SCORING SYSTEM TO HELP PLAYER IMPROVE GAME

Detroit, Mich.—"How many and what holes have you made in par?" "What is adding strokes to your score—your long game, approaches or putting?" "Do you know, or do you just think you know?" "Where can the pro do me the most good?" The golfer can answer such questions accurately if he will keep records of his game in "The Goddard Permanent Record Golf Score Book and Guide to Better Golf," according to the publishers, Jay Publishing Co., 1214 Maccabees Bldg.

Pros. and club officials can secure a sample copy of Goddard book by writing to the publishers at the above Detroit address.

IDEAL ISSUES NEW PRICE LIST

Lansing, Mich.—The 1933 price list of the Ideal Power Lawn Mower Company's line is now available at any dealer's office or from Ideal direct. Substantial reductions are given on many supplies and items of equipment.

McGREGOR HAS NEW STEEL SHAFT "SHOCK ABSORBER"

Dayton, O.—"We tried some 23 different devices as steel shaft shock absorbers," says George W. Mattern, v.-pres. of Crawford, McGregor and Canby Co., "before we were willing to adopt one for general use on our clubs.

"We finally perfected what since has come to be known as the 'Neutralizer.' The MacGregor Neutralizer is a section of tough, springy hickory that fits inside the shaft where it joins the club head. This gives us three all-important benefits. First, it distributes the flexure of the shaft. Sec-

ond, it gives strength at the point of greatest strain. Third, it insures absence of all sting and vibration just as do hickory shafted clubs."

Mr. Mattern states that this improved construction was tested in several thousand clubs for two years. Results were that all the new 1933 MacGregor Woods and Irons are equipped with it except the least expensive models.

DESCRIBES NEW BRISTOL CLUBS

Bristol, Conn.—Bristol "individualized" golf clubs, made by the Horton Mfg. Co., are fully described in an attractive and informative catalog recently issued. The Bristol people, as well known makers of steel shafts, now are making the complete clubs in their factory and call particular attention to the feature of the clubhead and shaft being "geared together." Eleven models of woods ranging in retail price from \$12 to \$2.50 a club, and 8 iron models from \$8 per to \$3.50 are described. Leading iron has a head with "pyramid" weight distribution.

COLLEGE RATES FUNGOL HIGH FOR WEBWORM CONTROL

Canton, O.—"Tests made by the Rhode Island State college rank Fungol as one of the two leading products for the control of sod webworm. They applied Fungol successfully at the rate of one-third of a pound in 20-gallons of water which was used as a spray." McClain Brothers Co., makers of Fungol add: "Fungol controls many soil pests for the greenkeeper in addition to the sod webworm. Sufficient applications to kill the webworm will also take care of brown-patch and other vermin such as grubs, beetles, snails, earthworms, etc."

Brothers Co. has made a complete study of lawn and greens maintenance and recommends most strongly that regular spray applications be made. Looking toward a control of these troubles rather than waiting until trouble develops before taking action, a systematic control chart has been worked out which can be had free by addressing McClain Brothers Co., Canton, Ohio.

REDDY TEE BUSY AT NEW JERSEY HEADQUARTERS

Newark, N. J.—Reddy Tee Co. has moved from New York and now has headquarters located at 241 Springfield ave., Newark. Telephone is Essex 3-2971. All lines other than the Reddy tee have been discontinued by the company which now is putting plenty of heat on Reddy tee sales. New retail price of two boxes of Reddy tees for 25 cents—15 cents a box—have been established. Stickers announcing the change in retail prices have been sent to the pros.

The company now is supplying the pro trade through jobbers so the pro can centralize his buying.

The new deal gives the pros a better profit on Reddy tees, say its makers, who

also point out that it has been the "in-fringers" and not the original Reddy tee makers who have played the devil with the pro business and profits on tees.

McGREGOR PLANT RECOVERS QUICKLY FROM HURRICANE

Dayton, O.—A hurricane which caused a property loss of a million dollars in Dayton on May 9th struck the plant of The Crawford, McGregor & Canby Co. with an estimated damage of \$150,000. The seasoning sheds in which are stored thousands of persimmon heads going through the seasoning process were completely razed but without harm to the contents.

In spite of this damage, the McGregor organization resumed manufacturing operations the following day and regular shipments were leaving the factory 48 hours later. H. B. Canby, president of the company, said, "The most disheartening thing about this storm is that it completely destroyed a number of fine old trees around our plant. Today they lay stricken and dead and all the tornado insurance in the world cannot bring them back. If you have ever lost a tree you can appreciate our feelings."

An advertisement in **GOLFDOM** saves the club officials time and money by getting responses from the best men available. The club department heads who advertise for positions in **GOLFDOM** obviously identify themselves as men who go after their problems in the right way. They are good men for you to give preference.

WANTED SALES REPRESENTATIVES

Men who know the pro trade and are calling on it are wanted on a commission basis to sell the Swingmaster, which is strongly endorsed by foremost golf instructors as the best teaching and practice introduced for years.

Many pros are selling dozens of Swingmasters monthly at a good margin of profit.

Interesting proposition for sales representatives but we will tie up only with workers who really know the pro trade. Tell details of your connection with pro trade, plans for making your territory and furnish references in first letter.
