*Great tools to help you get the job done!*

# While Some Fertilizers Make It Seem Like You're Baling Hay,

## Ours Is Saving You Bundles.

**POLYON® controlled release fertilizers give you consistent long-lasting performance without surge growth, saving you time and money.**

Most fertilizers perform well immediately after application. In fact, they work a little too well, often resulting in surge growth that keeps mowing crews busy and golfers complaining.

Only POLYON fertilizers have the patented polymer technology that provides gradual, predictable feeding for months at a time. This unique nutrient delivery system

means you can get by with fewer fertilizer applications each year, saving you bundles of money on materials, labor and equipment.

So, instead of cutting grass, start cutting costs with POLYON controlled release fertilizers. After all, your success is based on turf quality, not quantity.

Ask for POLYON fertilizers formulated for your area from Harrell's or Simplot distributors, or call Pursell Technologies Inc. at 800-422-4248 ext.7411 for a sales rep near you.
