# "Playing Barefoot's More Fun Because Of Penn A-1"

"The thinking behind our three great resort courses, each with its distinguished designer and unique features, is to have them putt equally for our 30,000 to 40,000 rounds per year per course. True and consistent Penn A-1 has done this beautifully through heat and wear stresses, and it's no more trouble to maintain than other creeping bentgrasses I've managed. I wouldn't hesitate to use Penn A-1 again."

"Nothing's better than this."

**Jeffrey Brown**  
Asst. Superintendent  
Tom Fazio Course  
Barefoot Resort and Golf  
North Myrtle Beach, SC

"Penn A-1 creeping bentgrass was selected for all three of our resort courses. Guests are pleased with the consistent putting from course-to-course, and often tell us they're the best greens they've ever played on."

"We love Penn A-1 here because it is heat tolerant and holds up well to traffic with no extra maintenance. Resort people love Penn A-1 because of its fair and true playing surface."

"Some of the best attributes of Penn A-1 here in the southern regions of the transition belt are its heat tolerance and recovery from any heat stresses it may suffer."

Resort guests comment on A-1's upright growth and true putting."
