

Reelmaster fairway groomer

- Stands up turf and reduces grain for a cleaner, more uniform cut
- Improves the appearance and playability of fairways by enhancing turf health and providing consistent conditions
- Knocks off morning dew to minimize grass clumping and helps with clipping dispersion
- Available for 7-inch cutting units
- Can be used in conjunction with the company's powered rear-roller brushes

1200 hydro rake

- Handles varied course terrain, and grooms bunkers and greens efficiently and smoothly
- Equipped with a standard 3-wheel-drive, 16-hp, Vanguard two-cylinder gasoline engine
- Hydrostatic transmission offers simple control with two foot pedals – forward and reverse
- Swing-away body allows easy access to the engine and drive system for maintenance
- Features a front blade, as well as a standard rear rake, to move aeration cores or sand
- The mid-cultivator is designed to break up compaction of sand bunkers
- Available with a box grader for light surface grading and a spring steel fan rake
- Roller/brush/spiker system helps aerate root zones on greens

Caster carts

- Functional and flexible
- Handlebar, easy-glide casters and a floor lock allow easy maneuverability, stability and access
- Built-in grip block secures the cart when used in conjunction with the pallet clamp of a stock-picking vehicle to access product in elevated pick locations
- Second cart features a low profile and a convenient spotting handle for easy movement of a standard 48-inch-by-48-inch pallet
- Carts can be used individually or linked together and pulled in a train

Hose reels

- Promotes water conservation
- Reduces labor
- Improves safety and efficiency
- Extends the life of the hose
- Cart- and trailer-mounted reels provide quick mobility of hoses
- Underground reel permanently stores the hose underground so it can be quickly retrieved to hand-water drought-stressed areas

Reelcraft

Smart-fit cup and ferrule system

- Flagsticks don't lean, rotate or walk out of the cup
- Cup sockets and ferrules don't excessively wear
- Flagsticks drop in and lift out easily without twisting
- Wide-shoulder ferrules fit better and wear less in any cup style

Allectus G insecticide

- Controls turf pests above and below the surface
- 90 percent or greater control when used as indicated
- One application provides eight to 12 weeks of residual control; two applications per season for season-long control
- Effective on white grubs, billbug larvae, annual bluegrass weevil larvae, mole crickets, chinch bugs, cutworms and sod webworms
- Application of the granular form ranges from 50 to 125 pounds per acre
- Liquid and fertilizer formulations are pending registration

Basamid G fumigant

- Eliminates weeds, nematodes, grasses and soil diseases
- Can reseed in as soon as 10 to 12 days
- Contains the active ingredient dazomet, which is activated by the addition of water and breaks down into safe, non-ozone depleting components
- Nonrestricted granular formulation requires no complicated application equipment or tarps, thereby reducing labor costs

Certis USA

Liquid formulation of Heritage fungicide

- Offers enhanced efficacy and application flexibility
- Has a faster and higher uptake into the leaf, coupled with a slightly less rainfall leaf surface residue, which allows more uptake from the roots and subsequently greater delivery of active ingredient into the leaves
- Allows a long application interval of strobilurin fungicides
- Provides as much as 28 days of preventive control of more than 33 disease organisms on turfgrass and ornamental plants
- Available in 10-gallon LinkPak

Nitamin nitrogen fertilizer

- Ensures a steady release of nitrogen within the soil for extended periods of time
- University and golf course studies show that turf recovery/grow-in is thicker and faster by one to three weeks
- Helps turf develop with dense composition and deep root system
- Keeps turf green for months with fewer applications
- Ideal for new turf establishment, topdressing and divot repair
- Especially effective on high-traffic areas
- Low risk of turf burn
- Binds to the soil, resulting in environmental and nitrogen efficiency benefits
- Effective on a variety of turf species

THE NEW NITROGEN™

EBZ8000 backpack blower

- The 4.6-hp, 72-cc strato-charged, two-cycle engine doesn't need a catalytic converter
- Air speed is 203 mph
- Weighs 24.9 pounds
- FreeFlow system protects the blower's mechanics from leaves and other debris
- FreshFlow two-stage air cleaner protects the engine from dust and dirt, preventing overheating and piston seizure
- Air-cooled back pad with lumbar support, extra-wide shoulder straps and left or right hand throttle available for the operator
- Waist belt included

RedMax
