

*“ETQ fungicides are pretty much all I use on greens, tees and fairways.”*

“Echo® Dyad ETQ™ is great because I don't have to worry about resistance with chlorothalonil. I also use Eclipse and Sipcam Clearscape® ETQ for season-long protection and to meet the required restrictions. We've seen great color, quality and a dramatic reduction in hand watering. Pre-mix convenience and affordability are other benefits and the money saved allows me to do more in other areas.”

**Scott Goniwiecha**  
Golf Course Superintendent  
The Glen Club  
Glenview, Illinois

Discover what Scott Goniwiecha already knows. ETQ fungicides from SipcamAdvan deliver all the advantages you expect. And plenty more you never thought you'd see. Trust in ETQ technology. Because accomplishing more with less is the new normal.
