# Turf!

On fairway and putting green the turf depends on soil, seed, fertilizer and care.

We can't provide the soil, or the care, but we DO provide grass seed, fertilizer, and chemicals that will produce the smoothest, closest, toughest turf on any soil, and with the least care.

We've been at it since 1895. Write for particulars. Corneli Seed Co., St. Louis, Mo.

# KEYSTONE GOLF GRASS SEED

M541

ing something for posterity and you are a better citizen in your own community for having beautified a spot of ground. Your children and their offspring probably will forget all your attributes and life-work devoted to this pastime, and in their mad rush of modern day life, assume it all as theirs by birthright, but any golf course that has the heart throbs of a conscientious green-committeeman built into it is a lasting monument of his capacity to appreciate Nature's handiwork and he has builded better than he knows.

## Drastic Treatment for Divot Carelessness

HILLCREST COUNTRY CLUB (Los Angeles district) is applying heroic treatment to the divot problem. In the first issue of the club's newsy house-organ, *The Squawker*, reference is made to the laziness and thoughtlessness responsible for the expensive divot damage, and the following statement is added:

"In the future any player neglecting to replace a divot will be subject to the following penalty:

"First offense—Name posted on bulletin board in caddie house as offender.

"Second offense—\$10.00 fine.

"Third offense—The Greens Committee will recommend to the Board of Governors that the offender be suspended from the use of the golf course for a period of time.

"This applies to caddie as well as player.

"It is requested of the membership at large that they report any such neglect as above mentioned. This can be done anonymously and is not considered tale-bearing—it is your *duty* as a member of the Hillcrest Country Club to help preserve your course and such reporting of an offense is in the line of duty."

The reference to fining caddies undoubtedly is just for effect, as it would be hard to collect such a fine.

As a matter of fact, even though Hillcrest has a wealthy membership, we doubt that the \$10 fine would be forthcoming without a howl that would be heard to high heaven. However, the way in which the situation is presented is certain to impress the membership with the seriousness of the matter.

Before you put big and compact masses of shrubs around the course, consider maintenance costs.

Spreading out the shrubs judiciously gives better effects and saves maintenance expense.
