LESCO®, the leading supplier in the professional turf care industry.

Ask your LESCO professional or call 1-800-321-5325 to learn how you can earn generous rebates for your PRE-M purchases. Get behind the leading edge.

## Introducing The Super Sport-Golf Series Pumping System by Watertronics

*Finally* – An easy to operate, compact, self-enclosed duplex pump station that can handle your toughest irrigation demands. With models capable of up to 800 GPM, the Super Sport-Golf Pumping System is ideal for smaller golf courses where a larger pump station is not needed, or as a booster station for golf course expansions. Each unit is custom built and factory tested at full operating flow and pressure before delivery. You can be assured of nothing less than the finest quality components and craftsmanship. Call today for more details on the Super Sport-Golf Series Pumping System.

- Watervision™ touchscreen operator interface
- U.L. listed, NEMA 4 control panel with the same components as our larger stations
- Main pump pressure regulated by Watertronic's patented Electronic Butterfly Valve
- Jockey pump performance controlled by Variable Frequency Drive
- 66" L x 42" W x 42" H

- No pump house needed
- Minimal concrete slab required
- Suction lift, flooded suction and booster models
- Options include:
  - stainless steel and insulated enclosures
  - thermostatically controlled heater
  - Pumplink™ irrigation controls interface

**ing, Inc.**, 1100 E. Elmore St., Crawfordsville, IN, 47933; 765-362-6404, Fax 765-362-5459, hudsonstar.com, Email: circler@urhere.net.

*Sales Contact:* Joseph Rogers

*Products/Services Offered:* rolling stock: greens mowers; rolling stock accessories: replacement parts.

Hudson Sales and Engineering is a leading provider of push, reel mowers designed to provide golf course superintendents and home green owners with an economical method of obtaining a professional greens cut. The company's products are used for specialty applications such

as over-seeded, diseased and hard-to-access areas by golf superintendents and as a virtually maintenance-free solution for the home greens owner.

**Hummel and Co. Inc.**, P.O. Box 606, Trumansburg, NY, 14886; 607-387-5694, Fax 607-387-9499, www.turfdactor.com, Email: soildr1@epix.net

*Sales Contact:* Norman Hummel

*Products/Services Offered:* construction: soil and sand analysis, services and equipment.

Hummel and Co. Inc. provides soil physical testing and consulting ser-

vices to the golf course and sports field industries. We provide USGA testing for new golf course construction as well as diagnostic testing on existing greens. Our lab is accredited by the American Association for Laboratory Accreditation.

**Hunter Golf**, 1940 Diamond St., San Marcos, CA, 92069; 760-591-7336, 800-248-6461, Fax 760-591-7130, www.huntergolf.com, Email:

marketing@huntergolf.com.

*Sales Contact:* N. Hardwick

*Products/Services Offered:* irrigation and drainage: irrigation equipment and supplies.

Hunter Golf manufactures a complete line of top quality golf course irrigation system components, including water-efficient Hunter rotors with full circle and adjustable arcs, heavy-duty valves and Genesis central/satellite control systems. New Vista reality-based software program features 3-D animated graphics that displays the course from a "golf cart perspective" and rebalances irrigation flow daily.

**Hydro Agri North America, Inc.**, 100 North Tampa St., Suite 3200, Tampa, FL, 33602; 800-234-9376, Fax 813-875-5735, hms-hallmark-adagency.

*Sales Contact:* Michael Winner  
*Products/Services Offered:* chemicals and fertilizers: fertilizers.

Hydro Agri's Viking Ship Turf Royale 21-7-14(S) and Classic Royale 15-15-15 with sulphur professional turf and landscape fertilizers are formulated to meet the demands of turf establishment, turf maintenance and ornamental feeding. Both grades feature nitrate nitrogen for fast response; ammonium nitrogen for continuous feeding; high water solubility phosphate; soluble potash for maintenance of vigorous turf - in homogeneous prills which eliminate dust, nutrient segregation and "hot spots."

**Hydrograss Technologies**, 157 Southbridge Rd., N. Oxford, MA, 01520; 508-987-2221, 800-853-5393, Fax 508-987-8785, www.hydrograsstech.com, Email: rarello@banet.net.

*Sales Contact:* Bob Arello, Jr.

*Products/Services Offered:* construction: erosion control (gabions, geotextiles, mats), hydroseeding products and services.

Hydrograss Technologies is a leading provider of preventive solutions for erosion, sediment and dust control. Its bonded fiber matrix product, EcoAegis, is a long-stranded bonded hemlock fiber mulch used for vegetative stabilization. EcoAegis is applied in a one-step hydromulching process, and -once dry- it forms a protective cover that is porous, allows aeration and secures soil and seed while enhancing the establishment of vegetation. It has performed successfully over a wide range of conditions from near-freezing temperatures in Canada to the heat of an Australian summer. For non-living stabilization, HydroGrass supplies Soil Sement, an environmentally safe polymer emulsion that produces highly effective control of dust and erosion. Soil Sement provides superior bonding, cohesion, versatility, cost-effectiveness, and environmental compliance.

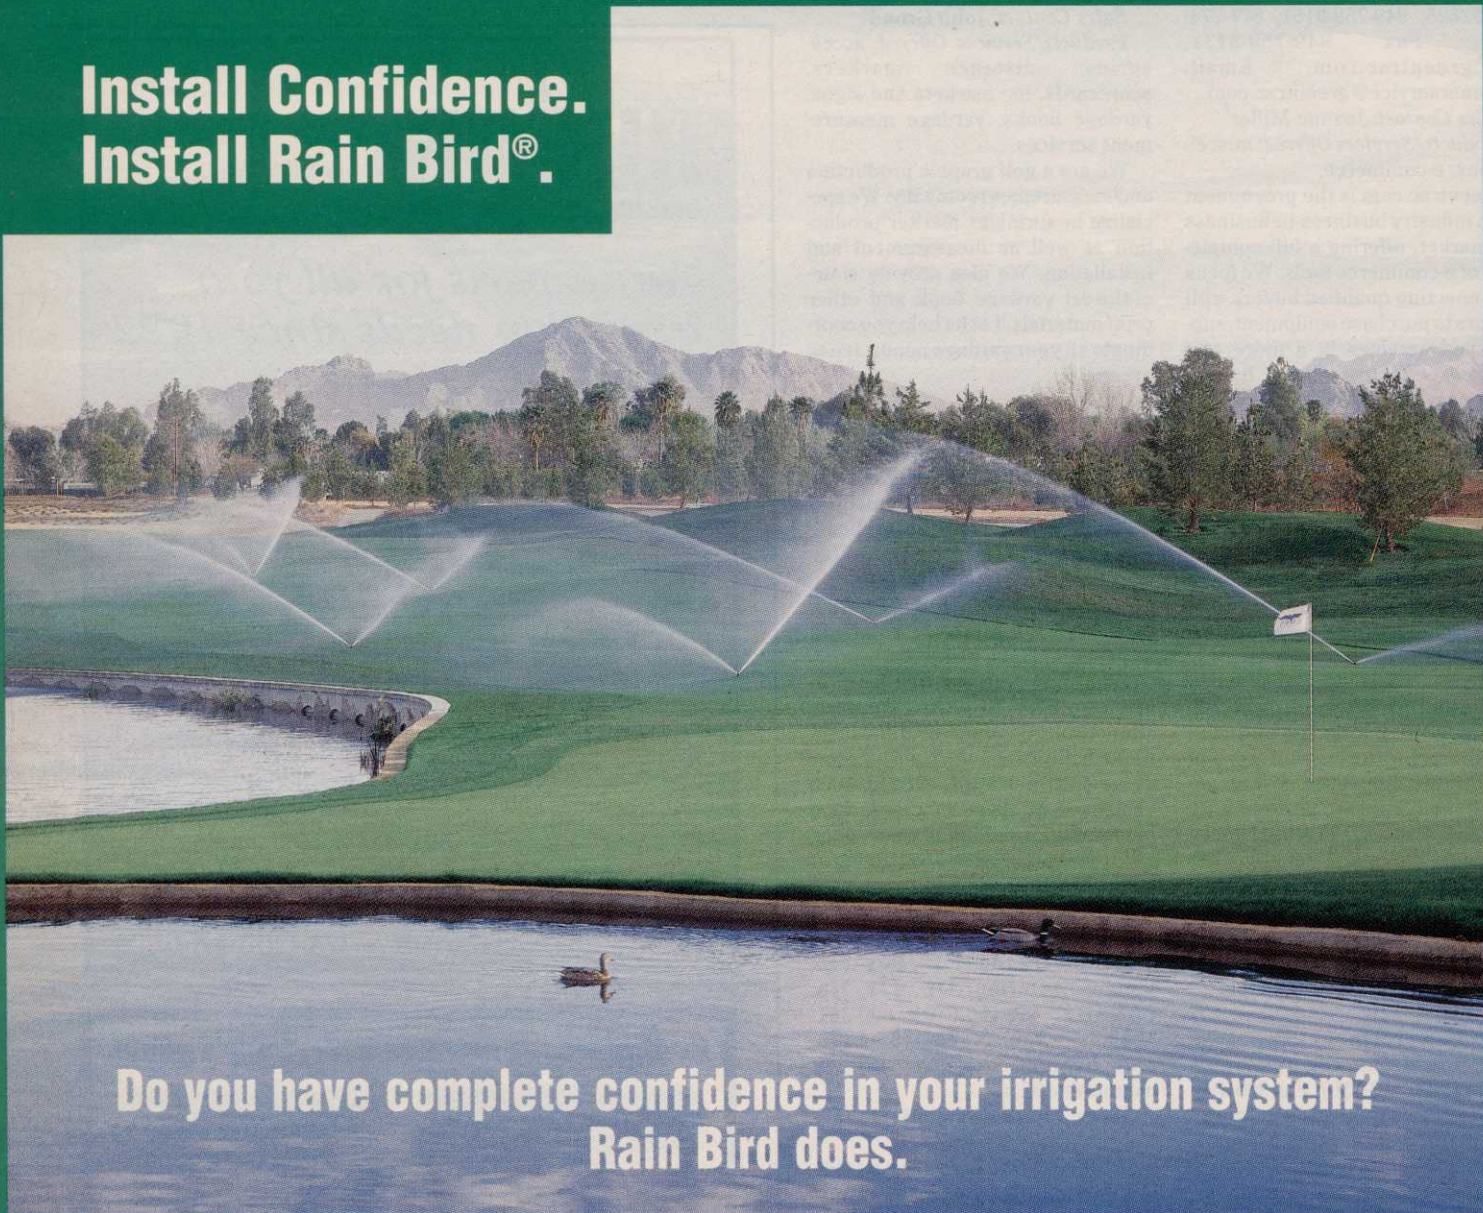

**Hydrozone** (dist. by AAdvanced Water Mgt.), 1111 S. Shiloh Rd., Garland, TX, 75042; 972-494-3494, 877-994-3494, Fax 972-487-8484.

*Sales Contact:* Sandra Schmieler

*Products/Services Offered:* chemicals and fertilizers: soil conditioners and amendments; construction: erosion control (gabions, geotextiles, mats).

Hydrozone, a permanent water-absorbing soil amendment polymer, increases the soil's ability to retain water, reducing watering frequency and improving plant health, particularly in times of drought and water restriction. Hydrozone retains water and nutrients, making them avail-

## JOHN DEERE

**Products/Services Offered:** rolling stock: backhoes, earthmoving equipment, gang mowers, greens mowers, specialty mowers, tractors, utility vehicles, walk-behind mowers; rolling stock accessories: mower attachments; sand:

bunker maintenance equipment (power); turf: aerification equipment and services.

John Deere Worldwide Commercial and Consumer Equipment Division, involved in the golf and turf industry since 1987, manufactures and distributes a full line of golf and turf equipment - ranging from fairway and greens mowers to bunker rakes and aeration equipment. Demonstrating its commitment to the golf and turf industry, in 1997 the first product rolled off the assembly line in John Deere's \$35 million facility in North Caro-

## If the label's on it, the best is in it.

Now it's easy to know whether you have the best turfgrass mixtures and blends available. Just look for the *Jacklin Quality* label.

The *Jacklin Quality* label on the bag says you're planting turfgrass varieties with:

- the industry's leading private research and breeding program behind them
- a wealth of innovation that has led the world in turfgrass development for nearly seven decades
- proven performance that combines unsurpassed color, turf quality and disease resistance

You never have to wonder if the best is in the bag when the Jacklin name is on it.

So the next time you order seed, ask for *Jacklin Quality* inside. You'll forever be labeled as somebody who knows how to grow great turfgrass.

Phone: 1-800-688-SEED • Fax: 208-773-4846 • www.jacklin.com • ©2000 Jacklin Seed A division of Simplot all rights reserved

# YOU CAN'T COVER UP POOR PRE-STRESS CONDITIONING

## Prevent moisture stress before it starts with Cascade™ Plus

Are you painting yourself into a corner with inadequate pre-stress conditioning? Then use Cascade Plus and keep moisture stress from undoing all of your hard work. Cascade Plus moves water deeper and faster into the soil profile for a longer period of time, resulting in larger, healthier root systems that are better able to survive seasonal stress conditions. In fact, independent university research showed that untreated hydrophobic soils required more than twice as much irrigation to reach comparable volumetric water content levels as Cascade Plus treated soil. And a single application regime of Cascade Plus has been proven to reduce the effects of Localized Dry Spot for 4 to 6 months.

Use Cascade Plus and get longer lasting improvements in turf color, quality and stress tolerance. And that means you'll have nothing to cover up.

Call 800-323-6280 for more information, or for a Cascade Plus distributor near you.

GOLF COURSE NEWS

## IT'S ONLY HUMAN NATURE TO WANT THE BEST OF BOTH WORLDS.

Apply MACH 2® Turf Insecticide once before egg-hatch to prevent grubs all season long. Or apply shortly after egg-hatch to cure grubs up through the second instar. Make the choice that suits your schedule and resource availability. MACH 2 also controls key lepidoptera, such as cutworms, armyworms and sod webworms, making it one of the most versatile turf insecticides on the market.

And don't worry about watering MACH 2 in immediately. Unlike other products, MACH 2 can wait 2 weeks or more for you—or mother nature—to water it in without degradation of the active ingredient.

Prevent or cure with season-long control. Unmatched irrigation flexibility. Effective grub and lep control with an award-winning environmental profile. Only MACH 2 truly gives you the best of all possible worlds.

For more information, call 1-888-764-6432 ext. R3107, or visit our website at [www.mach-2.com](http://www.mach-2.com).

CR-10

# PROJECT TIME

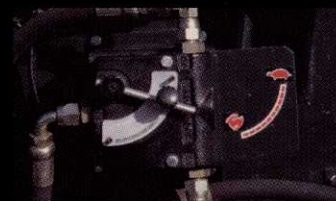

Cross conveyor with swivel action quickly fills bunkers and back fills trenches.

Broadcast top dress from 15' to 40'.

Quickly load top dressers or move material.

Attachment flow control offers greater flexibility over spinner and cross conveyor speeds.

Patent-pending three-position switch makes it easy to handle every CR-10 function.

Whether it's fairway top dressing, bunker renovation or material relocation, the CR-10 makes the most of your projects and your time. Its handheld three position switch, flow control for the cross conveyor and self-cleaning hopper make it the

most effective material handler available. Combine these features with the tiltable spinner attachment for a fairway top dresser with unparalleled control over width, depth and angle. For fairway top dressing, construction or renovation projects, make sure you look at the CR-10, the next generation in material handling and top dressing. Call for a demonstration or FREE video.

ITS MOMMA WAS  
**A FRYIN' PAN**  
ITS DADDY WAS  
**A GREASED PIG.**

There Ain't  
Nothin' Slicker

With parents like that,  
the ST2000™ Cup is  
SURE to be non-stick.  
The pin slides from the  
cup like a greased pig  
squirts through a tyke's arms at  
the state fair. Never before has this kind  
of non-stick technology been applied to  
golf cups. And

Butter... non-stick,  
meets all USDA  
regulations. The  
ST2000... non-stick,  
meets all USGA  
regulations. Which  
would you choose?

never before has  
there been quite  
this big a mess in the  
Standard Golf labs.  
But that's ok, because  
never again must you fear your golfers  
will pull the cup right out of the ground  
with the flag stick. The ST2000's unique  
network of points

SoooooEEEE! A day  
with the Greased Pig  
at the State Fair  
changed golf cup  
technology forever.

firmly grip the flag  
stick, but let dirt  
and debris pass  
through so there's  
no binding. On a  
typical cup, dirt and  
debris sticks between the flag

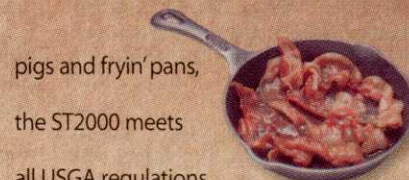

stick ferrule and cup, which causes a  
sticky situation. It's bad for your green,  
and also for your peace of mind.

**Stick With The Cup  
That's Non-Stick**

But with the ST2000, when you pull the  
flag stick — voila! — no cup! Fluted or  
grooved ferrules won't fit, but you don't  
need them anyway! Through the miracle  
of science, we incorporated the non-stick  
qualities of its parents into the ST2000,

which is available in both  
plastic or aluminum.

Of course, unlike

pigs and fryin' pans,  
the ST2000 meets  
all USGA regulations,  
and even makes a  
distinctive sound  
when the putt  
drops. (Who knew

When most people  
combine a greased  
pig and a frying  
pan, they get soggy  
bacon. We got the  
ultimate in non-  
stick golf cup  
technology (and  
a very messy lab).

science could be so... cool?) If you're  
tired of sticky-cup, ask for Standard Golf.  
Just call 1-319-266-2638 for more infor-  
mation, or ask your Distributor about  
the ST2000 non-stick cup. You'll  
make its parents so proud.

Ouch. Nothing spoils a round  
of golf faster than a bad case  
of the sticky-cups.

**Sales Contact:** Angela Peck  
**Products/Services Offered:** construction: golf course builders; design: architectural and design.

The Roger Rulewich group is a reunion of former key members of Robert Trent Jones Sr.'s design and construction companies. Together Gary Darling, Pat McMillan, Niall Fraser, Jeff Bradley, Marshall Victor, Dan Veleke and I designed and built many of the courses that bear the Robert Trent Jones signature. Keeping that team together is a promise we had always made to one another...a promise now fulfilled as The Roger Rulewich Group. The seven of us have been involved in golf course design and construction for a combined 140 years. We call ourselves The Group because we know that more important than anything else, it is our teamwork that has allowed us to produce all those extraordinary golf courses.

**The Toro Company**, 8111 Lyndale Ave. S., Bloomington, MN, 55420; 958-888-8801, 800-803-8676, Fax 952-887-8693, [www.toro.com](http://www.toro.com).

**Sales Contact:** Jody Hinkle  
**Products/Services Offered:** irrigation and drainage: irrigation equipment and supplies; maintenance miscellaneous: turf tissue analysis; rolling stock: backhoes, earthmoving equipment, fertilization equipment, gang mowers, greens mowers, loaders, snow removal equipment, specialty mowers, spreaders, seeders and topdressers, sweepers, trenchers, turf rollers, utility vehicles, verti-cutters, walk-behind mowers; rolling stock accessories: mowers attachments, replacement parts, utility vehicle accessories; sand: bunker maintenance equipment (Power), rakes (Power); trees and shrubs: pruners, trimmers/edgers; turf: aerification equipment and services, blowers, dethatchers, sprayers.

THOR GUARD is a lightning prediction system. When interfaced with our Voice of THOR interactive, audible and visual warning systems, the entire system becomes a totally automated lightning warning system, capable of providing timely notice prior to the first strike. Single park or multiple options are available.

## TifEagle

For Greens

**TifEagle Growers Assoc.**, 2420 South Milledge Ave., Athens, GA, 30605; 706-542-5640, 888-584-6598, Fax 706-227-

7159, [www.tifeagle.com](http://www.tifeagle.com), Email: [eelsneu@guins.campuscwix.net](mailto:eelsneu@guins.campuscwix.net).

Sales Contact: Sam Williams

Products/Services Offered: turf: sod.

TifEagle is setting a new standard for putting greens, and we've got the research to back it up. Not only can it tolerate the physical stress produced by low mowing heights and frequent verti-cuttings necessary to control thatch build-up, it also recovers quickly from mechanical injury, has better color and is extremely cold hardy, drought tolerant and disease resistant. And as a patented variety, it can only be sold as certified sod or sprigs and only by a licensed member of the TifEagle Growers Association.

## TIFSPORT CERTIFIED BERMUDAGRASS

TifSport Growers Association, 2420 South Milledge Ave., Athens, GA, 30605; 706-542-5640, 888-584-6598, Fax 706-227-7159, [www.tifsport.com](http://www.tifsport.com), Email: [eelsnet@guins.campuscwix.net](mailto:eelsnet@guins.campuscwix.net).

Sales Contact: Sam Williams

Products/Services Offered: turf: sod.

TifSport certified Bermudagrass, TifSport, has a number of characteristics that make it ideal for golf course fairways, tee boxes, greens collars, athletic fields, commercial landscaping and residential lawns. It is cold tolerant, has an impressive leaf texture, dark green color, upright leaf blade orientation, sod strength, excellent traffic tolerance, good lateral growth, turf density and low nutrition requirements. It's also pest resistant and can tolerate closer mowing heights than Tifway and some other Bermudas. TifSport is a patented variety and can only be sold as certified sod or sprigs, and only by a licensed TifSport grower.

Titan International, Inc., 2701 Spruce Street, Quincy, IL, 62301; 217-228-6011, Fax 217-228-3166, [www.titan-intl.com](http://www.titan-intl.com), Email: [titan@titan-intl.com](mailto:titan@titan-intl.com).

Sales Contact: Lisa Ross

Products/Services Offered: rolling stock accessories: tires, wheels and accessories.

With over 65 locations, and growing, we are pleased to serve you.

**Varicore Technologies, Inc.**, Box 131, Prinsburg, MN, 56281; 320-978-8007, 800-978-8007, Fax 320-978-6607, [www.varicore.com](http://www.varicore.com), Email: [service@varicore.com](mailto:service@varicore.com).

**Sales Contact:** Arnold Plowman

**Products/Services Offered:** irrigation and drainage: drainage systems and supplies.

A Multi-Flow drainage system by Varicore Technologies is a high performance drainage system that simplifies all types of golf course drainage. Used in golf greens, fairways and bunkers, Multi-Flow offers longevity and performance with a low cost and a minimally disruptive installation.

**VC Marketing, Inc.**, P.O. Box 608, Roseland, NJ, 07068; 973-992-8514, Fax 973-992-4219, [www.vandermolencorp.com](http://www.vandermolencorp.com), Email: [vancorp@superlink.net](mailto:vancorp@superlink.net).

**Sales Contact:** Irene Shea

**Products/Services Offered:** trees and shrubs: brush clippers, shredders.

Wood-Pro Products Division of VC Marketing specializes in commercial debris reduction equipment - specifically, brush chippers, shredders and AVPs (All Vegetation Processors). The company received patents on its conceptually unique one hopper, AVP. This machine is capable of handling both soft vegetation and tree limbs equally well through one hopper. Through the Vandermolen Corporation, VC Marketing and its management are the beneficiaries of many years of experience in the vegetation debris field, dating back to 1972. The company's current product range of self-powered machines is from a 16 to 22 horsepower motor, along with three PTO (Power Take-off) models for farm and industrial tractors. WOOD-PRO machines are exported worldwide.

**Versa-Lok Retaining Wall Systems**, 6348 Hwy 36, Suite 1, Oakdale, MN, 55128; 651-770-3166, 800-770-4525, Fax 651-770-4089, [www.versa-lok.com](http://www.versa-lok.com), Email: [versalok@versa-lok.com](mailto:versalok@versa-lok.com).
