

GOLF COURSE CONSTRUCTION & RENOVATION

Crew Leaders: TDI International, Inc. is one of the nations leading contractors in the renovation and construction of golf courses. We are seeking Crew Leaders to work with a crew in our XGD™ (Existing Greens Drainage) division throughout the Northeast and Midwest. XGD™ is a technology developed by TDI for precision installation of drainage systems in soil-based greens.

The position involves the day-to-day management, in a hands-on approach, of a four-person crew installing the XGD™ system on golf greens. As well, the individual must be willing to assist in the transportation of crew and equipment between jobs. This position would be of interest to a person with some experience in golf course maintenance that has a keen eye for detail and a first class finished product. The successful applicant must be willing to travel for extended periods of time. Excellent communication skills are required both with our clients and the crew. An ability to speak Spanish would be an asset, but not required. Don't miss this opportunity to work on some of the finest greens in the country.

Project Managers, Supervisors, Forepersons: TDI International, Inc. is always interested in hearing from experienced Project Managers, Supervisors, and Forepersons for golf course renovation and construction projects throughout Florida and Eastern U.S. One of the nations leading golf course contractors, TDI continues to be busy and has great opportunities for full-time careers in the golf course construction industry. Must be willing to travel. Interested candidates for the above positions should fax or e-mail their resume to:
