

CHARTING A VOYAGE

of

DISCOVERY

Looking for a diversion from the golf show? San Diego offers a multitude of waterside activities. by Helen M. Stone

Conquistador Juan Cabrillo set sail to the north September 1542 looking for the mythic gold cities of Cibola. Cabrillo also hopes he can find the Straits of Anian, a waterway connecting the Atlantic and Pacific Oceans. Instead, he and his crew pull into a “very good enclosed port” and become the first Europeans to set foot upon what is now the California coast – and breathtaking San Diego.

Whether the GCSAA conference and show is your first visit or you are a regular guest of this dynamic area, a voyage of discovery awaits you. Yes, there are nearly 100 golf courses in the area to keep you busy, but if you want to go beyond the convention center and indulge in other activities besides golfing, this seaside paradise satisfies.

Even if you decide to stay close to the conference and want to skip the hassle of renting a car, there is a multitude of waterside activities and eats. Just a short stroll down the waterfront brings you to Seaport Village (www.seaportvillage.com), a complex offering a wealth of small shops and restaurants in every price range, many with bay views.

If you are feeling energetic, stroll past the bustling Village and check out the waterfront action. If you need to fuel up, both locals and tourists rave about the Fish Market (www.thefishmarket.com/locations.aspx?id=6)

The house-smoked fish trio appetizer is a terrific prelude to the signature cioppino, an amazing combination of seafood in a savory marinara sauce. You can choose from casual dining on the patio, a fully stocked sushi bar or an upscale fine dining experience all in the same place.

Continue on to explore the Navy Pier. If you're lucky, there will be a Navy ship docked and offering free tours, or spend a few bucks and visit the USS Midway, a retired aircraft carrier that now serves as a museum featuring 27 restored aircraft (www.midway.org). If that doesn't wear you out, keep heading north.

You'll pass Broadway Pier, a docking area for all kinds of bay tours and a ferry to Coronado across the bay (www.sdhe.com). Do yourself a favor and book one of these. You can learn a bit about the area while enjoying spectacular views. February is also a great time of year for whale watching (with guaranteed sightings!).

Keep heading north and check out one of the world's best collections of historic ships at Maritime Museum (www.sdmartime.org). Lucky you. February just happens to be Museum Month (www.sandiegomuseumcouncil.org/museum_month) so you can visit both museums, along with 38 others in San Diego for half price. Everything from art to natural history to railroads to botanic gardens await exploration

If you don't feel like walking back, head

“inland” on Broadway and hop on the San Diego Trolley, which takes you right back to the Convention Center in no time (www.sdmts.com/trolley/trolley.asp). With a little bit of planning, the trolley can take you just about anywhere and the price can't be beat – only \$5 for a full day pass and even less if you purchase multiple days.

Speaking of trolleys, a great way to get to know the area is the San Diego Trolley Tour (www.trolleytours.com/san-diego). This takes you to all the “hot spots” with a guide who can steer you to the sites that best suits your interests. You can get off and on any time you please to explore further, grab a bite to eat or just relax.

If you only have a couple hours to dash out between the show and seminars, there are a host of restaurants, shopping and night life near the convention center or a short cab ride away. You'll be right next to the “Gaslamp District,” downtown revival at its best.

For “new American,” try the Croce's (www.croces.com). A trailblazer during downtown redevelopment, it was founded by musician Jim Croce's widow, Ingrid, and features live music every night to compliment your dining experience.

With its proximity to Mexico, you'd think that San Diego would offer some amazing Mexican restaurants, and you'd be right. Downtown, the locals' choice top choice is La Puerta (www.lapuertasd.com). The

Yes, there are nearly 100 golf courses in Greater San Diego to keep you busy, but if you want to go beyond the convention center and indulge in other activities besides golfing, this seaside paradise satisfies.

homemade salsas served with tortilla chips are a prelude to a great meal featuring traditional Mexican specialties and a few surprises. (Hint: Try to make it down for “Taco Tuesday.” Happy hour from 3-7 p.m. offers two buck tacos and brews that will bring out the matador in you.)

If Asian is more your style, give Taka a try (www.takasushi.com). The freshest sushi you can get (many locals call it the best in San Diego), plus teriyaki dishes and steaks, make this a great addition to your dining rotation.

If you're in the mood for Italian, San Diego has its own “Little Italy.” The area was home to Italian fisherman and their families in the 1920s, and is still known for its terrific food and friendly shops. If you're in need of one of the best sandwiches in town, San Diego locals flock to the deli at Mona Lisa Italian Foods (www.monalisalittleitaly.com). You can also order a full meal or fabulous pizza at the adjacent restaurant.

Why not stay an extra day and have a blast at the Carnavale on Feb. 9? This event, now in its tenth year, is like Mardi Gras with an Italian twist! Great costumes, plenty of music and dancing in the streets await! (www.littleitalysd.com/events/little-italy-carnevale).

One last “must-see” nearby is Petco Park, home of the San Diego Padres. Although you won't be there during baseball season, the

80-minute tours are a great way to get out and stretch your legs while seeing this venue up close and personal (<http://sandiego.padres.mlb.com/sd/ballpark/tours/index.jsp>).

Do you fish? If catching barracuda and yellowtail tuna sounds like fun and you can spare a half day, join one of the popular sport fishing outings that leave from nearby docks on the harbor (www.sportfishing.org). Early birds can depart at 6:30 am, or opt for the afternoon departure if you are attending morning classes. Don't worry if you don't have tackle; it's available for rent. You can even have your catch of the day processed and shipped home.

If hiking – or strolling – in amid lush landscapes and fine architecture is more your style, Balboa Park is a great way to while away an afternoon or the day. The world-famous San Diego Zoo is nestled in the heart of the park. Enjoy ornate structures and gardens built for the Panama-California Exposition in 1915, admire rare and colorful plants in a huge lathhouse, or enjoy drinks or a meal amidst a lush landscape. If you want to take advantage of Museum Month, everything from fine art to natural history to “oooh-aaah” science surprises await.

If you have a day and a car, treat yourself to a tour of San Diego's famous beaches. From downtown, head north on Harbor Drive to Point Loma. There are spectacular views as

you reach the Point. You can stop and visit the lighthouse and museum if you like, or explore the abundant ocean life in the tidepools. There's a good chance you will see migrating whales as well.

Head back and go north to Sunset Cliffs Boulevard and Ocean Beach. You can grab a cup of coffee and a pastry at Azucar Cuban Coffee (www.iloveazucar.com) on Newport Avenue and visit the municipal fishing pier to enjoy the ocean breeze. Then keep heading north to check out Mission Bay and the Aquatic Park. (You can also catch Sea World Drive and visit Sea World for a day of adventure if you chose.) West Mission Bay Drive ends at the beach and boardwalk. Stop for some truly world-class people watching. Rent a bike, grab a quick bite to eat or a beer and watch the surfers ride the waves.

Keep going on Mission Boulevard, hugging the coast until you reach La Jolla Boulevard (pronounced “La Hoya”). This upscale enclave boast some truly inspiring views, great opportunities for shopping and snacks, and the famous Children's Pool. This gentle beach is home to a colony of seals and you can enjoy the sight of these ocean mammals sunning, splashing and even nurturing their young.

After watching the sunset at La Jolla Cove, you can either extend the day by dining at one of the many restaurants in town, or hit the freeway for the drive back downtown. If you're up for one last adventure, or if you want to crown the day with another terrific Mexican meal, stop at Old Town.

This state historic park boasts more than 30 restaurants, but what might be the crown jewel is Old Town Mexican Cafe. The home made tortillas and hot salsa are legendary. And if you're too tired to look over the large menu, just order the carnitas – you can't miss with these succulent “little porks.”

So do yourself a favor and build some time into your conference stay to explore “America's Finest City.” **GCI**

Balboa Park is a 1,200-acre urban cultural park in San Diego. In addition to open space areas, natural vegetation green belts, gardens and walking paths, it contains museums, several theaters, and the world-famous San Diego Zoo

SHOWSTOPPERS

Check out these new products debuting on the GIS 2013 show floor in San Diego.

Foley United's AccuMaster

foleyunited.com

GIS Booth #2818

- Accu-Touch Control allows for full control of automated inputs; automated in-feed cycles for "spin" grinding, and programmable automated in-feed cycles for relief grinding
- Reduces labor, time and effort
- 100% dust & Noise enclosure system
- Highest OEM quality grind possible
- Only reel grinder in the world with all these features

Displace 12% Calcium

griggbrothers.com

GIS Booth #3116

- Calcium soil specialty product formulated with a unique wetting agent technology
- Specially formulated soil surfactant enhances product infiltration and facilitates uniform placement of calcium throughout the soil profile
- Contains 12% Calcium remains in solution and reacts with the soil to displace sodium ions
- Backed by independent university testing that shows it can improve turf performance and quality by reducing high bicarbonate accumulation from poor irrigation water
- Specially designed to improve hydrophobic soil conditions and localized dry spots
- Convenient and easy to use formulation which will provide proven effective results

Turf Rx Fairway Flowable

RedoxTurf.com

Booth # 5139

- The most effective and environmentally sound fairway program
- Like all Redox products, Rx Fairway Flowable offers a highly efficient formula that allows you to reduce overall nutrient inputs
- Easy to mix and easy to handle Flowable formulation
- Carbon-based complexing and chelation deliver plant-available nutrients, ensuring high plant vitality response
- Extremely compatible with other plant treatment products
- 100% Satisfaction Manufacturer's Guarantee, assuring you for the greatest bang for the buck

Turf Marker TF-2020

richway.com

Booth #4658

- Affordable, compact, quality foam marker for golf course and turf professionals
- Outfits booms up to 30 feet
- Compatible with field speeds up to 7mph
- Golf ball sized foam drops

Penn State World Campus Turfgrass Programs

worldcampus.psu.edu/TurfOnline

GIS Booth #656

- Whether you're beginning your career or taking it to the next level, we have an online turfgrass program to meet your goals

PENNSTATE

World Campus

- Master of Professional Studies in Turfgrass Science
- Bachelor of Science in Turfgrass Science
- Associate in Science in Turfgrass Science and Management
- Advanced Certificate in Turfgrass Management
- Basic Certificate in Turfgrass Management

Becker Underwood Vision Pro HD

beckerunderwood.com

GIS Booth #2852

- Long-lasting, natural-looking green color that won't turn blue
- No adverse effects or breakdown associated with UV light
- Safe for all types of pump seals
- Compatible with conventional plant protection products

Jacobsen Mystery Machine

jacobsen.com

- Something new is coming from Jacobsen. On Jan. 15, at 5:10pm EST, Jacobsen will rip the cover off this machine to reveal a game-changing new product. As the anticipation and excitement builds, Jacobsen is asking people to guess what's under the cover. Go to jacobsen.com and make your guess. All guesses will be entered into a drawing for some great prizes. Of course, the product will be on display (without the cover) in Jacobsen's booth at the Golf Industry Show in San Diego.

Jacobsen 15-Blade Reel for Walking Greens Mowers

jacobsen.com

GIS Booth #

- 15-blade Classic XP reels now come standard with GK 500 series and PGM walking greens mowers. 15-blade reel provides superior frequency-of-clip compared to competitive mowers
- Entire line of Jacobsen walking greens mowers - including the revolutionary ECLIPSE2 series - now come standard with 15-blade Classic XP reels

Jacobsen ECLIPSE 322 Riding Greens with Advanced Lithium Power

jacobsen.com
GIS Booth #

- Beginning in 2013, Eclipse 322 riding greens mower will be offered with advanced lithium battery technology
- Able to cut 18 greens plus practice putting greens on one charge
- The lithium batteries never need maintenance
- Will last 6-8 years – approximately 2,000 cycles

Syngenta Secure Fungicide

syngentaprofessionalproducts.com
GIS Booth # 4339

- Multi-site contact fungicide and the only registered fungicide for turf in FRAC group 29
- No known disease resistance, and low risk of future resistance
- Perfect rotation partner with Daconil Action fungicide for season-long contact protection
- Perfect partner with systemic fungicides for inside out protection

Syngenta Briskway Fungicide

syngentaprofessionalproducts.com
GIS Booth # 4339

- DMI containing fungicide that can be used in even the hottest months
- No heat restrictions with no growth regulation effects, thinning or phytotoxicity
- Creeping bentgrass, Poa annua, and Bermudagrass are protected at any height of cut
- Controls over 20 diseases including dollar spot and anthracnose
- Excellent rainfastness from rapid uptake into leaf tissue
- Several plant health benefits including enhanced root development and CO2 assimilation

Syngenta Appear Fungicide

syngentaprofessionalproducts.com
GIS Booth # 4339

- Two components work together to enhance control of pythium and anthracnose
- Improves summer stress tolerance and overall turf quality
- Unique pigmented formulation provides a deep green color resulting in greater turf quality
- Can be used under extreme summer temperatures
- Mixes easily with Daconil Action fungicide or Secure fungicide

TurboDrop Asymmetric DualFan Nozzle

turbo-drop.com
GIS Booth #4659

- Spray twice in one pass
- Maximize coverage and minimize drift
- Excellent for contact fungicides, growth regulators, foliar amendments, colorants, and anything else that requires maximum coverage on the leaf surface
- Air induction nozzles are designed specifically for turf grass applications

ProScape 20-0-10 60% MESA 100% EXPO SGN 145

GIS Booth #1929

lebanonturf.com

- Product number 2253717
- SGN 145 is perfect for close cut turf of fairways and tees
- Contains dual slow release of nitrogen and potassium
- MESA provides brilliant color without growth spikes
- EXPO helps protect turf during summer stress conditions
- Highly efficient, long-term feeding product

Trojan Battery Traveler 8V and Ranger 160

GIS Booth # 3521

- Batteries feature the longest life and longest range in the industry and deliver a new class of deep-cycle battery technology
- Traveler 8V provide more than 40 percent longer life, Ranger 160 deliver 35 percent more travel distance between recharges current 8V golf batteries
- Traveler 8V's internal elements include Trojan's new Internal Battery Protection System which features thicker grids, membrane-wrapped plates, and the exclusive T2 Technology with Maxguard T2 multi-rib separators
- Traveler 8V incorporates a moss guard which insulates and protects the top of the battery plates, and features stronger case walls to increase durability
- Traveler 8V is compatible with Trojan's HydroLink single-point watering system
- Ranger 160 deep-cycle battery is optimized for excursions that require significantly more range
- As an 8-volt, high-performance battery, the Ranger 160 is rated at 160 minutes when discharged at 56 amps
- Is the first U.S.-made long-range product manufactured to meet the increasing demands of golf carts, utility and low-speed passenger vehicles, as well as hunting vehicles
- Ranger 160 delivers 35 percent more run time between recharging c
- Ranger 160's internal design includes more active material delivering higher performance for long-range driving requirements, plus the exclusive Maxguard T2 multi-rib separators and T2 technology

Clearscape ETQ Fungicide

sipcamadvan.com

GIS Booth #3818

- Combines tebuconazole, a much anticipated DMI fungicide for use on golf course turf, with ETQ technology
- New tool for managing disease and turfgrass stress with a single product
- ETQ technology enhances turf quality and manages turfgrass stress factors such as heat and UV light
- DMI fungicide technology controls disease by inhibiting processes related to fungal biosynthesis, which disrupts target pathogen growth
- Provides rapid plant uptake, preventative and curative control, low use rate, application flexibility and delayed resistance development
- Controls anthracnose, dollar spot, brown patch, pink and gray snow mold, gray leaf spot and other diseases in turf
- Excellent tank mix and fungicide rotation partner

Clearscape ETQ™
Turf Fungicide

Echo Dyad ETQ fungicide

sipcamadvan.com

GIS Booth #3818

- Next generation chlorothalonil plus ETQ formulation delivers broad-spectrum disease control and sunscreen-like protection from harmful UVA and UVB rays, while protecting from heat and other stress factors
- Contact fungicide with a multi-site mode of action interrupts the metabolic activity of fungal pathogens and prevents resistance issues
- ETQ technology improves fungicide effectiveness by making plants more efficient
- Improves turf color, strength, density and consistency
- Contains 4.17 lbs. of active ingredient per gallon . . . a different use rate than conventional chlorothalonil products
- Prevents dollar spot, brown patch, leaf spot, gray leaf spot, anthracnose and other diseases
- Natural adhesion to plant blade eliminates need for surfactants

Eclipse ETQ

sipcamadvan.com

GIS Booth #3818

- ETQ technology combined with broad-spectrum dicarboximide fungicide with protective and curative action that inhibits spore germination and fungal mycelium growth
- ETQ technology provides sunscreen-like protection from harmful UVA and UVB rays, heat and other stress factors, while improving turf color, strength, density and consistency
- ETQ technology improves fungicide effectiveness by making plants more efficient
- Combination of active ingredient and ETQ technology protects grass blades while controlling dollar spot, brown patch, leaf spot, Fusarium blight, pink and gray snowmold, Pythium blight and other diseases
- Only snow mold fungicide with ETQ advantages
- Excellent tank mix and rotation partner in complete fungicide program

E-Scape ETQ

sipcamadvan.com

GIS Booth #3818

- ETQ technology combined with unique pairing of multi-site mode of action contact fungicide and DMI systemic fungicide
- Contact fungicide interrupts metabolic activity of fungal pathogens while the systemic fungicide inhibits processes related to fungal biosynthesis, which disrupts target pathogen growth
- ETQ technology provides sunscreen-like protection from harmful UVA and UVB rays, heat and other stress factors, while improving turf color, strength, density and consistency
- ETQ technology improves fungicide effectiveness by making plants more efficient, promotes optimum aesthetic response and provides complete plant protection
- Combination of active ingredients and ETQ technology protects grass blades while controlling dollar spot, brown patch, leaf spot, gray leaf spot, anthracnose, powdery mildew, Fusarium patch, summer patch and other diseases
- Ideal fungicide for Poa annua/bentgrass fairways

True-Surface Greens Care Collection

true-surface.com

GIS Booth #4622

- 12 Interchangeable Inserts - The Greens Care Collection (GCC) will do what would normally take multiple types of equipment to perform. Stop buying expensive equipment - just start your collection of greens care inserts
- Sturdy Frame Design - Unlike other interchangeable systems, True-Surface is not compromised by a flimsy clam-shell design. The Greens Care Collection frame is designed to withstand golf course conditions such as weather, shop floors, and chemicals
- Easy-to-use Depth of Cut Site Gauge - No more counting "clicks" and turns, the Patented True-Surface Depth of Cut Adjuster has a Site Gauge that allows you to quickly adjust your settings by simply choosing your mark
- Time Saver - Quickly attach the GCC directly to your existing triplex - no training necessary
- No Clean-Up Necessary - The True-Surface vacuum effect efficiently throws debris into the grass baskets

Spray Twice In One Pass!

Get better coverage with less drift.
Get Greenleaf's Asymmetric DualFan nozzles.

FieldScout GreenIndex+ App

specmeters.com

GIS Booth #3624

- Use the power of your smartPhone for nitrogen management
- Captures and processes images from an iPhone, iPod Touch, or iPad and instantly computes the DGCI (Dark Green Color Index) of your turf
- Generates a turf-color rating
- Corrective measures, based on early diagnosis of severe nitrogen deficiencies, can prevent unhealthy turf
- Data can be logged and geo-referenced, and emailed to your PC for further analysis

Jetphiter Fungicide

phoenixenvcare.com

GIS Booth #529

- Contains potassium phosphite plus pigment, with signal word "Caution"
- Exclusive formulation of the top preventive fungicide active for Pythium in warm- and cool-season turfgrass
- Provides consistent, effective control of pythium and phytophthora (root and crown rot, cankers, foliar blight), downy mildew, bacterial blight and xanthomonas
- Offers suppression of powdery mildew and black spot
- Available in 2 x 2.5 gallons; and 7.5 gallon BATpak (Buy, Apply and Turn-in)

PILOT Irrigation System from Hunter

GIS Booth #5138

hunterindustries.com

- Exclusively for golf courses
- Features desktop computer-based central control software; two types control systems with advanced below-ground decoder system with hubs available in 250, 500, 750 and 999 station plastic pedestals with up to 120 simultaneous station activation and conventional above-ground controller system with controllers available in 30, 40, 50, 60, 70 and 80 station plastic pedestals with up to 17 simultaneous station activation
- Communication technologies include wired, UHF radio, license-free spread-spectrum radio
- Available in English, French, German, Spanish, Chinese and Korean
- Controller includes Hunter's exclusive Safe-Toggle station switches standard
- Add Hunter's maintenance radio and enjoy wireless remote control even before the central control is set up

VERDE-CAL K Plus 0-0-15

aquaaid.com

GIS Booth #4222

- Contains Sulfate of Potash, Calcium Sulfate, Magnesium Sulfate
- Now with L-Amino Acids, Iron Humate, and Manganese Sulfate
- AQUA-AID's exclusive thCa releasing mechanism helps VERDE-CAL K Plus break down with shorter irrigation cycles after application
- Supply Ca, Mg, K, S, Fe, and Mn in a single application
