Brentwood is allowing his experience to work for the good of its members is told in a recent issue of the club's fine house organ, *The Brassie*. That paper says:

"At the last meeting of the Board of Directors Olin appeared at the meeting for a good old-fashioned 'get-together' talk concerning cooperation between the Board of Directors and himself as the club professional."

"Clarence Runkle suggested that Olin attend future Tournament and Entertainment meetings in order to assist and advise in making these gatherings of even more interest than heretofore.

"It was decided that Olin should have the privilege in the future of attending board meetings that he might assist with his experience in making golf play and other related enjoyment of more interest to the Brentwood players.

"Many ways and means were discussed between the board and Olin for better contact and understanding and the future assures interesting results because these cooperative efforts have been arranged."
