

Penn A-4 at Tiffany Greens

Mark Pierce, Superintendent
Tiffany Greens GC
Kansas City, MO
John Q. Hammons Development

“If a new course hopes to host a major tournament, it’ll have to plant one of the great new bents. Penn A-4 is the right choice for Tiffany Greens and our changeable Kansas City climate.”

Tiffany Greens was destined to be first class all the way—from its perfect location and Robert Trent Jones II design to the choice of Penn A-4 creeping bentgrass for greens.

Now that word is out we have the truest, most consistent greens in the area, golfers flock to this semi-private course. We mowed the greens 10 days after seeding, and took the height down to 0.125" in a matter of weeks. Penn A-4 established quickly, and maintains deep roots year-round. Since we opened the course in April 1999, green speed is a consistent 9.5 with no stress during high heat index days.

Penn A-4 doesn't require any extraordinary maintenance procedures. Anyone who wants smooth, fast greens has to do the same amount of maintenance. I verticut and top-dress twice a month and spoon-feed fertilizer.

My uncle Junior was a superintendent, so I grew up on a golf course. I worked for him 8 years, and have been a superintendent myself for another 19 years. He taught me that greens were like the motor of a car—the most important part—and when the motor was good the car was good. The motor's great here at Tiffany Greens. To host a PGA Senior Tour event in our first year is an honor, a privilege, and a compliment.

State-of-the-Art.

HERITAGE®. There's Never Been Another Fungicide Quite Like It—And Never Will Be.

HERITAGE fungicide masters the art of disease control.

- **Only Systemic Strobilurin**
- **Controls a Wide Spectrum of Turfgrass Diseases**
- **Improves Turf Quality**
- **Reduced Risk Fungicide**
Displays a low-risk toxicological profile.
- **Extended Spray Intervals**
Applied at low use rates with longer spray intervals.

Enhances the thickness and color of turf without stunting or plant growth regulator effect.

Turf Quality*— Measured at Turf Research Facilities in Three States.

* Turf quality ratings are on a 0–10 scale where 10 is excellent. Values less than 6 represent plots with unacceptable turf.

State-of-the-art HERITAGE fungicide.
Make it a regular part of your management program for a turf masterpiece.

Your players dream of leaving their mark on a hole, but we've made the hole impossible to mark.

Is this brilliant, or just plain mean?

We choose brilliant. As in our new brilliant white Ever-White™ cup. The outside is aluminum, the inside wall holds a plastic sleeve – which means no more painting for you, because there's no paint to chip. The sleeve stays tight in the cup during play (but is easy to replace when needed) and the cup itself makes the classic aluminum sound when the ball hits the bottom of it. And as far as your players are concerned? Well, they may never leave their mark on your course, but we're quite sure you'll be seeing their stamp of approval.

CHANGING THE COURSE OF GOLF.

Look on back for another one of our new products.

One of our proudest traditions is breaking with tradition. Here's another one of our latest innovations.

EVER-WHITE™ CUP

Never needs painting, because there's no paint to chip
Plastic, replaceable bright white cup sleeve for use with specially designed aluminum cup
Cup will stay bright white
Sleeve is easy to install and remove, but will stay tight in cup during play
Patent pending

ROPE STAKES (RECYCLED PLASTIC)

Natural companion to hazard and OB markers – and made of same material
Maintenance-free, never need painting
Available in Hunter Green and White
Sizes - 12", 18" and 24" (measurements do not include spike)
Easy to use slot for stringing rope through - open slot allows for stakes to be added or removed without taking all stakes off rope
Stout 5/16" thick stainless steel spike

WHAT
KIND OF
RIDE
ARE YOU GETTING
FROM YOUR
UTILITY VEHICLE?

The human body can take a substantial amount of abuse. And on most utility vehicles, it does. But the Workman® utility vehicle is designed to eliminate stress and fatigue that can affect employee productivity. Our high-travel suspension features an anti-sway bar, dual coil springs, high-performance shocks, and a DeDion axle. No wonder Workman operators say they feel more energized at the end of the day. Plus, fewer bumps, jerks and rattles are among the many reasons why Workman vehicles are so durable. Call 800-803-8676, see your Toro distributor for a test ride, or visit us at www.toro.com.

While golf is perhaps the most unpredictable game ever invented, Jacobsen's legendary cutting reels, blades and attachments are, without

question, the game's most consistent. Year after year, innovation after innovation, we set the stage for golf's greatest moments.

**AT 4:30 AM,
WHEN THE WIND'S BLOWING JUST RIGHT, YOU CAN
HEAR THE GREENS COMMITTEE SNORING.**

While you're getting an early start on the greens, it might only seem like no one is watching. But, as sure as the sun will rise, so will eyebrows, if the course isn't just right. And you know golfers, if things don't go their way, they often look for excuses. A luxury you do not have.

For over 75 years, Jacobsen has led the industry in cutting technology. (Which, in part, has protected superintendents from pointing fingers.) Complaints like "slick greens" you can live with, if

not revel in. But when golfers start missing putts on bumpy greens, they have a legitimate gripe. Our history of innovations includes the legendary Turf Groomer.[®] It helps create healthier, faster greens that roll true, day in and day out, which means golfers will have

no one to blame but themselves for missing putts. For more information or the nearest dealer, call 1-888-922-TURF or

visit www.ttcsp.textron.com.
