

Rooted in Solutions

Symptoms of nutrient deficiency include:
 Chlorosis, necrosis, reduced tillering,
 lack of growth or, over time of stand resulting
 in weed invasion.

"the essential material available
 in amount to meet daily, approaching
 the critical minimum needed will
 tend to be the limiting one"

Creeping Bentgrass

Growing turfgrass is a science. Maintaining it in formidable conditions is an art. The stress of extreme mowing heights, suffocating heat and humidity, shade, water and nutritional challenges makes your turfgrass dependent on you for its very survival.

And this is where Floratine shines. Our patented, first-in-class foliar and soil-based technologies maximize nutrient uptake when your turf, and budget need it most. The finest ingredients in the world ensure that your turfgrass will conserve precious energy while retaining vital nutrients.

Floratine's highly trained distribution network, spanning 30 countries, provides you with the tools to keep you and your turfgrass rooted in solutions.

Visit our award winning website to learn more about our solutions and find a Floratine distributor near you.
