

NEW

ECLIPSE[®] 2

Jacobsen's new ECLIPSE[®] 2 offers best in class quality of cut, industry leading productivity and customized controls.

Lightest handle weight in the industry provides adjustable height for comfort and ease of use

Control the speed through the speed paddle or bale, allowing the operator to easily slow down for turns and return to normal speed when the turn is finished

Widest array of frequency of clip settings – requires no tools and takes just seconds to change

Maximum mow speed up to 3.8 mph

Settings are accessed through password protected menu

Optional LED light uses less energy and is brighter while allowing your staff to get on the course sooner for minimal disruption

Fully isolated mounted engine reduces operator fatigue

Honda[®] engine – industry proven reliability

Moveable power source allows you to adjust the weight on the front roller for the fixed head unit and ease of turning on the floating head unit

Regenerative braking for increased speed control

Improved kickstand for easier operation

Superior tracking with true automotive differential. Drives from one point versus two belts or chains which require adjustment to track straight

Patented true floating head allows lowest heights of cut without scalping, even on the most undulating green

Classic XP reel design delivers the industry best quality of cut

On-board backlapping minimizes down-time by allowing for quick and easy reel maintenance
