ENGLISH HEADS EMPIRE SUPPLY BUSINESS AT NEW YORK

New York City.—Harold J. English, for 12 years in the golf course supply business, the last six of which have been as v.-p. and sales mgr. of Arthur D. Peterson, Inc., has established Empire Golf Course Supplies, Inc. An extensive line of equipment and supplies will be handled. The company's first catalog will be issued soon. Empire's address is 11 East 44th st., New York. Telephone number is MURray Hill 2-3070.

SCHAVOLITE FOLDER DESCRIBES TEXTOLITE COMPOSITION

Long Island City, N. Y.—Schavolite Golf Corp. has just issued an interesting folder explaining in some detail the materials and manufacturing process used in moulding their "Textolite" composition golf club heads, as perfected and produced by General Electric Co.

The material used in these heads, says the folder, is 14-oz. army duck, impregnated with a special resin developed in the G. E. laboratories. The heads are moulded under 125,000 lbs. pressure at 360 degrees, the resulting product being a substance 8 times harder than wood, and with tensile strength, weight for weight, of mild steel.

SAVE YOUR GREENS AND BANK ACCOUNT - WITH FUNGO AND VEG-E-TONIC

Operate your course for less this season. Investigate—

FUNGO for Brown Patch

... and other fungus diseases. Also controls worms, grubs and other vermin. Very economical. Makes purchase of Lead Arsenate and other insecticides unnecessary. Don't buy a pound of fertilizer without investigating

VEG-E-TONIC

Golfdom's soluble turf food. Cuts expense way down. Free from inert "filler." Send for the McClain Monthly Schedule System of green treatment. Mailed free on request. Our system will save you money.

NEW MODEL STAUDE GENERAL UTILITY TRACTOR

New York City.—The 1932 model of the Staude general utility golf course tractor was shown for the first time at the Greenkeeper's Show at Hotel Pennsylvania.

Although the Staude has several new features, the outstanding one is the new silent drive. The mechanism of this drive is quiet in operation and does not disturb the players on the course. Wheels are so con-

On the new Staude tractor wheels are easily replaced with Ford pneumatic wheels for paved roads.

structed they may be easily and quickly removed and pneumatic tired Ford wheels put on. This allows the Staude to be driven on paved roads and streets.

This model is equipped with an air cleaner breather cap on the oil intake and a new and improved air cleaner on the carburetor, giving protection to the motor. It also has a self starter, generator, battery and muffler.

ECONOMY

Quick Coupling, Adjustable Opening Valve

Recommended for all hoseless sprinkling systems for golf courses, where speed, economy and efficiency are desired. Write for name of our agent nearest you—he will give free demonstration.

 SEATTLE, WASHINGTON

JACK DARAY

Winter Address: 1640 W. Beach Drive,
Biloxi, Miss.
GOLF ARCHITECT
Personal Supervision of
CONSTRUCTION AND MAINTENANCE

Its makers say of the machine: "It is light, speedy, powerful and noiseless. It pulls from 5 to 7 30-inch cutting units and rollers weighing up to 6 tons. It will also pull sprayers, plows and discs and is equipped with all steel dump body for hauling dirt and sod. An adjustable hitch is provided so that any make or style of implements such as mowers, sprayers and rollers may be attached quickly. The steel tractor wheels run on Timken roller bearings and owing to their wide surface and rolled edge rim, do not tear up or damage the turf. Repairs are seldom required."

The Staude has been manufactured continuously since 1916 and is sold on a money-back guarantee. It is sold and can be serviced by any Ford dealer. The E. G. Staude Mak-A-Tractor Company, St. Paul, Minnesota, will furnish additional information without obligation to anyone interested.

BAYER UPKEEP MOVIE GOES BIG AT GREENS SHOW

New York City.—A feature of the recent N. A. G. A. Convention and Show was the educational motion picture film "Golf Hazards," presented by Bayer-Semesan, and showing a golf match between the greenkeeper and his green-chairman an unusual scene of a Rhizoctonia fungus actually growing and producing its mycelium (the cobweb-like growth seen in the early morning on brown-patch spots), views of various types of brown-patch and how to control them—and interesting views of clubhouse and courses.

This one reel film is available either in standard 35 mm. or home movie 16 mm. sizes for showing at greenkeepers' meetings or other assemblies of persons interested in turf by writing to the Bayer-Semesan Co., 105 Hudson st., New York, N. Y., manufacturers of Nu-Green and Semesan. There is no charge for loan of the film.

The Peerless Mower Sharpener

NEW MODEL D
Grinds all type of power-driven, fairway, putting green and hand mowers without removing mower wheels or reel knives. Carriage has travel of 42 inches. Very fast and extremely accurate. 6-inch grinding wheel driven by 1/3 H.P. motor and V belt. Very quiet running.

A Reconditioner Attachment can be furnished at an additional price for "lapping in" putting green mowers with emery paste. This Attachment can be quickly clamped to the Sharpener by two clamps. Write for Catalog.
