# ***Poa annua*** or **PENN A-4?**

Now you have a choice.

Recent studies prove that Penn A-4 crowds out *Poa annua* for perfect bentgrass putting greens throughout the growing season.

While other bentgrass varieties often succumb to bentgrass summer decline, stress-tolerant Penn A-4 starts early in spring, stays strong all summer and dominates in the fall, virtually overlapping *Poa annua*'s peak growing season.

When you interseed your greens with Penn A-4, you will find that *Poa annua* just can't compete. Penn A-4 simply crowds it out and keeps it out.
