- 49 Ad index**

COVER STORY

12 THE WAITING GAME?

As opportunities continue to constrict, assistants discuss the uphill climb to their ultimate goal. Plus, tips to land that first superintendent's job.

FEATURES

Irrigation

20 USE YOUR HEAD

Superintendents must weigh whether to upgrade their irrigation heads or go for a total system replacement. Successfully selling either concept to your membership is another matter.

Turf health

28 UNDER THE MICROSCOPE

GCI's turf experts discuss the southern disease trends you need to know about now for 2013.

Turf maintenance

34 FEED WITH FOLIARS

Foliar fertilizers as part of an integrated nutrition program help superintendents get through extreme dry and hot conditions.

Course profile

40 THE GREEN BAY TRAIL

Just like the Green Bay Trail, Marc Davison, CGCS, covered a lot of miles and a very logical and strategic path to Titledown.

Turf

44 THE ANATOMY OF SEED CHOICE

With diverse distinctions between turf seed varieties, it's in your best interests to do your due diligence before making the final choice.
