We rebuilt or enlarged 9 tees for the 2000 PGA Championship and seeded them all with Penncross

“In preparation for the 2000 PGA Championship, we rebuilt, resurfaced, or enlarged 9 tees. The one I’m most proud of is the rebuilt 7,000 square foot tee for the 4,200 square foot, par 3, Number 11 green. We seeded these tees with Penncross not only for its rapid recovery, but for its ability to survive this summer’s increased play and still look and play great for the Championship.

Penncross tees and greens are a perfect match with our Pennway fairways. Penncross and Pennway have proven themselves time and time again to be Championship caliber turfgrasses, and that’s why these Penn Pals are our all-around choice for all around Valhalla.”

Our new Proximity Markers clearly mark the longest drive, longest putt or the shot closest to the pin with dignity. Your players will soon find there's no honor greater than scrawling their name on the line for all to see. STRANGELY ENOUGH, THE PART ON THE RIGHT IS
MORE EXPENSIVE.

Look at tags alone, and you'll find plenty of alternatives to genuine Toro parts. But before you put them on your Toro equipment, consider the hidden costs. Many willfitter parts simply don't meet Toro standards for form, fit and function.

Get one that doesn't measure up, and you can end up replacing it early and often, and even risk damage to your equipment. In sharp contrast, authentic Toro parts come off the line in pairs. One goes into a new product, its "twin" becomes a service part.

Plus, Toro donates a portion of every dollar you spend to industry organizations. Invest wisely. See your Toro distributor for Toro parts.

Turf's life begins at the roots. Pity it could end there, too.

The way Ryan and leading agronomists see it, a course's surface is directly affected by what's going on underneath. With aerators that deliver precise, even holes and overseeders that maximize germination, Ryan gets past the compaction and thatch that get in the way of vital nutrients, water and oxygen. Count on the Greensaire® 24

for perfect holes, or the convenience of the GA™-30, the leading rider aerator. There's even a variety of tow-behind aerators, including engine-driven, ground-driven and PTO-powered versions. For details and the Ryan dealer nearest you, call 1-888-922-TURF or visit www.ttcsp.textron.com.
