The Environmental Institute for Golf appointed Club Car President & CEO **Gary Michel** to its Golf Advisory Council.

Lap of luxury

Try working this into next year's maintenance budget.

For the luxury course that has... well... just about everything.

For a mere \$52,000, the Garia Edition Soleil de Minuit is purported to be the most expensive golf car ever made. The Garia exudes European luxury:

- Rolls out of the same factory that produces the Porsche Cayman and Boxster;
- Two-colored, hand-stitched luxury seats;
- Alcantara roof lining;
- Numerous hand-made details;
- Double wishbone front suspension inspired by Formula 1 cars;
- An Italian-built drive train; and
- An aluminum frame profile by the same company that supplies Aston Martin, Jaguar and Volvo.

While the base price for this ride is an affordable \$17,499, it's the upgrades that will get you, including options for a built-in refrigerator and an exclusive personalization program that includes painting the car to match your "other" car.

What? No diamond-encrusted cup holders. Forget it!

Extreme No. 19

GCI's Africa correspondent has come across the longest and most dramatic par 3 in the world.

Legend Golf and Safari Resort's No. 19 is high up on Hanglip Mountain, situated within Entabeni Safari Conservancy in the malaria-free Waterberg Region of the Limpopo Province of South Africa. After a short helicopter flight, golfers can tee off from one of three tee boxes high up a 430-meter escarpment. According to the resort, four separate cameras and tracking equipment gives the golfer the ability to follow and capture the tee shot and the flight of the ball.

The fairway is seeded with cynodongrass and contoured to funnel the ball to the green below. And in celebration of the African Renaissance, the green has been shaped like the map of Africa and is protected by a large bunker.

Golfers can opt to play No. 19 in addition to their round of 18 holes, or as an experience on its own. And as an added bonus, anyone who shoots a hole-in-one gets \$1 million U.S.!

We have one question: How do you think they get the greensmower up there?
