Canby. "With this foundation to build on, we are in a position to lay, and carry out, an unusually aggressive and ambitious selling program for the coming year."

NELSON OFFERS HALF CIRCLE POP-UPS FOR GREENS

Peoria, Ill.—A new method of sprinkling greens without hose or portable sprinklers is being offered by the L. R. Nelson Mfg. Co., in connection with their half circle

pop-up sprinkler. A feed pipe is laid round the green and feeds the three, four or five pop-ups which are set in the ground just off the green, at locations where the half circle sprays will completely cover the green.

It is only necessary to turn a valve to give the entire green an even shower, L. R. Nelson reports. Where the water supply will permit the sprinkling of nine or more

greens at one time, the entire number can be sprinkled by merely turning a valve in the main supply line. The economy in this method of sprinkling is evident, since it eliminates the night man.

The cost of Pop-Up heads required for a green is about the same as the cost of a portable sprinkler and the 1-inch hose required for sprinkling this same green in the old way. The permanent pipe which is laid in a shallow trench around the green, can be laid in a few hours, without injury to the sod, if the sod is promptly replaced and wet down. The heads are set even with the surface of the sod so the mower will run right over them and they will not interfere in any way with balls or players.

The driving principle used on the half circle pop-up has been in constant use for two years with remarkable results. Rotation of the stream is accomplished by a stainless steel ring which simply refuses to wear out. When once set they never require further adjustment.

DOLGE LINE FOR 1935 WILL HAVE NEW ITEMS

Westport, Conn.—C. B. Dolge Company is making active plans for increasing its service to the country and golf clubs throughout the country.

Further research is being carried on in the use of Diworma, well known worm eradicator and brown-patch preventive and control work and results so far ob-

DIAMOND

Steel Center
Tractor
Spud

Always
Sharp

Extra hard steel core keeps spud sharp until completely worn away. Softer outside steel wears first, leaving harder center. Will not harm turf.
