

# New 26/36 Fungicide™

## Long Lasting, Tee to Green Disease Control

### Introducing New Broad Spectrum 26/36 Fungicide™, With A Dual Mode of Action

New 26/36 Fungicide™, with its contact and systemic modes of action, is double trouble for a broad spectrum of tough to control diseases like dollar spot and brown patch. And the dual-action benefits don't stop here.

#### Better Resistance Management, Long Lasting Control

The proprietary formulation of 26/36 Fungicide – a combination of iprodione and thiophanate-methyl – reduces concern for resistance and increases the length of disease control, up to 21 days. That's better resistance management with long lasting disease control.

#### Great Replacement for the DMIs

26/36 Fungicide is also a great summer replacement for the DMIs that can have a growth regulation effect leading

to lower overall turf quality, reduced turf density, bare spots and poor playing conditions.

#### You Can Count on Cleary – and New 26/36 Fungicide

Cleary, with over 65 years of commitment and experience, has been the name you can count on for fungicides and disease control solutions that work time and again.

*New 26/36 Fungicide – Long-Lasting Disease Control, Without Growth Regulation.*
