

What they're saying about **The New Penn Pals**

"Penn A-4 enhances the game of golf. It is my personal feeling that Penn A-4 is one of a number of significant contributions to the game of golf by Dr. Joe Duich." "Awesome."

Cutler Robinson, CGCS, Supt.
Bayville GC, Virginia Beach, VA

"Simply stated, everyone who has played Bayville comments the greens are 'the best they have ever puttied.' This grass allows our members to experience 'tour' quality putting and green speed without jeopardizing fairness and enjoyment. Properly managed, Penn A-4 is, in my opinion, the best grass to date and has set a new standard for excellence."

Dean Hurst, PGA Professional
Bayville GC, Virginia Beach, VA

"Even though summer temperatures can reach 115-120°, we've cut our Penn A-4 at 7/64" for more than a year with no problems."

Doug Anderson, CGCS, Supt.
The Vintage Club, Palm Desert, CA

"For me, the lower the cutting height, the better the management (Penn G-6)."

Pete Gerdon, Supt.
Grandfather Golf and CC, Linville, NC

"Because of the short season at our 7,500 ft. elevation, we sodded our rebuilt greens with 42" wide rolls of Penn A-4 from West Coast Turf in California.

There, we found a source for rootzone sand that closely matched our own, and the long, wide rolls minimized seams. We re-opened 5 weeks after sodding, and dense, fibrous roots reached 10-12" in a matter of months."

Kevin Ross, CGCS, Supt.
CC of the Rockies, Edwards, CO

"Quality of the Penn A-4 putting surfaces at The Estancia Club is beyond comparison. Ball roll and the pace of the greens are excellent. I would not hesitate using Penn A-4 again."

Carl Rygg, CGCS, Supt.
The Estancia Club, Scottsdale, AZ

"Penn A-4 Greens do not cost more. While they do need more topdressing and aerification, they require significantly less water, fertilizer, and pesticides."

Ted Hunker, Supt.
Tartan Fields GC, Dublin, OH

"Penn A-4 greens do not mean more work, more trouble, and do not cost more money to maintain. In fact, just the opposite may be true. We have found that they require fewer cultural practices such as vertical mowing and brushing.

In two years of managing Penn A-4, we have not observed any brown patch or dollar spot, and greens require limited amounts of fertilizer."

Kurt Thuemmel, CGCS, Supt.
Walnut Hills CC, East Lansing, MI

"I overseed our 18 old greens with 1/4 lb. per 1,000 sq. ft. of Penn A-4 each time we aerify. Now, with single cut and roll, our green speeds are consistently fast at 12 to 12-1/2'. Where ball marks tend to tear older bents, they just make dents in Penn A-4."

Pat Franklin, Supt.
Plum Creek CC, Fishers, IN

"We resodded high stress areas in our PennLinks fairways with Seaside II, and are very pleased with its performance. I selected Seaside II with improved dollar spot disease resistance and salt tolerance to address two major turf challenges; the coastal influence and potential sodium buildup from irrigation.

We find Seaside II a strong ally to our PennLinks fairways, and in the future, will slit seed with Seaside II where needed to enhance turf quality."

David Major, CGCS, Supt.
Del Mar CC, Rancho Santa Fe, CA

"We have 36 putting greens and 4 practice greens that have been converted from Toronto C-15 to Penn A-4 Creeping bentgrass.

When the greens were placed in play the spring after conversion, comments from our golfing membership were very positive even though turf maturity had not been reached. Putting trueness and turf appearance were among the positive remarks most often mentioned. Now that the putting surfaces have additional development, comments are the greens are superior to anything they've played."

Bill Byers, CGCS, Supt.
Des Moines G & CC, West Des Moines, IA

"Comments from golfers have been extremely positive (Penn G-2)."

Jeff Hill, CGCS, Supt.
Pinehurst Resort and CC, No. 8, Pinehurst, NC

NITROFORM®

Proven Performance for Soil and Turf

Nitroform® does much more than make your turf green. It delivers value throughout the growing season and beyond. Nitroform® is a steady, long-feeding and predictable nitrogen source. Released by soil bacteria, it nurtures *the life of the soil*, as the nitrogen becomes available when it's needed most. Because the carbon:nitrogen-linked polymers range from sparingly soluble to water insoluble, Nitroform® is highly resistant to leaching. The enhanced microbial activity keeps thatch in check while influencing significant root development for stronger turf. Nitroform's® low salt index of (10) takes the worry out of burning and streaking.

Do not simply fertilize your turf, enrich the life of the soil...nourish both with high value premium nitrogen Nitroform®. For more information on Nitroform®, contact us at **1-888-370-1874**.

"NITROFORM® has become the foundation of our fertilizer/turf management program. NITROFORM® gives us perfect turf color, even growth, stronger roots, minimal thatch, and there is no loss during those wet periods of the year. NITROFORM® is always there when we need it the most."

THE NEW AUTOMATIC TRANSMISSION: KEEPING UPHILL CLIMBS FROM BECOMING UPHILL GRINDS.

CUSHMAN
BUILT TO LAST **TEXTRON**

OVER TOUGH HILLS. ACROSS WICKED TERRAIN. YET, LIGHT ON TURF. AND, STILL, WHAT'S MOST IMPRESSIVE ABOUT THE NEW TURF-TRUCKSTER® IS ITS AUTOMATIC TRANSMISSION.

With no gears to shift, no clutch to adjust (or replace), and no downtime for lengthy operator training, today's Truckster is more versatile than ever. Its 32 hp, fuel-injected engine packs the power you need to boost productivity. Plus, you gain the convenience of a mid-mounted engine, a walk-through platform and a full 60-inch box. So if you've never experienced a Truckster (if that's possible), we urge you to test-drive this one. For a dealer near you, call 1-888-922-TURF.
