lengths by mail. Samp Stornoway, Scotland. Professionals preferred. Good remuneration.

Ohio Club Attacks Lost Ball Problem

THE Westwood club at Cleveland, Ohio, I is making an attempt this year to put over some new rules on lost balls. This difficult problem becomes harder to solve at many clubs because certain members sometimes try to make it profitable for the caddies to forget to observe the rules. The Westwood rules follow:

1. All balls on the Westwood course not in the possession of players are the property of the club.

2. Caddies and field workers of the club are not permitted to have in their possession golf balls of any description for a greater period than is necessary to deposit them with the caddie master.

3. Possession of golf balls upon the Westwood grounds under any other circumstances will be sufficient grounds for dismissal from service.

4. All golf balls found upon the Westwood course shall be turned in to the caddie master; this shall be done at the earliest opportunity after finding the balls.

5. The caddie master will pay for the return of lost balls as follows:

(a) Twenty cents for each ball in good playing condition and having the name of a Westwood member thereon.

(b) Ten cents for each ball in good playing condition without a name upon it or with the name of a person not a member of Westwood.

(c) Five cents for each ball not in good condition for regular play.

GREAT deal has been written lately on the advantages of a turf nursery for replacing killed spots on greens, but the equally advantageous turf nursery for replacing bare spots on fairways has been overlooked.

Establish on some unused acre on the grounds a fairway-turf nursery. Mow it, fertilize it, care for it like your regular fairways; and in addition, water it. Then, if the course winters badly, you will have a supply of turf to patch with.

'HE green-chairman should encourage I the members to report minor maintenance defects to him. Such trifles are easily overlooked in the light of more important duties, yet require a minimum of labor to correct. The sign of a wellgroomed course is the absence of minor defects.
