

The heroes of Southern Hills take a Stand on Penn A-1 and A-4 blended.

Number 14,
Southern Hills CC
Tulsa Oklahoma
Perry Maxwell, Architect
Opened 1935

From left to right: John Carothers, Pat Boyer, Aaron Baker, Barry Hargrove, Todd Towery, John Szklinski, Eric Smith, Jeremy Dobson, Chris Wilson, Roy D. Bradshaw.

Superintendent John Szklinski tugs on an 18-month-old root that helps hold this plug together—even when it's held sideways.

“When an unknown vandal destroyed some of our PennLinks greens in 1999, we realized we'd have to re-grass all 18. PennLinks had provided a fine putting surface, but the newer Penn bents were available at the time of reseeding, and the Penn 'A' series looked good in our trials. But which one would work best in Tulsa, Oklahoma, capital of the Transition Zone? At the urging of Dr. Joe Duich we had Penn A-1 and Penn A-4 blended for us by Tee-2-Green Corp. and are pleased with the results, but more pleased that our members recognize the difference in density, grain-free smoothness, plus putting speed and consistency. Winter mowing height is 0.135", which we lower to 0.110"—the same height of cut we'll use at the U.S. Open—for summer play.

I'm very impressed with the Penn blend's ability to establish a

strong, dense root system so quickly. We can cut a cup in our soil push-up greens and pull the plug with total confidence of no breakage.

Poa annua is a fact of life in Tulsa, but we've had no invasion or encroachment in the two years since we've seeded our relatively small greens. With the extreme density of our Penn A-1 / A-4 blend, the use of alternative spikes only, and pre-emergent applications, *Poa annua* doesn't get a chance to start.

The team of Southern Hills heroes here stand on the belief that our greens will be a fast but fair test for the world's best golfers during the U.S. Open in June, and remain excellent for member play long after the television cameras are gone.”

John Szklinski, Superintendent
Southern Hills CC, Tulsa, OK

Penn A-1 and Penn A-4 are two of the Penn Pals™, which include Penncross, Penneagle, PennLinks, Penn A-2, Penn G-1, Penn G-2, Penn G-6, Seaside II, Pennway blend, NuPenn blend, and PennTrio blend.

WHEN YOU'RE RESPONSIBLE FOR THE
MOST IMPORTANT ASSET ON THE COURSE,
YOU NEED A PARTNER YOU CAN COUNT ON.

For every job on your course, there's a John Deere made especially for it. A full-line of quality equipment, born out of the suggestions and critiques of thousands of superintendents and technicians. From quality mowers and tractors to aerators and utility vehicles. But it doesn't end there. We supply you with the industry's best operator manuals, tech literature, and support hotline. We deliver quality parts 365 days a year, with a 99.5% fill-rate overnight. And we offer the JDC™ MasterLease, the most cost-effective way to acquire golf and turf equipment. To see how John Deere can make a difference on your course, call your local John Deere distributor or 1-800-537-8233.

NOTHING RUNS LIKE A DEERE®

Is your turf *quality*?

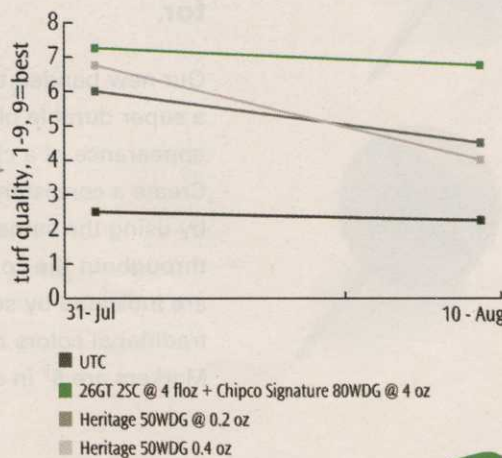

Manage Summer Decline with Chipco® Signature™.

Here comes summer, and the cycle of turf disease and stresses that leads to Summer Decline. What can you do? Prepare your turf for the worst with the pre-stress conditioning of a Chipco® Signature™ program.

Besides controlling *Pythium* diseases associated with Summer Decline, early applications of Chipco Signature improve turf color, vigor and root development, providing unmatched improvement in turf quality. (That's right. No other product improves the quality of turf under Summer Decline conditions as dramatically as Chipco Signature does.)

And, because Chipco Signature allows for a wide range of tankmix partners, you can easily increase your disease control spectrum while providing the foundation of a Summer Decline management program.

This year, condition your turf to handle stress and disease. "Signature-ize" your fungicide program with Chipco Signature.

Signature

It's very dependable.

- Jim Holec,
Prairie Ridge Golf Course,
Owner of 1978 model.

Still runs great!

- David Bergstrom, El Dorado Hills Golf Course,
Owner of 1980 model.

Keeps on going for us.

- Phillip Pensinger,
Ed Oliver Golf Course,
Owner of 1971 model.

Works good - very heavy duty.

- Louis Brockshire, Hillcrest Country Club,
Owner of 1964 model.

I BOUGHT IT BASED ON ITS DURABILITY AND RELIABILITY.

- Tom Huesghan, Pebble Beach Golf Course,
Owner of 2000 model.

Still our primary utility vehicle.

- Bob Taylor, Tioga Country Club,
Owner of 1980 model.

STILL THE BEST VEHICLE WE HAVE

- Fred Hanson, Fox Den Fairways,
Owner of 1968 model.

THE ONE RELATIONSHIP THAT'S BUILT TO LAST.

If you want a truck that'll last, the Turf-Truckster® is the only choice. It's the most powerful vehicle in its class, featuring a 32 hp, liquid-cooled EFI engine and the highest-rated payload capacity of any turf truck. The standard ground-speed governor provides the ability to maintain accurate speeds to accommodate the

widest range of accessories and attachments available. Once behind the wheel, you'll be impressed with its maneuverability. The Turf-Truckster sports an ultra-tight turning radius (20' 2" outside turning circle) and offers the industry's only (optional) automatic transmission. Plus, we've conveniently located the engine under the seat for easy access, as

well as provided a walk-through cab that makes getting in and out of either side a cinch. It's as simple as it gets to operate. And it's as reliable as it gets to own. To learn more or for a dealer near you, call 1-888-922-TURF or visit www.textronturf.com.
