

## Travels With Terry

Globetrotting consulting agronomist Terry Buchen visits many golf courses annually with his digital camera in hand. He shares helpful ideas relating to maintenance equipment from the golf course superintendents he visits – as well as a few ideas of his own – with timely photos and captions that explore the changing world of golf course management.

**Terry Buchen**, CGCS, MG, is president of Golf Agronomy International. He's a 41-year, life member of the GCSAA. He can be reached at 757-561-7777 or [terrybuchen@earthlink.net](mailto:terrybuchen@earthlink.net).

## FUEL STICKERS

These stickers are a unique way to train employees to put the proper fuels into their respective maintenance equipment gasoline and diesel fuel tanks. Each sticker measures 9x2 inches and they were acquired from the local Do It Best Hardware Store.

They must be applied to metal surfaces only (not on plastic) after cleaning the surface with Windex. The industrial adhesive material holds-up quite well when cleaning the maintenance equipment with pressure washers. The stickers cost about \$5 and their large size makes them very conspicuous to use the proper fuel types.

Labor time took just a few minutes. Rick Bowden, golf course superintendent, and Defino Cordova, equipment manager, came up with this great idea at the Bob O'Link Golf Club in Highland Park, Ill.

## Make a living. Make a difference.

The Irrigation Foundation strives for a future where the irrigation industry is thriving with educated and highly skilled professionals.

The Foundation introduces students to exciting irrigation career opportunities and works with academics to teach the latest irrigation content in the classroom.
