LOS ANGELES, CALIF.

The PAR TEE

Real merit makes
PAR---TEE

pleasing to player;
profitable to pro.

The tops don't break—the ball seats easily on the feather-edge top—carrot shape is strong and easy to push in the ground—orange and yellow colors easy to find—no metal injures the face of the driver or tears clothes.

Put PAR TEES in a live spot for display. Player preference will make steady business and good profit for the pro.

Jacobsen Has Greens Brush

AS the latest in accessories on their power mowers, the Jacobsen Mfg. Co. of Racine are introducing a wire brush attachment which roughs up the flat-lying blades of grass, thus exposing them better to the action of the mower blades. With the nation-wide use of creeping bent, some method has been needed to overcome the tendency of bent to lie flat, and the brush accomplishes this job in good style.

The brush, which can be purchased separately for attachment to Jacobsen mowers already in service, is the same width as the mower blades and is held a few inches in front of the reel by two arms extending from the body of the mower. It rests, tilted slightly forward from the vertical, of its own weight on the turf.

When not needed the brush may be turned back out of the way; it is not necessary to detach it from the machine. Or it may be used for brushing-in top-dressing, by idling the mower blades, with the brush in operating position.

Hagen Announces Allied Bag Tie-Up at Sales Meet

THE annual sales convention of the L. A. Young Company, makers of Walter Hagen golf equipment, was held in Detroit August 3, 4 and 5, at the general offices of the company. The convention was attended by all of the Walter Hagen salesmen with the exception of the company's representatives on the Pacific Coast, T. G. Philpot and Ralph W. Kinzer.

During the convention the salesmen reviewed the Walter Hagen line for 1929, were made acquainted with the advertising and sales plans for the forthcoming year, spent considerable time with Walter Hagen in the factory getting acquainted with new manufacturing developments, and participated in a golf tournament.

The principal place on the program was occupied by Walter Hagen, who went over the new line with the salesmen, model for model, explaining all of the features of design and construction. Hagen also explained the improvements in the Walter Hagen golf ball and told how this ball and Walter Hagen clubs helped him in winning the P. G. A. and British Open championships. Prior to the sales meeting Mr. Hagen had visited the proving ground at Providence, R. I., where Walter Hagen golf balls are made and gave a detailed report
