Pat Jones:
Us vs. them

COVER STORY

- 26 **ULTIMATELY ULTRA**
New superintendent Aaron Cape
takes a chance on new seed in old
golf country, even if he stands alone.

FEATURES

- Q&A
- 16 **CONVERGING ON CHANGE**
Jim Keegan and his associates are
trying to get facilities to change their
old, unprofitable paradigms.
- Irrigation
- 34 **WATER YOUR COURSE**
Treat an irrigation system upgrade as
infrastructure to grow your course
for the future.
- Course renovation
- 42 **PROJECT APPROVED**
With a tough economy and steep
competition, now might also be the
perfect time to pull ahead by getting
that capital improvement project
approved.
- Course maintenance
- 48 **SUSTAINABLE GOLF 2.0**
It's not just for the environment
anymore. In the midst of a historic
recession, sustainability for the golf
business has become synonymous
with survivability.

- Career development
- 53 **BUILDING YOUR
PERSONAL BRAND**
How employees, colleagues,
members and guests perceive you
can impact your efforts at your
golf facility. Here are eight ways to
maintain and maximize a positive
personal brand.

- Product spotlight
- 56 **DEALING WITH DONUTS**
Nearly exhausting his options
to combat donuts, one
superintendent swapped out
irrigation heads to improve
distribution uniformity on his golf
course.

- Real science
- 60 **NUTRIENT AND PESTICIDE
LOSSES CAUSED BY SIMULATED
RAINFALL AND SPRINKLER
IRRIGATION**
Oklahoma State University
researchers conducted field
studies to measure both nutrient
and pesticide runoff from plots
receiving both sprinkler irrigation
and simulated rainfall.
