

Tractor Wheel Spuds

The R. H. wheel spuds save time installing and removing, they are made in many sizes for any type tractor or purpose. Low price and quality have been welcomed by Golf Clubs, in use on more than one-half the clubs in U.S. and Canada.

Sample spud and circular on request; advise make of tractor and purpose used for.

(If your Ford or equipment dealer cannot supply, write direct.)

R. S. HORNER
GENEVA, O.
Manufacturer of Wheel Spuds, Golf Tractor, Golf Wheels for Fordson and Trucks.

GOLF WHEELS FOR FORDSONS

The R. H. Golf Wheels are stronger, rims do not bend, 50% better traction, easier steering, and rounded edges. Many clubs are replacing old wheels with these stronger and better wheels.

Sold in singles, pairs or full sets. Immediate shipment. If your Ford or equipment dealer cannot supply, write direct.

R. S. HORNER, Geneva, Ohio
Mfr. of Golf Tractor, Spuds, Wheels, etc.

job; but, my friends, you will find that if tactfully approached a man will always respond to your request to quicken up a trifle, when he knows that the time gained is going to be used to his own advancement and the good of the course. This, at least, is my experience, for I have always found my men keen in this direction.

My experience has taught me that, however big the staff, all can be made as one; this again by the use of a little tact. I have adopted in the ordinary work on the course a mild form of competition with the very best results, one of which has been to bring out the better man. This gives the man confidence in himself, and those not quite so good confidence in him. At the same time the greenkeeper is in the position "of being able to select" his understudy without friction of any sort, which is certainly most desirable.

On the other hand I admit that without tact the result of such a competition might upset a whole system of good work.

One must be diplomatic in all things, strict with regard to timekeeping, as ready to play as anyone when the leisure time comes, but stern when necessary. Encourage your men by never failing to appreciate good work done. Such a policy, I am sure, cannot fail to give the greatest satisfaction to those who work under you and to the club who employs you.

NEW BUDD BLADE PERMITS SHORTER MOWING.

Ravenna, O.—Engineers of The Budd Mfg. Co. have recently embodied new feature in the Budd "4 cutting edges" blade that will strike a responsive note among mower users everywhere. This feature is a tension plate, which fits between the mower bed plate and the Budd attachment, thereby, it is claimed, allowing shorter mowing, an advantage many mower users have long wanted. Moreover, this tension plate feature is said to provide an easier cutting touch on the reel. The new feature is supplied only on Budd equipment made for mowers of 22-inch cutter bars, and larger.

HOVEY CATALOG OUT

Boston, Mass.—Hovey & Co., 150 Milk St., have a new edition of their catalog of course supplies and equipment. The catalog gives extensive detail concerning a big line. A copy will be sent free on request to any greenkeeper or chairman.
