

STEEL TABLE FOR TABLE-TENNIS IS NEW DURABILT PRODUCT

Aurora, Ill.—Durabilt Steel Locker Co. recently has put on the market a steel table for table tennis, suitable for indoor and outdoor use. The table has a special rust resisting treatment under a baked enamel finish, which makes it a lasting all-weather table.

Legs fold under the table, which may be separated in half for easy portability. The

Durabilt tennis table stands exposure.

reinforced steel top furnishes resiliency and the "bite" on the surface finish takes chops, cuts and spins. The table is finished in dark, satin texture green which is easy on the eyes. Weight is sufficient to make the table stay put. Design and construction make the table one that will not warp or crack and which will furnish a level playing surface regardless of weather conditions to which it is exposed.

Complete details will be furnished by the makers.

NELSON CO. INTRODUCING NEW TEE SPRINKLER

Peoria, Ill.—L. R. Nelson Mfg. Co. announces their new Tee Sprinkler. It is a whirling sprinkler with a 20-inch arm spread and 12-inch roller base. It is designed, say the makers, for sprinkling tees, practice greens and other smaller areas, covering evenly a circular area from 30 ft. to 100 ft., as desired.

Mr. L. R. Nelson, president of the company, stated, "We have been impressed with the need that exists for a tee sprink-

ler. After a long period of development and testing, we are pleased to announce the new Tee Sprinkler. Only such minor adjustment as efficient operation on different pressures required has been provided, and that very simple and easy. In fact, for all practical purposes, it may truthfully be

said that there is nothing to adjust. The Tee is a fit companion for the popular Lark."

DEVELOP POISON BAIT THAT EXTERMINATES MOLES

Herb Graffis,
Editor, GOLFDOM,
Chicago.

Sir:

In May GOLFDOM I note on page 82 an article entitled, "Mole and Gopher Control," written by H. L. Parten. In this article Mr. Parten advises that poison bait does not affect the mole and I'd like to take this opportunity to strongly refute that claim.

For 2 years we experimented with a bait which proved effective on moles. After that period of experimentation, we brought out Dolco Nomole, which has been used by a number of the leading clubs in the country. Incidentally it is being used by the Fresh Meadow C. C., where the National Open championship is to be held. We have here in our office definite proof in the form of letters from greenkeepers, estate managers, superintendents of cemeteries and others, which back our claims to the fullest extent.

Dolco Nomole is easy to apply and does away with unsightly and as you know, gen-
